The voters of Ontario will to-day vote on the question, "Are you in favor of the bringing into force of the Liquor Act of 1902?" Both sides appear confident of the result. On the eve of the final battle at the polls The World asked the leaders of both sides for a few words expressing their idea of the situation. This is what they say:

PRO-TEMPERANCE.
E. Dickie, secretary Ontario Licensed Victuallers' Association: On the eve of the vote I may say that we are confident that there will be a majority of votes polled against the Liquor Act of 1902. My reports show that the vote in the leading centres of population will be large, and that the business men are taking the same quiet interest in the matter as they did in Winnipeg, and I think the result will be the same in Toronto as it was in that city.

F. S. Spence, secretary Ontario Alliance: A good deal depends upon the weather. In the event of bad weather we are at a disadvantage. We have a certain point to reach, and if the liquor men were to fall in getting 100,000 votes short of what they expect, it would mean nothing against them in the practical result of the vote, whereas anything that will detract from our vote may prevent us from obtaining the number that we are trying so hard to obtain. But the situation is very encouraging. There has been a marvelous change within the last fortnight.

What It Does.
The Liquor Act of 1902 was passed by the legislature last session, and prohibits the sale of liquor within the province, except by licensed druggists. It does not prevent the manufacture, the exportation or the importation of liquor, those questions being entirely within the jurisdiction of the Dominion government.

Ontario has voted twice on the abstract principle of prohibition. On Jan. 1, 1894, at the municipal elections, the Ontario government took a vote of the voters. The question was, "Are you in favor of the prohibition of the liquor traffic?" and 192,489 answered "Yes," and 110,720 "No." The percentage of votes polled to the number of votes on the list was 55.21.

Again in 1898, Sept. 23, the voters were asked to say if they preferred the prohibition of the traffic to the existing state of affairs. The Dominion government asked for the expression of opinion, and in Ontario the affirmative answers numbered 154,498 and the negative answers 115,284. The total return of B. B. Law, Liberal, who has 2083 votes to 1285 polled by Thomas E. Corning, Conservative, at the general election. Flint's majority was 250 over Corning.

Record of Others.
Some of the other provinces have also had the question voted on independent of the Dominion plebiscite. Manitoba supplied with the question twice. On July 23, 1892, a plebiscite was taken with the result, Yes, 18,637; No, 7,115; proportion of voters polled to number on the list, 55.18. Then on April 3 of this year the Roblin government submitted a referendum after passing a prohibition bill in the house, the same bill that was pronounced void by the Privy Council, and adopted by the Ontario government and the Ross Liquor Bill. There was a good deal of dissatisfaction with the referendum, and when the votes were counted the result stood: Yes, 11,137; No, 17,464. Consequently the Manitoba Liquor Act does not come into force. Prince Edward Island submitted a plebiscite on Dec. 13, 1893, 10,585 votes being for prohibition, and 3,331 against. The percentage of votes polled to number on the list was 57.82. Nova Scotia voted on March 15, 1895, with the following result: For, 48,736; against, 12,335; percentage of votes polled to number on list, 59.49.

It was decided to summon a national convention as soon as the land bill of the Irish Secretary, Mr. George Wyndham, was introduced in the House of Commons.

"OUT OF COURT" TALK.

Chairman of Coal Strike Commission Has Not Yet Lost Heart.

Scranton, Pa., Dec. 3.—The anthracite coal companies and their employees having failed to come to an agreement during the thanksgiving recess of the strike commission, the hearing of the miner's side of the case was continued to-day. With the re-assembling of the commission to-day, however, there was a revival of the talk of a settlement "out of court." Chairman Gray, speaking for the commission to-day, again expressed the hope that efforts would be made by both sides to agree on as many points as possible, and that the commission was ready to lend any conciliatory help to bring about that end.

ASSASSINS FOILED AGAIN.

Sought to Take Life of Japanese Emperor With Dynamite.

Victoria, B.C., Dec. 3.—The steamer Kaga Maru, which arrived to-day from the Orient, brought news of an attempt on the life of the Emperor of Japan when the imperial train was at Osaka, a station west of Hiroshima, en route to the scene of the manoeuvres of Kinshin. A number of conspirators had gone there and arranged to blow up the Emperor's train, but the police authorities learned of the plot and the would-be dynamiters fled. The imperial train did not proceed until after an engine had been sent over the line to test the safety of the track. The plotters were not captured.

FEDERAL BY-ELECTIONS.

Liberal Wins in Yarmouth to Succeed Clerk Flint.

Halifax, N. S., Dec. 3.—The by-election in Yarmouth to-day to fill the vacancy caused by the appointment of T. B. Flint to the clerkship of the House of Commons, resulted in the return of B. B. Law, Liberal, who has 2083 votes to 1285 polled by Thomas E. Corning, Conservative, at the general election. Flint's majority was 250 over Corning.

STILL ANOTHER LIBERAL.

Montreal, Dec. 3.—The Liberals are jubilant to-night over the result of the election in Argenteuil, where Thos. Christie, the Liberal candidate, defeated Mr. Perley by nearly 200. The Liberals say that the results in Argenteuil and Yarmouth presage a sweeping victory for Mr. Prefontaine, the Minister of Marine, in Maisonneuve, where the election will take place on Dec. 9.

Shots were exchanged, a few men were killed and thirty were wounded on both sides. Upward of one hundred strikers were arrested.

Canada First.
This cry is a sound one and should be encouraged. Anything Canada can produce better than or equal to the product of another country should be used in preference by Canadians. Why, for instance, should any of us drink foreign imported waters when from his spring in the grand old Laurentian gushes forth "Radnor," to be carefully bottled and sent all over the country, pure, sparkling and invigorating. Always ask for Canada's first mineral water, "Radnor."

WARSHIPS FOR BAILIFFS VENEZUELA MUST PAY

Great Britain and Germany on the Point of Punitive Measures.

London, Dec. 3.—Great Britain and Germany, according to official statements made here, have commenced punitive measures against Venezuela, which has vessels, it is stated, already on the scene of the contemplated action, and Great Britain, by tomorrow, should have a squadron there. Meanwhile, the Associated Press correspondent is informed that no definite answer has yet been received from Washington by the financiers here, who wish to bring about a pacific settlement. If the United States is willing to give its moral support to the request that Venezuela be allowed time to fulfill the suggested bargain, the plans thereof will at once be submitted to the British Foreign Office. If Washington refuses, it is probable that the financial house now interested will drop the plan altogether. In the latter alternative, the Venezuelan delegation here is likely to submit the suggested settlement to the British and German governments, with an application for time to admit of their entering into negotiations with other financial interests.

The Associated Press correspondent is in a position to state that Venezuela offers the payment on an unsecured loan of \$5,000,000, interest yearly guaranteed by the customs, with the establishment of a European bank at Caracas to superintend the collection. If such a method is now followed, the Venezuelan delegation maintains that all claims can eventually be met, whereas, it alleges that the temporary seizure of the customs would so disturb the commerce of the country as to practically render it impossible to satisfy the European bondholders, and might precipitate another revolution.

Mr. Marconi is enjoying relaxation from the work in which he has been engaged. He attended an afternoon tea given by the commander of the Carlo Alberto yesterday, and was present at a dance given by the non-commissioned officers to their friends Saturday.

BLOT OUT CHRISTIANS TURKS' HORRIBLE PLAN

Seventy Macedonian Prisoners Bound Together and Left to Starve to Death.

Vienna, Dec. 3.—The Evening Post, a Bulgarian paper, to-day prints a story of further and horrible atrocities inflicted on Macedonian Christians by the Turks.

According to the Post the Turks, among other things, placed red-hot iron cups on the heads of the Christians; pour burning petroleum over their feet and in some cases bind sixty or seventy prisoners together and leave them in this helpless state to starve to death.

The paper gives some particular cases of cruelty inflicted by the Turkish commissaries in their efforts to stamp out Christianity in Macedonia. It says: "A priest named Stefana of the Village of Padesh was forced to drink filth from a chalice. Sisters Zaukal Savita and Magda expired as the result of unmentionable tortures. Elder Nishal of the Village of Lesko, after being forced to witness the torture of both his daughters, young women, was himself roasted to death.

"A priest named Christo, in the Village of Selha, was compelled to oversee the murder of infants. He went mad as a result of his awful experience. The inhabitants of the villages of Karabaghar, Loydash and Klossera fled to the hills to avoid the Turks, and are now dying there of cold and hunger."

JULIAN RALPH STRICKEN.

Well-Known Newspaper Writer in Critical Condition.

The attack occurred last night, and Mr. Ralph is resting easier. He is expected to arrive tomorrow.

Mr. Ralph was appointed manager of the eastern headquarters of the Louisiana Purchase Exposition in New York yesterday, and last night a number of friends tendered him a dinner at the St. Louis Club in celebration of the event.

After the dinner he was attacked with a violent hemorrhage, which came without warning. He sank into unconsciousness. He remained in a semicomatose all night, but rallied somewhat to-day.

Education Bill Passes House of Commons by 249 to 123.

London, Dec. 3.—The House of Commons had the education bill under discussion to-day, and Premier Balfour, having appealed to the public spirit of all classes to do their best to insure the working of the education bill, than which, he said, no better alternative measure had been proposed, the House adopted the third reading of the measure by 249 votes to 123. The bill was immediately sent to the House of Lords, where, in the presence of only three peers, it was formally read for the first time.

WRECKS OFF BRITISH COAST.

Deadly Storms Rage and Lead Paralysis to Navigation.

London, Dec. 3.—Storms are continuing with great violence along the coasts of the United Kingdom. Many wrecks are reported, and bodies of men lost in these disasters are already being washed ashore. Navigation around the northeast coast is almost paralyzed.

The Norwegian barque Georges Ville has been wrecked at South Ronaldshay, in the Orkneys. Three of her crew were drowned, and her captain and three others of the ship's company were picked up on an Orkney coast, after having been seven hours in the water.

The British schooner Eliza Bain was wrecked at Sunderland to-night, while trying to make the harbor, and it is believed that all hands were lost.

The Danish brigantine De Los landed at Plymouth to-day, 13 of the crew of the Norwegian steamer Kong Sigurd, who were rescued by the De Los when the Kong Sigurd was on the point of sinking in the Bay of Biscay.

SHOT EMBEDDED 57 YEARS.

Gait Man Has Discovery Made By X Rays.

Gait, Dec. 3.—Fifty-seven years is a long time for a piece of lead to rest in the human body, but the record has been made. In 1845, Mr. James P. Lee, West Main-street, was shooting in Dickson's bush. The gun went off inopportunely, and a charge of shot lodged in his ankle. When the wound was dressed it was thought all on which had been removed. Years afterwards, however, the member became painful, and for the last two decades, has been more or less troublesome. Various operations were performed. Mr. Lee's physician, a short time ago, made an X-ray examination, and located 10 grains, one of which was extracted.

As far as is known, the history of surgery records no instance of a foreign matter being imbedded in the body for so great a length of time.

Charles Hadley and John Piggott, two of the citizens libeled, offer \$100 reward for the apprehension of the author.

ONE CHARGE IS PROVEN IN SOUTH OXFORD CASE

Argument to Be Heard on Friday—Sutherland Thought to Be Safe.

Woodstock, Dec. 3.—It was with difficulty that the petitioners in the South Oxford election protest trial prolonged the proceedings until 6 o'clock this evening, at which hour the case was concluded, after several charges had been abandoned as soon as the first witness was heard. Mr. Watson arose and said: "I'll rest the case there."

To-day two charges of treating fell thru, and, in addition, three charges of bribery. Previous to the adjournment of the court The Lordships Street and Britton gave judgment in relation to charge 70, that Stephen King of Innesville paid William Collins \$2 for his vote. This charge stood from the previous trial, and the judges disagreed. Judge Street held that the charge had not been proven, while Judge Britton found that it had.

Thus the case stands, with decision reserved, and one charge, No. 6, the "ivory charge" proven, and two charges where the judges disagreed. These latter will be heard by the Court of Appeal in January, while the counsel will argue the ivory charge before Judges Street and Britton on Friday in Toronto, to determine whether or not it is sufficient to unseat the respondent.

The personal charge, which is No. 102 in the list of particulars, and on which the judges disagreed, accuses the respondent of paying \$1 to a man named Lloyd.

Counsel for the Liberals will argue on Friday that the proven charge, coupled with the other charges upon which the judges disagreed, is enough to invalidate the election. On the other hand, the Conservatives hope to show that if it was shown that they had been bribed, this had been done without knowledge by the respondent's agents, and that the account had not been entered in the list of expenses. Conservatives generally hold to the opinion that the case against Mr. Sutherland has failed.

The Liberals brought 114 charges against Mr. Sutherland, and only one was proven.
