before the consecration of Parker can be proved invalid.

Finally, was Parker a priest at the time of his consecration? The Pope lays much stress on this point, claiming that the ordinals by which he was ordained were not sufficient; that he was not given the power of Sacrificing the living and dead; and that he had not received the unction. Now history shows that these ordinals in the Catholic Church are of modern invention and that all consecrations made previous to their invention must have been false. However, the Reformation robbed from the Catholic Church the power to say what ordinals the English Church shall use in her consecrations, and so their validity on this last point must stand.

On concluding Professor Clark said that the Church rested its power on the work of Christ and not on any human institution; that the Church of Engiand made for civil and religious liberty, which liberty was extended to Catholic and Protestant alike.

Among the pleasant recollections of Toronto which Mrs. Clemens of New York City will carry back with her will be the successful recovery of a purse and the wide-awake courtesy of its street car conductors. Last Saturday Mrs. Clemens took a Yonge-street car to do some shopping. Woman-like, she carried her purse in her hand, and on getting out left it on the sent behind her. Conductor McKenna, coming into the car a moment later, aw a woman pick it up, but she did it in such a manner that his suspicions were aroused. As the fair claimant had no idea what the purse contained and became confixed when questioned, the conductor took possession. The woman left the car angrily. On the car's return Mrs. Clemens boarded it and at once proved ownership to the purse. It contained \$60, out of which several bills were pressed upon Conductor McKenna as a thank offering for his services.

The First Sod Turned.

The First Sod Turned.

Before sunrise yesterday, while the pretty hamlet of York Mills was wrapt in alumber and moonlight, the first spadeful of sod on the hill above was turned over to prepare the way for the ralls that the Metropolitan Company hope by Nov. 20 to have laid down between the present terminus of the line and Richmond Hill, some nine miles northward. Early in the day a gang of 75 men were at work and by night had surfaced for three-quarters of a mile. Instead of laying the line on the west side of the road, as is the case south of York Mills, the northern portion will be laid on the east side. The work between the top of York Mills hill and the present terminus will be taken up later on.

Dr. Robertson Goes Abroad. Rev. Dr. Robertson Goes Abroad.

Rev. Dr. Robertson, Superintendent of Missions of the Presbyterian Church of Manitoba and the Northwest, leaves this week for Great Britain, where he will spend the next six months in the interest of Canadian home missions of the Presbyterian Church. A large number of congregations, as well as wealthy friends throughout the country warmly interested in the Canadian field, are already authorized to give their support, and it is hoped that as a result of Dr. Robertson's visit many more congregations will become interested in the work.

Colombo, Ceylon, Oct. 26.—The British steamer Taif, Captain Lemere, from Mauritus for Bombay, foundered at sea on Sept. 24. Seventeen of her crew and passengers, all natives of India, were drowned. The remainder of the passengers and crew have arrived here. The Taif was a steel screw steamer of 1408 gross tonnage, 224 feet 6 inches long, with 22 feet depth. She was built at Whitehaven in 1884, and owned by Hajee Cassum Joosub of Bombay.

A Sensible Suggestion.

Editor World: Noting your paragraph in to-day's World to the effect that Mr. Leopold Meyer was on a special visit to ascertain prospects of mining in Canada as a profitable investment on behalf of a wealthy Belgian syndicate, and that it was his intention to pursue this inquiry in British Columbia and the Northwest, it is somewhat mortifying to see our own Province of Ontario apparently given the go-by in such an expedition as he contemplates.

If we had in Toronto a mining exchange, in to-day's World.

Mr. A. B. Owen's letter in reference to proven the reference to a stonishment to me that I have seen or heard so little of them in the way of seeking assistance or formulating criminal offences; but what really is a trouble to me is the number of our own young people being committed for our own young people being committed for other places of confinement, or seeking results of things existing has been the importation of so many boys from across the Leopold Meyer was on a special visit to ascertain prospects of mining in Canada as a profitable investment on behalf of a wealthy Belgian syndicate, and that it was his intention to pursue this inquiry in British Columbia and the Northwest, it is somewhat mortifying to see our own Province of Ontarlo apparently given the go-by in such an expedition as he contemplates.

If we had in Toronto a mining exchange, where such a gentleman could meet the men who know and could communicate to him their information as to the value of Ontarlo as a subject for his inquiry, and put him in the way of judging for himself as to the merits of this province, so much nearer to Belgium than the Pacific coast, a share of the capital which he re-

go-by in such an expedition as he contemplates.

If we had in Toronto a mining exchange, where such a gentleman could meet the men who know and could communicate to him their information as to the value of Outario as a subject for his inquiry, and put him in the way of judging for himself as to the merits of this province, so much nearer to Belgium than the Pacific coast, a share of the capital which he represents might come here.

Without some such centre, where concentrated and official information can be easily got, we are a good deal handicapped.

Will some one move in this matter?

I would be pleased to have an opportunity of joining a movement in this direction, and enclose memo of my name, should anyone desire to have it.

Oct. 24.

Mrs. Clemens Was in Luck.

Among the pleasant recollections of Toronto which Mrs. Clemens of New York City will carry back with her will be the successful recovery of a purse and the wide-awake courtesy of its street car conductors. Last Saturday Mrs. Clemens took a Yonge-street car to do some shopping. Woman-like, she carried her purse

Nearly \$2,000,000 in Gold. New York, Oct. 26.—The steamer Etruria which arrived from Europe yesterday brought \$1,973,000 gold.

Do You Use It?

~~~ It's the best thing for the hair under all circumstances. Just as no man by taking his stature, so no preparation can make hair. The utmost that can be done is to promote conditions favorable to growth. This is done by Ayer's Hair Vigor. It removes dandruff, cleanses the scalp, nourishes the soil in which the hair grows, and, just as a desert will blossom under rain, so bald heads grow hair, when the roots are nourished. But the roots must be there. If you wish your hair to retain its normal color, or if you wish to restore the lost tint of gray or faded hair use

Ayer's Hair Vigor.

A coward indeed is he who responds not promptly to the cry for help. And still sometimes we hear it and know not whence it comes. Everybody doesn't know how the kidneys cry for help-but they should know.

Kidneys can't shout like the desperate man surrounded by danger; they are none the less emphatic, though, and the warning they give comes with no uncertain sound. Kidneys are the busiest organs of the body; every minute of the day they keep up the never-ceasing filtering of the blood. Filter! Filter! Filter! taking out the poisons, carrying off impure matter; lucky they are inside the body or their delicate fibres would soon wear out. Don't you often go home at night all tired out? Well, it's just the same with the Kidneys; they get tired out, but they can't stop; must go on or trouble comes. Many a little thing gives the kidneys trouble, stooping positions, on the feet too long, a cold, a fall or an injury—perhaps only a little twist in the fibres, but enough to block the filters; then they warn you. Look for it; being located near the small of the back there's where they cry for help. Easy to answer the cry when you know Backache is kidneyache and back pains mean sick kidneys. Go to their assistance, go equipped for the struggle. No weapon so sure as Doan's Kidney Pills; they're made for it-made for kidneys only. Doan's Pills have cured more cases of kidney ills, of Diabetes, of Urinary disorders right here at home, in Toronto, than all the kidney medicines in existence. We have proof to back this statement and are publishing cases every day. Read

them or write us for copies of home endorsements. Doan's Kidney Pills are sold by all dealers. Price 50 cents per box, or six boxes for \$2.50. Sent by mail on receipt of price.
