SCORE OF MEN CRUSHED

UNDER TONS OF WALL

Collapsed on Half a Hundred Work-

men in a Trench—Gruesome

Night Rescues.

NEWPORT, Eng., July 2.—It is estimated that twenty men perished to-day by the sudden collapse of the west wall of the new lock at the entrance to the Alexandra dock, where 50 men were working in a trench 60 feet deep, preparing for the laying of a concrete foundation.

Without warning the heavy shoring timbers gave way, the entire structure collapsed, and carried down with it thousands of tons of earth, railway lines, many cars and four traveling cranes. The men at the bottom of the trench had no chance of escape. Of the 50 men in the trench, 26 have been accounted for.

Late to-night four men, still living, were pinned in the trench. The incoming tide made the work of rescue very difficult.

At midnight, aided by electric lights and flare lamps, the rescuers were still busy with their work. Thousands of persons had gathered to watch the weird scene.

Conversations were being held with a few of the imprisoned men with the aid of speaking tubes and stimulants, and cigars were passed down to them; but there was little hope of rescuing the victims as the removal of the debris that was pinning them down was held to be hopeless.

Up to midnight eleven persons had been extricated dead or injured, and it was believed that there still were sixteen bodies under the debris.

TOBACCO TARIFF GOES UP.

WASHINGTON, July 2.—The Republican members of the finance committee of the senate have agreed upon a general advance in the tobacco schedule of the administration part of the tariff bill. The increase in the tax on cut and plug tobacco and cigars and cigarettes amounts to about 20 per cent over the house rates.

Boat Upset With Eleven Men.

FORT WILLIAM, July 2.—One man, a foreigner, was drowned and ten others had a very narrow escape to-night when a boat carrying them from the north to south bank and the boat was very much overladen. When they were about half way across, the entire number were thrown into the river, owing to the upsetting of the boat.

A Good Opportunity.

Take steamer Arzyle to-night at 10 p.m. and go to Olcott Beach, N.Y. This is a grand chance to spend the glorious 4th of July in the United States.

THE WEATHER

OBSERVATORY, TORONTO, July 2.

The depression which was centered in the Saskatchewan last night has moved rapidly eastward, causing showers and thunderstorms in Lake Superior districts and Ontario, elsewhere the weather has been fair and warm.

Minimum and maximum temperatures: Dawson, 46-58; Atlin, 46-54; Victoria, 44-75; Vancouver, 55-64; Calgary, 44-75; Battleford, 55-64; Medicine Hat, 50-67; Moose Jaw, 54-70; Port Arthur, 54-68; Parry Sound, 54-66; London, 54-71; Toronto, 54-66; Ottawa, 54-64; Montreal, 54-64; Quebec, 46-58; St. John, 54-66; Halifax, 44-72.

Probabilities—

Lower Lakes and Georgian Bay—Fresh to strong winds, shifting to northerly; showers and thunderstorms at first, then clearing and cooler.

Ottawa and Upper St. Lawrence—Showery, local thunderstorms, clearing at night and with fresh to strong northwesterly to north winds.

Lower St. Lawrence and Gulf—Fresh to strong winds; showery; local thunderstorms.

Maritime—Variable winds; fair at first, then showers and local thunderstorms by evening.

Superior—Fresh northerly winds during the day; fine and cool.

Saskatchewan and Alberta—A few scattered showers of thunderstorms, but most fine and warm.

WRIGHT FLIES SOME MORE

Circles Fort Myer Field at Forty-Mile an Hour Gait.

WASHINGTON, July 2.—The two flights to-day were the most successful that Orville Wright has made at Fort Myer since he began to complete the government trials. On the first attempt he flew about the field 12 times in 11 minutes and 50 seconds and on the second trial he had gone around eight and one-half times when the flight was terminated by a mishap. He had been in the air for a little more than eight minutes. During both flights Mr. Wright went higher and faster than in the trials of the two previous days. It was estimated that his speed was about 37 miles an hour on an average, although the machine probably exceeded 40 miles when flying with the light breeze blowing from the south. The glide, which covered a distance of perhaps 300 feet, was beautiful to behold, but there were few in the crowd of a thousand or more spectators who did not fear for a moment that they were about to witness a repetition of last year's accident. Orville and Wilbur inspected the machine closely and saw where the trouble was. They did not announce the result of their investigations, but said that an aeroplane would not be ready for another flight before Tuesday at the earliest. A wind of a velocity of about three miles and hour was blowing during the flight.

BIG COAL STRIKE SEEMS CLOSE IN NOVA SCOTIA

U. M. W. of A. Are Organized for a Life and Death Struggle With the Operators.

SYDNEY, N.S., July 2.—(Special.)—That the U.M.W. of America, in business in demanding what they consider their rights from the coal operators of Nova Scotia, was made power to-night, when at a meeting of a majority of the miners from each of the coal producing districts of Nova Scotia, a resolution was passed as follows:

The executive ask the Dominion Coal Company operators to meet them on the afternoon of Monday, July 5, for the purpose of coming to an agreement and in the event of the company not sending a representative to the conference, a strike to be inaugurated July 6, and that the executive be empowered to treat other companies and corporations in the same manner if necessary.

The above resolution was carried unanimously at the district convention of the U.M.W. of A., which closed its session here this afternoon.

There were fifty-seven delegates present, each of whom represented from twenty to five hundred men. The operators of the different collieries of Nova Scotia were invited to send representatives to any of the several conferences to discuss the present labor situation, but the request with single exception was ignored. The only mine owner present was W. A. Mackay, president of the Mackay Mining Company, North Sydney. President Dan McLaughlin, speaking after the meeting, said that he and his brother officers would do everything in their power to have the coal company representatives meet them on Monday afternoon to discuss the question at issue. They are willing to meet the coal people anywhere and at any hour they may suggest.

"If the worst comes to the worst," said Mr. McLaughlin, "and we call this strike on Tuesday, ninety-five per cent of the coal company's employees will leave their work."

"Once a strike is called we are not particular how soon or late it is settled. Let it last two weeks or two years, it is all the same to us. We are all prepared for it. The miners will be provided for by the company's money, and we will have at our command all the way from \$50,000 to \$100,000 a week, if that sum is necessary. Our forces, if that sum is necessary, will be sufficient to distribute coal to the Dominion Coal Company," said Mr. McLaughlin, "have taken a deal of precaution. Around their different collieries they have erected fences enclosing electric wire, which can be charged with electricity. A resolution was passed by the convention condemning the coal company for taking such drastic measures and the government will be asked to prevent them from using this live wire to defend their property."

Cables have also been sent to the big collieries on the continent, asking the parties to use all their power to keep their men away from Cape Breton in the event of a strike here. Business men of Sydney and other parts of the island yet hope that an amicable agreement will be reached, and before Monday night the dire strike cloud which hangs ominously near at present will be lifted.

ADOPT CORPORATION TAX.

WASHINGTON, D.C., July 2.—The corporation tax amendment devised by President Taft and approved by Attorney-General Wickersham, and presented to the senate by Senator Aldrich, chairman of the committee on finance, is an integral part of the tariff bill that bill now stands.

The test vote was on the substitution of the corporation tax amendment of the income tax provision, and the vote 45 senators cast their ballots in the affirmative and 31 in the negative. On this ballot all the Democratic votes were cast in favor of the income tax, which also received the support of a number of the insurgent Republicans.

The income tax question disposed of, the senate to-morrow will enter upon the administrative features of the tariff bill, probably taking up the maximum and minimum rates provision.

An Unluck Chinese.

Geo. Green, Cobalt broker, said yesterday: "A funny thing about it is that this fire started in Joe Lee's place, and it was in his restaurants that the two former fire started, all within a few blocks of each other. The first fire started in a place he kept south of Taylor's hardware store, on Halley-bury-road. Two months ago another fire occurred in Cobalt, originating in the North Bay Cafe, kept by this same Chinaman; and now this one comes on a few hundred yards away from his last location."

S. G. Madden, manager of the Little Nipissing Mine, loses his residence, including a collection of curios valued at \$5000.

Asquith Hopeful.

LONDON, July 2.—(C. A. F.)—Premier Asquith, speaking at Southampton, said we could not afford to lose command of the sea to secure the continuance of the union of the empire and naval strength. Union was the essence of life; that security was being exposed now, not necessarily from deliberate hostility, but from a natural development of other nations. The government looked forward with hope and confidence to the result of the deliberation of the defence conference.

Self-Existent.

One of the dangers of a rarely knowledge is that its true value. Ignorance, it has been said, bestows her choicest gifts on those who value her least.

A conciliated undergraduate once said to his teacher that he feared he had rather a contempt for Plato.

"I am afraid," replied the teacher, "that your contempt has not been bred by familiarity."—Youth's Companion.

Bruce Old Boys, return ticket to Southampton, \$2.05; Wiarion, \$1.85.

THE BRITISH SEA SERPENT.

New York World.

Up before the eyes of those who had saved them.

A desperate effort was made to save the Catholic Church at the north end of the town, and the separate school, but the water arrived very tardily, and presently the fire had possession, and was racing down to the bridge, throwing over the T. & N. O. at this point.

Saved Some Goods.

It climbed down the supports in tendrils of flame and fastened on the warehouse of the Canada Northern Supply Co., both large places. A good deal was saved from both places in cars and afterwards the salvage from the latter warehouse being placed at \$25,000.

A gust of wind that spun the fire round to the bridge caused the straggle of Cobalt at the northern outskirts of Cobalt.

The dynamiting operations were thrilling. Ever and again there would be a shout of "Fire," and then the splintered fragments of a house would be tossed into the darkened sky. But the sparks fell, and the way for the maelstrom of fire that roared behind.

In "Frenchtown" looting was prevalent and the proportion of those who had tasted of the vintage of the "blind pig" was evident from the gait of the roysters. One gang had looted a bar-restaurant. Whenever the cry of fire came down the road, they would roll the barrel a few feet further on to tilt it up, and turn on the tap directly they were out of the danger zone.

Apart from a few houses perched high on the ridge, the northern end of the town was a mass of houses.

A Finlander, not understanding, or being too distraught in the hope of saving more of his goods, stayed in the dynamite pit, and he was blown up with the house. So horribly was he mutilated that his body has not been identified.

Relief Work Begun.

Before noon a committee to afford relief to the homeless and dispossessed men and women sitting mute over the remains of their houses were brought into the opera house and the relief work was begun.

The Buffalo, the Colonial, the Nova Scotia, the Canadian and the other parts of the island yet hope that an amicable agreement will be reached, and before Monday night the dire strike cloud which hangs ominously near at present will be lifted.

ADOPT CORPORATION TAX.

WASHINGTON, D.C., July 2.—The corporation tax amendment devised by President Taft and approved by Attorney-General Wickersham, and presented to the senate by Senator Aldrich, chairman of the committee on finance, is an integral part of the tariff bill that bill now stands.

A WASHINGTON RAID

ON CHINESE LOTTERY

Postoffice Inspectors Make an Effort to Reach the Centre of a Big System.

WASHINGTON, July 2.—Charged with using the United States mails for lottery purposes, proprietors of three Chinese shops were arrested to-night.

The raid on the places was made by Postoffice Inspectors Deane and Barker, assisted by about a dozen members of the local detective and police force. In each of the places a large amount of gambling paraphernalia was found.

What ordinarily would have been a merely local episode gains importance from the fact that the raid presented an effort of the postoffice department to reach the centre of a widely ramifying Chinese lottery system and gains the eyes of the world to the United States. It was expected that the raid would be simultaneous with similar activities in other parts of the country.

It was planned with the utmost secrecy and followed many days of careful detective work on the part of the postoffice inspectors.

A group of Celestials for the moment down upon the places, and threw the utmost consternation, the Chinese soon laid up and silence and proceeded to do nothing.

The six alleged proprietors, all "Lees" were bundled into the police wagon, together with armfuls of papers covered with Chinese characters, boxes and bowls bearing mysterious figures.

Great stacks of supposed lottery tickets, printed in green, were seized in each place. On some of them large blotches of red ink
