Station Team Wins.
In a very exciting game of baseball in Hampton last evening the Hampton Station team defeated the Hampton Village by a score of 9 to 4. This is the second game of five that is to be played between the two teams.

Young Stars Win.
An interesting game was played last night between the Young Stars and the Maples, and ended in a victory for the former team by a score of 14 to 7.

Fine Gift to Red Cross.
Chicago, July 24.—Charles A. Comiskey, president of the Chicago Americans, made his fourth contribution to the American Red Cross today, presenting a check for \$3,702.98. This makes a total of \$10,742.71 he has given since the baseball season started, representing ten per cent. of his receipts.

Toronto Players Drafted.
Toronto, July 24.—The military draft of the United States is worrying many managers these days, and the Leafs are no exception to the rule, for Manager Lajoie is now confronted with the possibility that his probable pennant winning team will be all shot to pieces by the draft. Among those who have been called in the first draft are Blackburne, Lalonde, Jacobson, Forrester and Alton.

Nothing definite is known as to how soon they will have to report or how many of them are subject to exemption, although it is more than likely that Blackburne would not be eligible, for he carries a lump on his leg which would put him in the unit class. Besides, Blackburne is a married man. Curiously enough he was the second to last man drawn. His number is 1164 and he was drawn under number 3893.

Manager Lajoie announced last night that he had closed with Manager Donovan of the Buffalo team for the release of Pitcher Justin to the Toronto Club. Donovan has seven pitchers and can easily spare this man, who is a right-hander, and has won six out of ten

This is the Buckle

games for the Bisons. He should be a valuable addition to the Leafs.

THE TURF

Buoy's Lassic Wins at Detroit.

Detroit, July 25.—Buoy's Lassic won the annual renewal of the Merchants and Manufacturers \$10,000 stake for 2,088 Grand Circuit trotters at the State Fair grounds today. The event went through five heats, the first two going to Al Mack, but then Ready Buoy's Lassic disposed of him and the rest of them rather handily.

Musell Shell beat Edward P. a nose in the first heat of the 2:08 pace, but after that Edward P. won about as his driver pleased. Don F. took the opener in the 2:17 pace, but Ben Billings had no trouble showing the way in the other heats.

Ban on Betting

For the first time in the history of the grand circuit racing at Detroit, the meeting was started on Monday as a betless one. Police Commissioner Cousens positively refused to allow speculation and sent out uniformed policemen to see that his order was obeyed.

THE RING

Philadelphia, July 25.—Benny Leonard, lightweight champion, stopped Johnny Kilbane, featherweight title-holder in the third round of a six-round bout at Shibe Park tonight. Jimmy Dunn, Kilbane's manager, tossed a towel into the ring two minutes and fifty-nine seconds of the third round was over.

Atwood Knocks Out Danny Johnstone.
London, July 25.—Corporal J. Atwood, Canadian welterweight champion at Shorncliffe, best Private Danny Johnstone during the eighth round in a 15-round contest. Driver Jimmy Clarke, lightweight champion, beat Corporal MacKensie in the fifth round.

Danny Johnstone was well known in St. John and was here some time with the 180th Battalion, appearing at the Imperial Theatre in that battalion's exhibition. Many St. John friends will regret to hear that he was put to sleep in his bout with Atwood.

Munro Now a Lieutenant

Camp Borden, Ont., July 24.—Pte. Jack A. Munro of the Princess Pats, prize fighter and former Mayor of Elm Lake City, has been granted his commission as a lieutenant in the Forestry Depot here. He was severely wounded while fighting with the original "Pats" battalion.

Collins Is Slow Starting This Season

Is Fielding Brilliantly and is Not Slowing on the Bases, But Has Fallen Off in His Hitting

New York, July 24.—Eddie Collins is holding just as brilliantly, thinking just as rapidly, and is not slowing perceptibly in his base-running. His appearances on first base, however, have been too few to allow much base stealing or run-scoring.

Even when Collins was with the Mack machine and enjoying the height of his ability, it always required a few weeks or more than a month for him to reach the zenith of his hitting stride. Usually the end of a season found him disputing batting premiership with Ty Cobb and Joe Jackson, although his average never reached the top notices set by those batting stars.

If Collins were to swing into his old-time batting form at this stage of the season his assistance would be sufficient in itself, it is believed by most critics, to carry the Sox to a championship. And, if he should suddenly receive the assistance of Joe Jackson's old-time Cleveland form, the American League race probably would be over just about as suddenly.

Strangely, neither Jackson nor Collins has been able to hit the season's opening with batting strength since becoming members of the White Sox. Jackson's average never was so low as it is now, and he seems totally incapable of throwing off the slump.

The drop of this pair in batting is one thing the dope overlooked in picking the White Sox as favorites in the Johnson scramble. They are the players who make the Sox or wreck them. Even with their batting low their efforts are sufficient inspiration to other members of the team to count a great deal.

Stomach Troubles Due To Acidity

SO SAYS EMINENT SPECIALIST.

So-called stomach troubles, such as indigestion, wind, and stomach-ache are in probably nine cases out of ten simply evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, but may involve serious consequences if not corrected. The food contents of the stomach and to neutralize the acid, and render it bland and harmless, a teaspoonful of bisulphate of magnesia, probably the best and most effective corrector of acid stomach trouble, should be taken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, and reduces the acidity in a few moments. Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of proper food, and acid, such as bisulphate of magnesia, which can be obtained from any druggist and thus enable the stomach to do its work properly without being hindered by poisonous gas and dangerous acids.—M. F.
