WANT RETURNED MEN TO GET SHARE OF REPAIR

The London command of the Great War Veterans' Association has sent a letter to the minister of militia asking him if it would be possible to give a share of the repair of army shoes to the returned discharged soldiers who have opened shoe repair shops in this city. At the present time there are about four or five returned men who have shoe repair shops in this city, and as the association understands that the department of militia has 30,000 pairs of shoes to be repaired, this work would be a great help to the men in the repair business. The letter adds that the association would like to see the work shared up evenly in every centre.

G. W. V. A. TO ORGANIZE TILLSONBURG BRANCH

A new command of the Great War Veterans' Association will be organized at Tillsonburg on the next few days. Secretary J. W. Cumliffe, of the London command, received a telegram Tuesday from the headquarters at Toronto stating that there are 150 members ready to be enrolled in this district and asking him and the president, Col. W. G. Cole, to go to Tillsonburg and form the command. The local command of the association is rapidly growing and many returned soldiers from Western Canada are coming daily. It is expected that within a short time this command will be one of the strongest in the organization.

CALL EXTENDED TO OWEN SOUND PASTOR

At the recent regular quarterly official board meeting of the Colborne Street Methodist Church, a unanimous invitation was extended to the Rev. S. Judson Kelly of Owen Sound to become the pastor of that church to succeed the Rev. Dr. F. Louis Barbour, who has accepted a call to St. Clair Avenue Church, Toronto, to take effect next June. Should Mr. Kelly accept the invitation, the matter will then rest with the transfer committee to effect the transfer of the minister to the respective conferences, Toronto and London.

AN ACTUAL OCCURRENCE IN THIS CITY.

One day last week a middle-aged man was heard to remark while looking at the display of "The Penetrate Treatment for Pimples," in a drug store window, "I wish I could have got that stuff 15 years ago. I wouldn't have false teeth today." Perfectly true. Use this treatment and save YOUR teeth.

WINGHAM LADY RECOMMENDS

Exciting & Heart & Nerve Remedy

Mrs. H. Hinchcliffe of Wingham writes to me as follows: "Hacking's Heart and Nerve Remedy has done wonders for me. I was on the point of a Complete Nervous Breakdown. I could not sleep nor plan my household duties; for years I suffered with my Heart and my Nerves and doctors could do little for me. I took Hacking's Heart and Nerve Remedy and proved so much in health that I took the full treatment of six boxes, and now I am feeling so much better that I am able to return to my work with renewed vigor. I am glad that I have at last found a medicine that has done me so much good."

People who are all broken down in health should take Hacking's Heart and Nerve Remedy at once. It is a powerful Tonic, Iron Compound or Special Preparation and gets 6 boxes of this great remedy, but be sure to get Hacking's. Price 50c a box, 6 for \$2.50. Sold by all dealers or by mail, C. B. Hacking, Ph.D., Ltd., Toronto.

FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

"Pape's Diapiesin" relieves stomach distress in five minutes.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and chest belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapiesin occasionally keeps the stomach sweetened and they eat their favorite foods without fear. If your stomach doesn't take care of your liberal diet without rebellion, if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops fermentation and acidity and sets things straight, so gently and easily that it is really astonishing.

NEARLY A THOUSAND RETURNED MEN ARE RESIDENT IN LONDON

S. A. Commission Monthly Report So States.

According to the report for the month of August, recently submitted by Secretary Ed Lance of the Soldiers' Aid Commission to the executive of the local branch, 473 returned soldiers have taken advantage of the facilities provided by the commission for their benefit during the month.

It is interesting to note that at the annual meeting of the commission held recently, Col. W. G. Cole, president of the London command of the Great War Veterans' Association, expressed his hearty approval of what is being done for the returned soldiers in this district by the Soldiers' Aid Commission of London. "Our men, and also the soldiers' families, are looking more and more to your commission to provide a central clearing place for the complaints and for obtaining of information," said Col. Cole.

The employment department of the branch is also kept busy endeavoring to place the discharged men, who often find it difficult to secure a suitable position, in some of the many openings available as to hinder their return to their former positions and necessitating individual attention in order to find a position that can be successfully handled by them.

In this part of the work a number of employers have assisted by offering positions to men applying for positions in far advance of the openings offered, and further co-operation by the employers would be greatly appreciated.

For the first time in almost three years no returned soldiers arrived in this city during the month of August. A very heavy time is expected when the men begin to return home.

The number of returned men resident in London has now grown to 987, according to the records on file in the office of the commission, which are subject to changes by the removal of men from London on the arrival of any men without knowledge of the local secretary.

The figures do not include the men who are temporary in the various hospitals and who are not actual residents.

JUST OUT OF HOSPITAL; WOUNDED SECOND TIME

Out of the hospital only three weeks, Pte. Howard Wilton of Mount Brydges was wounded a second time on August 21 and was removed to No. 3 Australian Hospital, Arthur Wilton, his father, received word that he had been wounded in the right arm and leg. It is not known how seriously he was injured.

Pte. Wilton went to France with the 15th about two years ago. He was wounded for the first time on July 21 of this year, returning to the trenches on August 9.

Pte. A. C. Ball is in hospital suffering from wounds and the effects of shell gas, according to word received by his father, Frank Ball, 311 Lorne avenue, last week.

Pte. Ball enlisted here with the Army Service Corps and was trained in the mechanical transport section. Before he donned the uniform he was accountant in the St. Thomas branch of the Canadian Bank of Commerce.

Conductor Lost His Chair But Old Lady Saw Great Picture

Not a seat was left in the Majestic Theatre last evening long before the hour came for the presentation of "Hearts of the World." But one little old lady had come in from a distance hoping to see the picture, and when Manager T. W. Logan realized her disappointment, he made another search of his own theatre in the hope that he might secure space in which her chair might be placed. But it was not to be found. Then the manager directed his gaze toward M. Jules Brazil, director of the special orchestra. Mr. Brazil was directing the music, but Manager Logan approached him and, before the director was aware of it, had the patient lady in the seat occupied by the conductor for the few minutes during which the score may be handled from a chair.

It was unprofessional, it was highway robbery, it was worse, and for a moment the director felt like saying things. But he deferred, when he saw who had taken his seat, and he stood through the program of more than an hour and a half, conscious of the enjoyment that the lady in the chair was securing from the performance.

T. AND L. CHARGES AGAINST THE FIRE DEPARTMENT OFF

The finance committee of the city council this morning agreed to the withdrawing of the trades and labor charges against the fire department.

The withdrawal letter was received at the last meeting of the council from President Joe Dean, and was referred to the committee.

The committee discussed the matter this morning. City Clerk Baker said that the judges would not go ahead on the 12th. Mr. Meredith has asked for instructions in regard to his part in the affair. He wanted to know what the charges were and how they were to be put.

The committee decided that it had no instructions to give in regard to the charges, taking the stand that all the committee had was contained in the charges.

This information will be sent to Mr. Meredith, and it is likely that the probe will go ahead at an early date.

MAKING PUNISHMENT FIT SERIOUS CRIME

Ald. Manness and Ald. Holmes did not prove equal to the call of the finance committee to get up early enough for a meeting at 9 o'clock this morning. They were late.

Mayor Somerville asked the chairman if there was not some law to make the aldermen get on the job on time.

Ald. Harley said there were lots of rules, but no way to enforce them.

However, as punishment the crying ones were named, with the mayor, as a special committee to go into the by-law relating to the fire department and adjust it.

NO TROUBLE EXPECTED.—It is believed that there will be no trouble among the local employees of the Dominion Express Company as the men here do not belong to the same organization as those in the eastern part of Canada. Every effort is being made to avert any strike among the men here. Dispatches say that 1,000 employees in the eastern provinces are on strike.

COMMITTEE NAMED TO FILL PLACE OF M. O. H. FOR LONDON

Body Appointed by Board of Health Will Report Tuesday Night.

E. H. Russell, E. H. Johnston and H. M. Douglas were appointed a committee of the board of health to deal with the question of choosing a man to fill the position of M. O. H. After some discussion this committee was appointed by the board of health at its regular meeting in the city hall Tuesday evening. The committee will meet and will have a recommendation ready for the next regular meeting of the board.

The report of Dr. Downham, acting M. O. H. for the month of August, was presented. There were only two deaths from scarlet fever, one claimed one, and diphtheria the other. Venereal diseases were the most numerous, with 31 cases; whooping cough followed closely with 28; scarlet fever, 9; chicken pox and diphtheria, 7 each; mumps, 5; sore throats, 3; typhoid and German measles, 1 each, completes the list as presented by the board.

The usual monthly report had not been received from the hospital, but from the records of infectious diseases kept in the city hall, it was found that 5 scarlet fever and 6 diphtheria patients had been admitted. All the scarlet fever cases were discharged, while 1 of the diphtheria patients died and 4 were discharged. The public health nurse made 141 visits during the month, besides seven visits to the children's hospital, and also attended four child welfare clinics.

Three hundred and thirty-six visits were made by the T. B. nurse. Twelve new cases were reported. There were only two deaths from tuberculosis during the month that had come under the observation of the T. B. nurse.

J. Lattman and J. W. Scott reported that sanitary conditions in the city were generally good.

The public utilities commission, in a letter to the board, intimated that steps were being taken to prevent collecting ponds at Springfield Park. The commission also stated that the collection ponds at Springfield Park were discovered and contamination prevented, the commission was greatly encouraged. The board of health thinks that the chlorination plant should be added as an extra precaution, and will act accordingly.

Found Conditions O. K. Dr. Downham reported that Capt. McNally, provincial health inspector, had visited the drain east of the city that had been said to contain sewage, and had found the conditions satisfactory. The sewage had been cut off that formerly found its way into the drain.

Miss M. A. Barons, the T. B. nurse, asked for an increase in salary to \$70 per month. She is now receiving \$65. This was passed over until the next meeting.

H. M. Douglas, in this connection, asked for a report of the employees of the board of health, with the salary each one is receiving. This was also ordered and will be presented at the next meeting. It was thought that the question of an increase could be more intelligently dealt with if this information is at hand.

No action was taken regarding the condition of the hotel at Port Stanley which Inspector Lattman reported was unsanitary. Capt. McNally had visited the spot and reported that conditions were satisfactory.

PIPE IGNITES OVERALLS.—Fire wren was a lighted cigarette placed in the pocket of a pair of overalls, resulted in damage of about \$25 at 1855 Dundas street, Toronto, recently. The firemen made a fast run and extinguished the blaze with the aid of chemicals.

VOICE OF THE PEOPLE

COMPLETE, GENERAL, PERMANENT.

To the Editor of The Advertiser: That the sale of gasoline on Sunday is unnecessary we have all along contended, and many of our readers are holding to the contrary. In conference with those in the business in many places, and in particular in the city of Toronto, we have had the opportunity of seeing the results of the sale of gasoline on Sunday. It is coming from unexpected quarters. A leading paper says it is no more.

TRAINED NURSE OF TORONTO NOW INDORSES TANLAC

Graduate of Dominion School Tells of Wonderful Results Obtained.

"I have found out the value of Tanlac by trying it myself, and I would advise anyone suffering from stomach trouble and a rundown condition to take it," said Mrs. Minnie Edmondson, residing at 17 Mackay avenue, Toronto, recently. Mrs. Edmondson, who is a graduate of the Dominion School of Nursing, has been a trained nurse for the past twelve years and her statement, coming as it does, from one of so much experience in relieving suffering, will be of wide interest.

"For some time," she continued, "my appetite had been poor and I suffered from nervous indigestion. I suffered constantly from a heaviness and pain in the pit of my stomach, together with a gaseous condition, that kept me feeling miserable and badly nearly all the time. What little I did eat seemed to give me no nourishment, as I felt tired and didn't seem to have much life and strength. My nerves were rather bad, and I was unable to rest well at night. My case had not reached a serious stage, but I knew if neglected it might develop into chronic indigestion."

"So I decided to try Tanlac, as I had read so much about it, and now I can't recommend it too highly. I have now taken two bottles, and all the pain and distress has left my stomach. My appetite is fine, my food seems to assimilate properly and I can eat what I want without suffering in the least from indigestion. The gas has stopped fermenting, and all that disagreeable feeling after eating is gone, and my nerves have improved until I sleep splendidly. After Tanlac helped me so much, I don't wonder that so many people who have stomach trouble with fine results. I have never made a statement about a medicine before, but I certainly do think Tanlac is fine and gladly tell others about it."

Tanlac is sold in London by Standard Drug Limited, and by an established agency in every town.

Alkali in Shampoos Bad For the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary unsifted coconut oil (which is pure and greaseless), and is better than anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get unsifted coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.—Adv.
