PERHAPS YOUR BACKACHE COMES FROM KIDNEYS

COMES FROM KIDNEYS

Not all backaches are kidney backaches, but many of them are, and at the first sign of back pains, twinges or weakness in the kidney regions it is a good plan to use a good, safe kidney regulator, such as a little Solvax, as even two or three doses will ofter enable you to see right where your kidneys stand.

If the kidneys are all right Solvax won't do them a bit of harm, and if they are weakened or run-down it will do them a world of good, for Solvax acts directly on sluggish kidneys, and cleans and strengthens them so that almost immediately they begin to filter and sift out of your body all the clogged up, poisonous impurities from the blood. Solvax usually will act in less than 24 hours, and with the kidneys acting normally you should begin to feel better right away. Solvax is a guaranteed remedy for Disordered kidneys, in that your druggist, and leading druggists everywhere who sell it, agree to return its price in any case where it does not give perfect satisfaction. There is no time like the present for doing a thing that ought to be done, and if there is any doubt about the kidneys, today is the best time to find it out, before serious trouble may begin. If your druggist cannot supply you, write, inclosing 50 cents, to Booth's Hyome! Company, Postoffice Box 388, London, Ont.

Nuxated Iron increases strength and endurance of delicate, nervous, rundown people in two weeks' time in toany instances. It has been used and indorsed by such men as Former United States Senator and Vice-Presidential Nominee Charles A. Towne, U. S. Commissioner of immigration. Hon. Anthony Caminetti: also United States Judge G. W. Atkinson of the Court of Claims of Washington and others. Ask your doctor or druggist about it. Ask your doctor or druggist about it

Secrets of Health and Happiness

What An "Itch" Is---Why Scratching May Be Dangerous

By DR. LEONARD KEENE HIRSHBERG. A. B., M. A., M. D. (Johns Hopkins University).

anatomical flash, which signals your brain that "some-thing is doing" at

a particular place.

The widely held notion that itching is a sign of healing is not correct. When your flesh itches it is, true enough, a sign of trouble, not of returning health. of returning health.

The impulse to scratch is according to Huxley, the muscular discharge aimed by the brain at some instrument located at the itching point. Briefly, then, the tiny nerve fibres interwoven in your dermal apparel becomes irritated and incensed by some interloper, such as a bacillus, the egg of a little mite, the itch bug, a hair, or some other pagan. At once as the outposts and pickets of your body dispatch an "itch" to the brain, the brain gets busy, moves

to the brain, the brain gets busy, moves the nearest muscle—usually your hand or fingers—to action, and then you scratch.
Scratching and picking are dangerous

Itching is one the dozen and more sensations included under the sense of touch. Tickling and prickling, tingling and burning, creepy and numb feelings are all first cousins to the itch.

Tickling and prickling, tingling a majority of bacteria.

and burning, creepy and numb feelings are all effect cousins to the fitch.

Itching is the constantial flash

Answers To Health Questions

A .- This is often the result of officiousness by barbers, scalp masseurs and others who know little of dermatology. Singeing, cutting the hair too much, washing it in soaps that have too much alkali and egg shampoo cause the hair to split at the ends. The ends should be waxed, the scalp massaged and treated with electricity.

A READER: Q.—What can I do for blackheads and enlarged pores?

A.—Gentle massage with a sterilized piece of absorbent cotton or chamois, followed by the application of a little paste made up with the following will below.

Fuller's earth 4 drams Scratching and picking are dangerous, even deadly habits, sometimes, not because nature has made a mistake, but for the two reasons that man has become coddled and susceptible to microbes, and even when cleanest has his finger hails full of microbes.

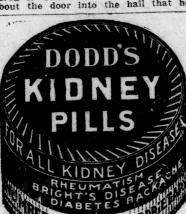

When a dog lifts up his hind paw and scratches his ear like a vibrating machine there is little or no injury to fear. When you scratch your nose, your eye or your flesh because it "itches." blood poisoning may result.

Why this difference? Not because nature has been kinder to the dog, but

why this difference? Not because nature has been kinder to the dog, but because dogs have become resistant to malicious microbes, and man living in ease and luxury has become susceptible to them.

When you, with the cleanest, daintiest, most polished hand scratch an itch.

The Adventures of the party Coon to the party for the porcupines was cases and angry for the porcupines was cases and angry for the porcupines was cases and angry for the porcupines. When Jimmy Coon tried to find out, all that distance when the saw that those rascals hadn't easten a bite of the hemick bark in loss of all that good of a secret. He is a carly for more provisions, and had not considered the porcupines. When Jimmy Coon tried to find out, all that good food a secret he loss of all the good food a secret he loss of all that good food a secret he loss of all that good food a secret he loss of all that good food a secret he last he found the new door in the loss of all the conditions the loss of all the good food a secret he last he found the new door in the loss of all the good food a secret he last he found the new door in the loss of all the good food a secret he last he found the new door in the loss of all the good food a secret he last he found the new door in the loss of all the secret he last he found the new door in the loss of all the conditions the loss of all the conditions

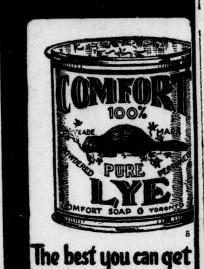

know what we have done!"

Jimmy Coon seemed to have a conscience. He felt sorry that he had taken all the good food, from the pantry shelves of Mr. Porcupine. He truly was ashamed of himself, and what made him ashamed was to know that Quilly had gone to try and catch another fish for him so that he would surely have enough.

"Now, Teddy Possum, it was all right to cut that skylight in Quilly Porcupine's house, for if we were at his party and Mr. Wolf or Mr. Fox came along we could all get out by he back door. But I am ashamed about all that good stuff we ate up, fish and mussels, and all the nuts the squirrels ate, and all the lettuce Peter Rabbit ate."

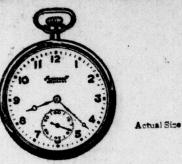

"What are you going to do about it, Jimmy Coon?" Teddy Possum asked. "Well, I'm going to make it up to Quilly Porcupine and you are going

carrots and parsley.

Quilly came home with one more fish and a bunch of lettuce, and late in the night Jimmy Coon slipped into the house by the skylight and put on the store room shelves the nuts and vegetables he had brought.

MY HEART AND MY HUSBAND

ADELE GARRISON'S NEW PHASE OF

REVELATIONS OF A WIFE

SEPTEMBER 28TH, 1919.

A Change of Time Will Be Made On

The Note Dicky Left For Madge. Katie was watching for me at the window. She ran down the steps as the taxi drew up before them, whispered tempestuously to me before I was fairly out of the machine;

"Oh, Missis Graham, dot old womans she mad like some spitting leetle cat! She raise vun leetle hell all day. She say she vant see you joost so queeck as you coom in. So you plees go oop by her. I vatch me two-tree hours so I tell you first."

"Thank you, Katie," I said gratefully, for I was indeed thankful to my faithful little maid for warning me of my mother-in-law's displeasure. My nerves were too raw from the strain of the day's events to enable me to withstand any unexpected irritation with equanimity.

"She'd better not if she knows what's good for her!" she retorted, suddenly abandoning that line of attack and opening another one. "But I didn't call you up here to waste time taking about one thing, mother," I said gramphing at all about your hurting her feelings."

imity.

I didn't call you up here to waste "Oh, dot's all right!" Katie returned time talking about an idiot like Katie.

"Oh. dot's all right!" Katie returned grandloquently. "You look out she no mervousness, and was in a run down condition. Two of our best doctors failed to do me any good. I heard so much about what Lydia E. Pinkham's Vegetable Compound had done for thers, I tried it and was cured. I am no longer nervousness, an regular, and in excellent health. I believe the Compound will be compound health. I believe the Compound will be cure any female trouble."—Mrs. ALICE HELLER, Christopher, Ill.

Nervousness is often a symptom of weakness or some functional derangement, which may be overcome by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, as thousands of women have found by experience.

If complications exist, write Lydia E.

I didn't call you up here to waste time teatured grandloquently. "You look out she no at you only." She murmured with a little chuckle as I passed her on my out only to deat you only." She murmured with a little chuckle as I passed her on my out only to gat you up here to waste time talking about an idlot like Katie. I want to get at the bottom of something and you only." Some murmured with a little chuckle as I passed her on my out of all proportion to the world the stairs.

"Is that you, Margaret?" my Madge Temporizes.

"Is that you, Margaret?" my my hotter-in-law demanded superfluously as I neared her door, which was party on the doorway. "Too know very well I want you." Is mot add the doorway. "I was completely in the doorway. "I am not aware that Richard has flown off at any tangent," I said quietly, "I left so early this morning that which have been at work, waiting her chance to tell you that I had ruffed her delicate feelings? I can the windows all the afternoon when the windows all the afte

law evidently took no stock in what I did say.

"Tommyrot!" she exclaimed. "You can't pull any wool over my eyes like that. You've had some sort of row, and it's over that red-headed teacher who kame here last night. Good heavens! Margaret, I know you have some mighty silly ideas in your head, but I never thought you'd be idiot enough to get jealous of that old maid and raise such a row as to drive your husband out of his own house."

house."

I think my jaw must have dropped in sheer amazement at her words, for before I could frame an indignant protest against her ridiculous theory she had advanced to the attack again. "Don't stand there with your mouth open like a ninny, as if you didn't know what I was talking about" she

commanded acidly.

Dicky's Message.

I clicked my teeth together with a little snap, resolved to keep silent until I could untwine this amazing til I could untwine this amazing tangle in which my mother-in-law's thoughts seemed to be meshed. Was this only her own theory, or had Dicky given her reason for her absurdity in a childish attempt to mask the real reason for our disagreement? "Richard just the same as admitted it when I taxed him with it this morning at the time he sprang his staying in town for a month idea on morning at the time he sprang his staying in town for a month idea on me," she went on. "Of course, he pretended there was nothing the matter, and left a note for you as if you were friendly. But you can't fool me. Here's the note. Oh, of course, you can rush off with it if you want to, but I should think you'd have better breeding."

With an icy "Pardon me!" I stopped my involuntary movement away from the door, tore open the envelope, looked at its inclosure.

There was nothing but a blank sheet of paper in my hands!

Ba Generieve Kemble SATURDAY, SEPTEMBER 20.

The planetary positions for this day denote conflicting conditions. There is danger from precipitate and rash actions—leading to quarreis, disputes and litigation, which will prove unfortunate. Likewise in the use of moneys there is danger from either speculation or investment, although if these be undertaken with precaution against fraud, trickery and deception, the results should be decidedly satisfactory, as Jupiter is under a strong and favorable lunar transit. Domestic, affectional and social interests should thrive under the benefic rays of Moon semi-sextile Venus. There is a warning against changes of any nature.

Those whose birthday it is may have an active and prosperous year if they avoid law, quarreling and change. A child born on this day may be inclined to be rash impulsive and quarrelsome, thereby contributing to its own undoing. Notwithstanding many difficulties it will succeed and rise in life. SATURDAY, SEPTEMBER 20.

OVER 1000 INDUSTRIALS USE

GOOD YEAR

TRA POWER BELTING

On RECORD in our offices alone are the names of over 1000 Canadian industrials who are satisfied users of Goodyear Extra Power Belting.

A vast hive of industry, giving employment to thousands upon thousands of men. Engaged in every form of industrial activity known in the Dominion. Turning out millions of dollars worth of Canadian products every year.

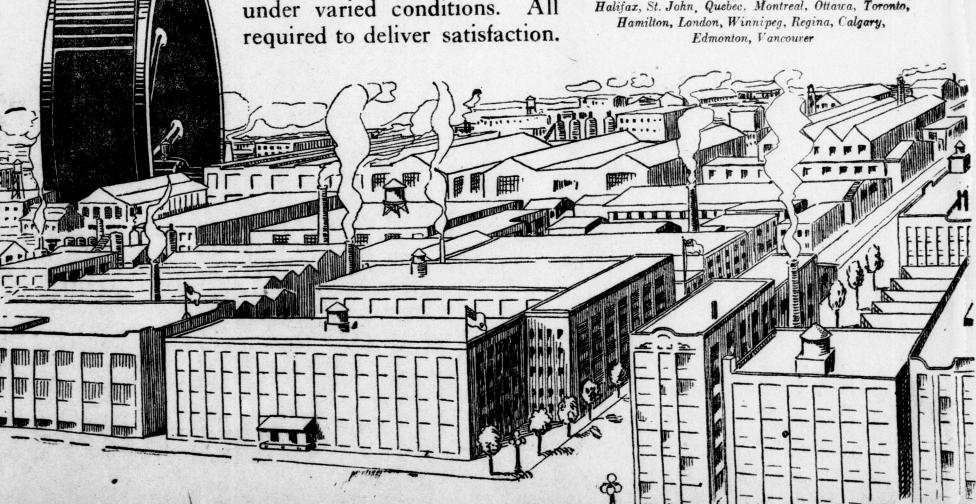

What an overwhelming endorsement of Goodyear Extra Power Belting this is. Belts bought to fill every transmission requirement. Working under varied conditions. All

Think of the great power-saving be cause Extra Power Belting is flexible. It grips the pulleys and combats slipping. Greater production has almost invariably followed the use of Goodyear Extra Power.

Over a thousand trained engineers and superintendents cannot be misled. You cannot blind over a thousand purchasing agents. There must bethere is—something vital in the Goodyear Extra Power Belting story. Let us send a man trained by Goodyear in belting problems to talk it over with you. He will tell you about Extra Power as it applies to your plant. Should Extra Power not be suited to your needs, we would rather have your friendship than your order. Phone or write the nearest branch.

Why Corns Hurt

Note this diagram picture of a corn. Note its conical shape. The cause of the corn is pressure. And pressure makes it hurt. The point of the corn is pushed into the nerves. Applying a Blue-jay plaster instantly removes the pressure. Note the felt ring (A) in the picture below. The ring gives barefoot comfort in the

tightest shoe. But that is temporary. One should not continue a ring. The corn should be quickly ended.

The bit of B&B wax in the center of the ring does that (marked B in illustration below). In two days, usually, the whole corn disappears. It stops the pain, then ends the corn. And it wraps the corn so the action is undisturbed.

Then the action of the B&B wax is centered on the corn. Held there by the rubber coated adhesive tape (C) which wraps comfortably around the toe. Healthy tissue is not affected.

These are the reasons why millions of people have adopted the Blue-jay method. Keeping corns is folly when this easy way can end them. Treating them in For your own sake, convince yourself by applying
