During July and August this store will close daily at 5 p.m., and every Saturday at 1 p.m.

# Early Closing Sale for July

During July and August our Early Closing Time-table will have full effect. That is, we'll close daily at 5 o'clock and every Saturday at 1 o'clock, which means fifty hours a week for work instead of sixty—five days instead of six.

To emphasize our Early Closing we have planned an Early-Closing Sale, commencing Wednesday morning, for the month of July. It will be an occasion deserving the thoughful attention of every careful, wideawake shopper within our reach. It will be a trade movement worthy of this store.

Our programme of events for this sale will comprise offerings from every department in the store. These offerings will be values representing extraordinary money-saving for shoppers of every circumstance. From day to day we'll keep you posted through these columns. But even so, you'll miss many of the good things unless you visit the store. Come early, come often. Every day-twice a day if you can. It will pay, and pay you big. Come and see.

Wednesday is the Opening Day of this Early-Closing Sale. To show what we mean to do we mention one offering from each department. Of course, many others will be ready at the same time, and all equally as good as these. Come and you'll have no trouble in finding them.

### Meats

The mental misery of the prospective mother is in general the result of her physical condition. She is nervous, her appetite fails, she cannot sleep. Restore her cannot sleep.

store her appetite, quiet her nerves and give her sleep and she becomes a "It has made a new woman of me," is the constant testimony of women who have used Dr. Pierce's Favorite

female weakness.
"During the first month, when I looked forward to maternity. I could not keep anything on my stomach," writes Mrs. H. C. Anderson, of South Britain, New Haven Co., Conn. "Was so weak that I went to bed on the 28th of June and never got up till the first of August. I tried different doctors, but with little benefit. I read about many being helped by using your medicine, so I thought I would give it a trial. I began to take your 'Favorite Prescription' in November, and I had a nice little baby girl in Pebruary following. My baby weighed over eight pounds. I was only ill for about one hour, and got along nicely during confinement. Was up and dressed on the eighth day. I never had the doctor with me at all; just the nurse and one or two friends. My friends thought I was sick a very short time. This makes my second child. With the first one I did not take 'Favorite Prescription.' The little one lived just about two months, and she was sick all the time. This last baby is as plump and healthy as any mother could wish."
