Poetry, &c.

THE ADOPTED CHILD.

BY MRS. HEMANS.

"Why would'st thou leave me, oh! gentle child?
Thy home on the mountain is bleak and wild,
A straw-roofed cabin with lowly wall—
Mine is a fair and pillared hall,
Where many an image of marble gleams,
And the sunshine on pictures for ever streams."

"Oh green is the turf where my brothers play,
Thro' the long bright hours of the summer day,
They find the red cup moss where they climb,
And they chase the bee o'er the scented thyme;
And the rocks where the heath flower blooms they know—
Lady, kind lady, oh! let me go!"

"Content thee, boy, in my bower to dwell!
Here are sweet sounds, which thou lovest well;
Flutes on the air in the stilly noon,
Harps which the wandering breezes tune;
And the silvery wood-note of many a bird,
Whose voice was ne'er in thy mountains heard."

"My mother sings at the twilight's fall,
A song of the hills far more sweet than all!
She sings it under our own green tree,
To the babe half slumbering on her knee;
I dreamt last night of that music low—
Lady, kind lady, oh! let me go!"

"Thy mother is gone from her cares to rest,
She hath taken the babe on her quiet breast,
Thou would'st meet her footstep, my boy no more,
Nor hear her song at the cabin door,
Come thou with me to the vineyards nigh,
And we'll pluck the grapes of the richest dye."

"Is my mother gone from her home away?
—But I know that my brothers are there at play!
I know they are gathering the fox glove's bell,
And the long fern leaves by the sparkling well—
Or they launch their boats where the blue streams flow—
Lady, sweet lady, oh! let me go!"

"Fair child! thy brothers are wanderers now,
They sport no more on the mountains brow:
They have left the fern by the spring's green side,
And the streams where the fairy barks were tied.
Be thou at peace in thy brighter lot,
For thy cabin home is a lonely spot."

"Are they gone, all gone from the sunny hill?
—But the bird and the blue fly rove o'er it still;
And the red deer bound, in their gladness free,
And the heath is bent by the singing bee;
And the waters leap, and the fresh winds blow—
Lady, sweet lady, oh! let me go."

THE HALL OF ANIMALS: VATICAN.—Then there was the hall of animals—a wonderful place! Until I saw this I never had the least idea what sculpture could accomplish. I had always thought it could only imitate successfully still and solemn subjects; but here we see depicted the utmost activity of animal existence. Indeed, it is scarcely less than miraculous; for whether the objects represented be the wildest or most ferocious, or both—whether a lion seizing his prey, or a deer attempting to escape—whether the swift hound or the furious bull—the reality and the truth are the same, and the marble starts into life and motion. The beauty of their forms, too, nothing can surpass. The gross, the mean, the ill-shaped, or the grotesque, are not found here. All is grace as well as life; and the heads of the commonest animals possess a dignity and a classical charm, which raises them in the scale of being far above what we are accustomed to regard as belonging to them in ordinary life. Is it not in fact this wonderful combination of truth and beauty which constitutes in works of art belonging to the ancients their highest merit? With less of truth there would have been in many of these exaggeration or conceit—with less of beauty there would have been less of that true sublime whose essential characteristic is simplicity.—*Mrs. Ellis's Look to the End, or the Bennets abroad.*

MUSQUITOES IN CALCUTTA.—Almost the first individuals to whom the stranger is introduced after his arrival in India, are—the musquitoes, the most voracious cannibals on the face of the earth. Talk as you will of the South Sea Islanders, the Khoords, and others, they are not to be compared with this tribe of man eaters. These, at the same time that they surpass all others in voracity, are the most perfect epicures. They know by instinct "a fresh arrival," and no sooner has he taken possession of his couch, than, leaving the acclimated corpus of the old resident, whose juices have become thin and tasteless, they hasten to him, and glut, and gormandize and revel in his blood! Oh, how he tosses, and turns, and scratches, and rubs himself!

Maysville Hemp Market.—Some idea of the importance of our little city as a business point may be obtained from the fact that it is the most extensive Hemp Market in the Union. We have ascertained, at some trouble, the number of tons of Hemp arrived at and sold in this market, or shipped to eastern ports on producers' account, during the months of January, February and March. The total amount for that period is a fraction over 1600 tons, or in round numbers, *seventeen hundred* tons, of which about *forty* were water-rotted. At $60 per ton, which we have found upon an accurate calculation to be the fair average price during that time, at contract, as well as at ordinary sale, the sum total is presented of *one hundred and two thousand* dollars, most of which amount in actual cash has been disbursed in this city by our own manufacturers, or by the agents of other manufacturing houses at a distance, and commission merchants.—[Maysville (Kentucky) Eagle.

Messrs. Alsopp, the great brewers of ale for the East Indies, whose place of business is at Burton, have failed, it is said, in the sum of £300,000.

A CURE FOR ALL!

EXTRAORDINARY CURE OF A CASE
ABANDONED BY
GUY'S, THE METROPOLITAN, KING'S COLLEGE, AND CHARING CROSS HOSPITALS.

This Fact was SWORN TO *this 8th day of March, 1842 before the* LORD MAYOR *at the Mansion-house.*

SUMMARY OF AFFIDAIT.

Wm. BROOKE, Messenger, of 2, Union street Southwark, London, maketh oath and saith, that he (this deponent) was afflicted with FIFTEEN RUNNING ULCERS on his left arm, and ulcerated sores and wounds on both legs, for which deponent was admitted an out-door patient at the Metropolitan Hospital, in April, 1841, where he continued for nearly four weeks. Unable to receive a cure there, the deponent sought relief at the three following hospitals:—King's College Hospital in May, for five weeks; —at Guy's Hospital in July, for six weeks; and at Charing Cross Hospital at the end of August, for some more weeks: which deponent left, being in a far worse condition than when he had quitted Guy's, where *Sir* BRANSBY COOPER, and other medical officers of the establishment had told deponent *that the only chance of saving his life was to LOSE HIS ARM!* The deponent thereupon called upon Dr. Bright, chief physician of Guy's, who, on viewing deponent's condition, kindly and liberally said, "*I am utterly at a loss what to do for you: but here is half a Sovereign: go to Mr. HOLLOWAY, and try what effect his Pills and Pills and Ointment will have, as I have frequently witnessed the wonderful effects they have in desperate cases. You can let me see you again.*" This unprejudiced advice was followed by the deponent, and *a perfect cure effected in three weeks*, by the use alone of HOLLOWAY'S PILLS and OINTMENT, after four Hospitals had failed! When Dr. Bright was shown by the deponent, the result of his advice and charity, he said, "*I am both astonished and and delighted for I thought that if I ever saw you again, office, it would be without your arm. I can only compare this Cure to a Charm!!*"

Sworn at the Mansion-house of the City of London, this 8th day of March, 1842. } WM. BROOKE.
Before me, JOHN PIRIE, *Mayor*

In all Diseases of the Skin, Bad Legs, Old Wounds, and Ulcers, Bad Breasts, Sore Nipples, Stoney and Ulcerated Cancers, Tumours' Swellings, Gout, Rheumatism, and Lumbago, likewise in cases of Piles; the Pills, in all the above cases, ought to be used with the Ointment; as by this means cures will be effected with a much greater certainty, and in half the time that it would require by using the Ointment alone. The Ointment is proved to be a certain remedy for the bites of moschettoes, Sand-flies, Chiego foot, Yaws, and Coco-bay.

Burns, Scalds, Chilblains, Chapped Hands and Lips, also Bunions and Soft Corns, will be immediately cured by the use of the Ointment.

THE PILLS are not only the finest remedy known when used with the Ointment, but as a General Medicine there is nothing equal to them. In nervous affections they will be found of the greatest service. These Pills are, without exception, the finest Purifier of the Blood ever discovered, and GHOUL is to be USED BY ALL!!!

The Genuine of these medicines are now put up in white wrappers and labels, together with a pamphlet, called "Moffat's Good Samaritan," containing the directions, &c., on which is a drawing of Broadway from Wall street to our Office, by which strangers visiting the city can very easily find us. The wrappers and Samaritans are copyrighted, therefore those who procure them with the white wrappers can be assured that they are genuine. Be careful, and do not buy those with *yellow* wrappers; but if you do, be satisfied that they come direct from us, or don't touch them.

A NATURAL REMEDY
Suited to our Constitutions, and competent to the cure of every curable disease, will be found in
WRIGHT'S INDIAN VEGETABLE PILLS
OF THE
NORTH AMERICAN COLLEGE OF HEALTH.

THESE extraordinary Pills are composed of plants which grow spontaneously on our own soil; and are therefore better adapted to our constitutions, than medicines concocted from foreign drugs however well they may be compounded; and as the INDIAN VEGETABLE PILLS are founded upon the principle that the human body is in truth,

SUBJECT TO BUT ONE DISEASE.
viz: corrupt humors, and that the said medicine cures this disease on

NATURAL PRINCIPLES.
by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to fertility, we drain it of the superabundant waters in like manner, if we wish to restore the body to health, we must cleanse it of impurity.

The Indian Vegetable Pills will be found one of the best, if not the very best, medicines in the world for carrying out the

GRAND PURIFYING PRINCIPLE,
because they expel from the body all morbid and corrupt humors, the cause of disease, in an easy and NATURAL MANNER, and while they every day

GIVE EASE AND PLEASURE,
disease of every name is radially driven from the body.

CAUTION.

The citizens of New England are respectfully informed that in consequence of the great popularity which the above named Indian Vegetable Pills have earned by their astonishing goodness, a gang of counterfeiters are now industriously engaged in palming on the un-suspecting, a valueless and perhaps dangerous medicine, under the name of Indian Vegetable Pills.

This is to inform the public that all genuine medicine has on the boxes

WRIGHT'S INDIAN VEGETABLE PILLS
(Indian Purgative.)

OF THE NORTH AMERICAN COLLEGE OF HEALTH

And also round the border of the label, will be found in small type, "*Entered according to Act of Congress in the year* 1840, *by* WM. WRIGHT, *in the Clerk's office, of the District Court, of the Eastern district of Pennsylvania.*"

It will further be observed that the printed directions for using the medicines, which accompany each box, are also entered according to Act of Congress and the same form will be found at the bottom of the first page.

The public will also remember, that all who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by

WILLIAM WRIGHT, VICE PRESIDENT
Of the North American College of Health,

and that pedlars are never in any case allowed to sell the genuine Medicine. All travelling agents will be provided with a certificate of agency as above described; and those who cannot show one will be known as base impostors.

☞ Persons in this city and vicinity will also be on their guard against purchasing medicine purporting to be the Indian Vegetable or Purgative Pills, of Apothecaries or Druggists, as they are not allowed to sell my medicine, and any composition which they may offer as such must of necessity be COUNTERFEIT and injurious; therefore never purchase of them.
