Very Rev. Patrick Murray, general of the Order of Redemptorists arrived in the city yesterday, accompanied by Rev. A. J. Dale, C. S. R., who went to New York last week to meet him. He left Rome for a tour of the United States and Canada and St. John is the first place he has visited in Canada. The Montreal Gazette quotes H. J. P. Good, manager of the St. John exhibition as saying in that city that although Montreal has applied for a good deal of space and will make a good show at the exhibition, he is of the opinion that the Toronto merchants are more awake in the matter of getting business. Mr. Good meets six Toronto commercial travellers in St. John to one Montreal man, and being well acquainted with conditions in the west, he finds the same conditions existing west of Lake Superior as far as the Montreal merchants are concerned.

DIVISIONAL YARDS FOR G. T. P.

At Nappadoggan Lake 75 Acres Have Been Cleared—A Small Army of Men at Work

Some idea of the magnitude of the work being done on the line of the National Transcontinental Railway will be gathered from the fact that at Nappadoggan Lake, one of the divisional points on the line, seventy-five acres of ground have been cleared to provide for divisional yards.

C. L. Dodge, who has charge of the concrete work in this section, arrived in the city yesterday and is registered at the Dufferin. Nappadoggan, now little more than a wilderness, will become quite a thriving town when the projected work is completed and the railway commences operation. It is situated about 117 miles northwest of Moncton, and is the first divisional point on the G. T. P. in New Brunswick.

The seventy-five acres of ground that have been cleared will be capable of accommodating thirty-one tracks. A tank with a capacity of 3,000 gallons of water, to be filled by gravitation, will soon be completed. It is proposed to erect a freight shed 150 feet long, with platform 80 feet, and a turntable, seventy-five feet across, capable of turning the largest engines that are built. It is also proposed to build a roundhouse with twelve engine stalls, and other smaller buildings required in railway work.

Good progress is being made with all these works and quite an army of employees are kept busy. The construction work is under the direction of the resident engineer, M. W. Black.

SHE WAS NOT DAUGHTER OF PRESIDENT

"Helen Taft" on Dufferin Register Today, but She is From Texas

Helen Taft, Washington, D. C. L. Cairns, Washington, D. C. These names upon the register of the Dufferin Hotel this morning gave rise to much speculation and most people who saw them naturally jumped to the conclusion that Miss Helen Taft, daughter of the president of the United States, was paying St. John a visit. According to the young lady who wrote the signature, however, such is not the case. She is simply Mrs. Helen Kingsley Taft, of Dallas, Texas, and is not even a relative of the head of the American republic.

The ladies arrived in the city on the Boston boat this morning, and went to the Dufferin Hotel where they registered, and had breakfast. They left on the Express for Point du Chene at 11 o'clock. When seen in the Pullman car of the train previous to its departure by a reporter of the Times-Star and asked if she was a daughter of the United States president the bearer of the name smilingly replied that she was not.

"I am Mrs. Helen Kingsley Taft, of Dallas, Texas," she said. "Are you a relative of the president?" she was asked. "No, I am sorry to say I am not. I have been put to considerable inconvenience in consequence of the similarity in the names." "But you registered as coming from Washington?" "Yes, we visited Washington on our way," she replied. "This was all the reporter had time to say, for the train pulled out."

F. M. SCLANDERS HERE ON A VISIT FROM SASKATOON

F. M. Schlanders, formerly of this city, but now of Saskatoon, arrived in the city on the Montreal train at noon. To a Times-Star reporter Mr. Schlanders said that he had come to Ontario on business matters and was down this way more for a rest. He is enthusiastic over the western country. The reports of poor wheat crops are merely canards, he says, started by operators on the market and are pure fabrication.

"Why last year," said Mr. Schlanders, "they said that there would not be a binder operated east of the Rockies, and they are starting the same thing this year." "Saskatoon," he said, "is now a city of 13,000 and is destined to be a fine one. Already large buildings are being constructed at a cost of \$20,000 and \$100,000. There is abundant money in the country and some men who were 'grab stalked' but a few years ago are now rated at nearly \$100,000. Things never looked better."

Mr. Schlanders is board of trade commissioner in Saskatoon. His visit to St. John finds him filled with the spirit of optimism in the growing west. He will be here for a few days.

AUSTIN IN WITH 650 PASSENGERS

Summer Rush on Broiling States to Pleasant New Brunswick is On

Boston steamer Calvin Austin, Captain Pley, arrived in port this morning at 7:30 o'clock with the largest number of passengers so far this season. The number including children, was 620. The tourist season is now at its height, and from now until the cool weather period, the travel by this line will be heavy. The company say more people will come to the Maritime provinces than ever before.

Several of the tourists are bringing automobiles with them. Amongst the passengers were many for the north shore and Prince Edward Island. The weather in the New England States is very hot at the present time, and provincialists are returning to their former homes where the cool breezes blow. The steamer Governor Dingley due here tomorrow, has another large passenger list. The Austin will leave here tonight at 7 o'clock on her return trip to Boston.
