ENJOY WELL-EARNED REST

Reduction Indicates Canadians Have Been Given Respite From the Firing Line.

Only eight Toronto names appear in the latest casualty lists. It is believed that the Canadian troops are now having a well-earned rest. It is the first time in months that such a short list has been received. MUNICIPALITIES WANT CRIMINAL FINES BACK

Attorney-General Tells Delegation That Law is Expensive.

Hon. I. B. Lucas pointed out to representatives of the Ontario Municipal Association, who waited on the government yesterday, that the administration of the law in Ontario last year cost \$483,000, while fines in criminal cases amounted to only \$25,000. The delegation's petition was that since the municipalities paid the criminal fines, they should get the criminal fines.

The law provides that these fines may be returned to the municipalities, or retained by the department for law administration. At one time they had been returned. For some time past they have not been. The municipalities can, and generally do, retain the fines imposed for infractions of local bylaws, the Liquor License and similar measures.

While members of the cabinet promise to consider the suggestion, they gave little encouragement.

Injured When Hit by Motor Car Charles Lathan Asks Damages

The case of Charles Lathan against Frank G. Whetter, for \$8000 damages, based upon injuries sustained by the plaintiff about 10 o'clock Sunday night, June 27, 1915, when he was struck by a motor car driven by Whetter, on Denison street, between Eaton street and Woody Crest avenue, will probably close today in the assizes court, where it was opened yesterday, with arguments by counsel and the instructions of Justice Sutherland.

Lathan's accusations that Whetter was negligent in his fast driving, failure to sound a warning, and breach of traffic regulations, were all denied by the defendant. Whetter contends that he passed around a buggy to avoid striking the plaintiff. The latter suffered a broken finger, a broken leg and other injuries.

TEMPERANCE ACT NEEDS AMENDING

Ontario License Board Discusses Various Anomalies.

MANUFACTURERS' PERMITS

Delegation's Request for Change of Form is Granted.

Nine representatives of companies manufacturing pharmaceutical products in various parts of the province waited on the license board yesterday to discuss with the members various anomalies in the Ontario Temperance Act. The board told them repeatedly that they were anxious to meet them in every possible way.

The main point at issue was with regard to the permits issued to manufacturers to allow them to obtain alcohol and spirit for manufacturing purposes. As the permits had been drafted originally, they read that so much liquor was required "at one time." The manufacturers asked that this should be changed so that they might obtain a permit for their estimated requirements for the calendar year, with a maximum at any one time stipulated. Should the exigencies of business demand a greater amount they might apply to the board for further license. This the board agreed to.

W. W. Grant, who was spokesman for the delegation, asked that, as honorable men, the manufacturers should be permitted to send in merely a written statement of the amounts used by the tenth of each month instead of the sworn statement required by the act. Chairman Flavell replied that the board was powerless to go outside the provisions of the act.

Legislation Only Remedy. Eudo Saunders, solicitor to the board, said that legislation was the only remedy he could suggest for the point raised that doctors' supply houses, which were in the habit of supplying absolute alcohol to doctors in small places where there was no drug store, were not allowed to go on doing so under the Ontario Temperance Act. These doctors' supply houses were not retail druggists. It was suggested that the doctors should take out druggists' certificates as they

are empowered to do so in this province. But this would not entirely obviate the difficulty, as the doctors in many cases were not in touch with the vendors in Toronto, Hamilton and London, and to get their alcohol through separate orders would be a hardship, represented before him that afternoon.

Other anomalies were cited, as in a recent case in which a Toronto hospital had needed a supply of alcohol. The delegation was composed of H. Smith, Moyes Chemical Co.; T. A. was not made for such a contingency. Henderson and J. M. Dickson, National order came was not empowered to fill it. A similar case happened, & Co.; M. Powell, Shuttleworth Chemicals, also recently, with regard to the medical Co.; R. R. Corsun, Sovereign Pharmaceutical Co.; W. W. Grant, Park Davis some scientific purpose required a supply of alcohol. As far as the mem-
