Aldermen to be Sued if They Vote Away Any Civic Cash Without Legal Authority.

How Fear Overtook Them.

Ald. Davies wanted sewage disposed of first, and reverted to the old idea of a reservoir at Scarboro Heights. But Ald. Crane and Hubbard united on a policy of half-measures. They would ask the people for \$33,000, to buy the new pumping engine, lay the i6-foot pipe and run for the present a 36-inch main up Bathurst-street and along Dupont, Yonge and College-streets, to Rose-hill Reservoir, leaving the tunnel out.

They found, however, but one supporter, Ald. J. J. Graham. Ald. Lamb's motion was supported by Ald. Denison and Saunders. Both were thus voted down and the Board of Control must think overtime.

The argument over the estimates brought out one or two other points. Commissioner Jones had made no appropriation for the watering of business thoroughfares demanded by the retail merchants. He found the committee united with Ald. Lamb, Crane and the Engineer against ruinous, continuous watering of asphalt. Another consideration militating against the merchants was the bleyclist, whom the committee did not wish to see endangered by slippery, greasy pavements. Mr. Jones' suggestion to flush the streets at night met with general approbation.

What They Will Do Without.

A further incident in supply was the announcement by the Street Commissioner that there were about 200 miles of sidewalks in the city needing repairs, but they cut him down \$2000 in his estimate, as will be observed in the following recapitulation of the day's work at the estimates:

Totals ..... \$81,900 \$138,996 \$86,800 Total struck off, \$52,196. Small Cut in Fire and Light.

hinder it would be a finding that the work on the Symons basis could not be done for the \$150,000 voted by the people. The Sheard figure of \$300,000 or \$400,000, rung in as a roorback by opponents of the scheme will be found to be inflated when the plans and estimates are made public, for a competing architect of repute assures. The World that his plan will cost \$5000 below the limit figure. It is according to specification, he gives assurance, and is likewise buttressed by bona fide tenders to do the various portions of the work by reliable firms.

Another Graduate of Toronto University Wanted by Uncle Sam.
Collingwood, Ont., April 11.—The three little children of Batsom Haines, 353 Meidrum avenue, were playing in the yard this afternoon. Little Nellie, aged 4, and Glenn, aged 2 years, had matches and were amusing themselves scratching them and watching themselves scratching them and watching them break out into miniature biazes. Suddenly their clothes caught fire. They ran screaming to their mother, enveloped in flames. The mother struggled for several minutes, badly burning herself about the hands and arms, trying to rescue the little tots. Dr. Dewar was called, but the two little ones were beyond human aid. They were horribly burned.

# Us a blood —Purifier there is mothing to equal

From Dr. W. H. Wright, L.R.C.P.I., L.M., M.R.C.S.E., L.S.A.I., Medical Officer of Health, London, England:
"Our artificial mode of life constantly causes such changes to take place in the quality of the blood, that it frequently becomes impure, and we fall an easy prey to infectious diseases and blood disorders of all kinds. I strongly advocate keeping the system cool and the blood pure, and I know of no better remedy than your Abbey's Effervescent Salt,"
