### A FORWARD STRIDE TO EARLY PEACE

Invitation to German Delegates Means Speedy Signing of Pact.

Vain Attempt to Ease Terms Confidently Expected in Paris.

New York, April 15 .- The Associated Press tonight issued the following summary of the international situa-

A sharp forward stride toward an early peace has been taken. The council of four in Paris has formally invited Germany to send delegates to Versailles April £5, there to hear the verdict of the entente allies and associated powers, and the sentence they have imposed upon her for having set the world aflame.

The general opinion in Paris seems to be that Germany may endeavor to haggle over the hard terms and try to secure a diminution in their severity, but that within a relatively short time the delegates will bow to the inevitable and sign the compact. Advices from London are to the effect that the terms of the peace treaty will not be made public until they have been delivered to the Germans. Considering Adriatic.

The Adriatic situation as it affects aly and Jugo-Slavia is now the chief point under consideration by the council of four. Arthur J. Balfour, the British foreign minister, is acting as alternate on the council for David Lloyd George, who is on a visit to

England.

Pending the conclusion of the peace agreement, Germany is to be permitted by the allied governments to purchase surplus stocks of their raw materials. This has been decided on by the economic council. The decision will permit. Troublous times continue in Bavaria. The communists in Munich again hold the upper hand, according to reports. There has been further heavy fighting in the streets of the city. The strike in Danzig which had been in progress for several days, has ended. The strike of the bank clerks in Berlin, however, is in full swing, and the clerks in Mannheim and Chem-nitz have joined in a similar move-

ment. Considerable fighting has taken place on the Russian fronts. The Bol-sheviki have suffered severe defeats on the Archangel and Murmansk coast sectors at the hands of the allies, but in the south Rumanians have been compelled by the Bolsheviki to retrea over a wide front into Bessarabia. Petlura, leader of the Ukrainian peasant army, also has been forced to cede ground to the Bolsheviki.

German Authority Says Alsace and Lorraine Now Favor Annexation.

Berne, April 15.—If a referendum was to be held today in Alsace and Lorraine an immense majority of the people would vote in favor of joining France, declares Eduard Bernstein the old German Social Democrat header and a member of the German peace delegation, in an article in The Neue Weiner Journal of Vienna. Alsace-Lorraine, he adds, could not be an autonomous state because it wou'd then be the scene of endless political and economic intrigue.
