A Co-operative Association Cannot Buy Goods on Credit—The City Settles a Case-To-Day's Lists.

Wyoming Co-operative Ass (Limited) was incorporated under R. S. O., ch. 106. Struthers & Co., merchants, of London, Ontario, sold goods to the association on credit. Struthers & Co. drew on the association for \$41.16 at four months, and for \$51,77 at five months. The drafts were accepted for the association by George Hartley, the treasurer, under general instructions from the Board of Directors. Subsequently the stock in trade was sold by the association and the proceeds, together with other assets, applied in payment to a bank claim of liabilities of the directors, incurred to raise money to buy goods for the association. Struthers & Co. then sued Hartley and the directors. Chief Justice Armour delivered the judgment of the Q. B. Divisional Court, affirming the judgments of the Ghancellor, who held that Hartley and the directors of the association were not liable. The association by statute is not allowed to buy goods on credit, and the curt finds that there was no express warranty of authority, and, in fact, an action is not maintainable upon an implied warranty of authority in law only. months, and for \$51.77 at five months

McIntyre & Wardwell (John J. Dixon), received the following despatch from New York to-day:

The general market ruled dull and steady this afternoon. There was an upturn in Tobacco and a considerable trade in the stock. There were rumors of a favorable decision in the New Jersey case. It is said there is a diffegence of opinion in the Manhattan Board of Directors about the dividend, and that while Sage advocates a reduction, the Gould party favors the maintenance of a 6 per cent, rate, and the maintenance of a 6 per cent, rate, which advanced from 23½ to 23½. The rumor was that J. P. Morgan & Co., and other large interests have secured the packer Estate stocks and that the road will now be worked in harmony with the other anthracite coal roads. London market closed with consols up and gold being returned to the Bank of England, This would indicate rather pacific news in the close the following despatch from Chicago and the control of the packer in the would indicate rather pacific news in the close was due to short buying, and put holders securing profits. News generally could be called more than favorable to the market, but the short interest was so largely eliminated by the war rumors that the news did not have any effect. Wheat on passage decreased 1,600,000 bushels. Our visible supply decreased from the world indicate rather pacific news in the world's stocks as compiled by Bradsteet. Thoman estimates wheat in fainters' hands at 124,000,000 bushels for export.
