NEW HORSES AT MOOSEPATH RACES

Improvements at Track For Meet to Open on Saturday—The Officials

If the well-laid plans of the St. John Driving Club materialize, the meeting which will open at Moosepath Park on Saturday will even surpass that conducted here in the early part of the summer.

Through at the late meeting the sport event was most spirited, that which will be witnessed in the immediate future is expected to be more so.

Among the more prominent ones that will be seen here for the first time may be mentioned such bang-up performers as John A. Munro, one that has been winning races around the metropolitan course.

Blue Crest, a sprinter recently imported to this circuit from New York; Polly Lee and Master Lemore, from Saratoga; Postalgio, Ed Keck and Congo, horses that are among the best now racing; Miss Felix, which has been taking the best of them in camp; Isabel and the veteran horseman with whom Mary's Aunt, four of the younger brigade shipped from Sheepshead Bay to the meeting on Monday.

With these nearly all of the old favorites will be here, making a collection of thoroughbreds that would do credit to the largest racing organization in the country.

The officials with the exception of the judge, will be the same as at the previous meeting. In the stand will be Judge W. G. Lyall, a veteran horseman with a world of experience; Geo. C. Dillon, racing secretary; and J. Milton as starter.

It is expected that many friends who have not visited to this city, and their work was of such a nature as to win golden opinions.

A force of workmen will start in tomorrow putting the track in readiness for opening day, and such improvements will be added as to make the sport more enjoyable than at the last meeting. In all probability additional seating capacity will be added at the grounds, as large crowds are anticipated during the season.

Arrangements will be made for an extra service to the course, and if conditions justify it the likelihood there will be seven races daily.

MISS THOMSON BREAKS MONTGON LINKS RECORD

Monton, Aug. 29—Ideal weather favored the maritime lady golfers in the opening day of the annual meet on the Links.

Many visitors including Gov. Tweedie, were present to watch the play in the qualifying round.

The most notable feat was that of Miss Mabel Thomson, of St. John, the former champion, breaking the record of 98.

She was out of form and got into difficulties ending with the second hole in the second round she played brilliantly, driving 200 yard greens and playing a dazzling long game throughout.

She broke the record of the links for either lady or gentleman.

The next lowest cards for nine holes were Miss Unacke, Halifax, 43; Mrs. Cooke, Monton; Bonnyman, Amherst; Miss David, Halifax, 44.

The sixteen qualifying for the championship were: Miss Thomson, St. John, 82; Miss Unacke, Halifax, 83; Miss David, Halifax, 84; Mrs. J. McD. Cook, Humphrey, 84; Mrs. J. G. Bonnyman, Amherst, 85; Mrs. G. Chas. Humphrey, 100; Mrs. W. T. Creighton, Humphrey, 100; Mrs. Hyndman, Charlottetown, 100; Mrs. Mitchell, Halifax, 101; Mrs. Yorston, Truro, 105; Mrs. Maddison, Monton club, 105; Mrs. Lawson, Humphrey, 109; Mrs. McNaughton, Humphrey, 107; Miss Faulkner, Halifax, 109; Mrs. Phillips, Truro, 111; Miss Shannon, Humphrey, 118.

IT IS NOT IN THE BLOOD

Medicine Taken Internally Cannot Cure Eczema. It is Caused by Germs

Eczema cannot be overcome by ordinary treatment and the old-fashioned way of dosing the system with drugs. Eczema is the form of ailment that borrows its name from the Greek word for "to burn."

It is generally a contagious disease. Until the parasite is completely destroyed and removed, eczema cannot be cured. Fully one-third of skin diseases are in the form of eczema.

Because of its remarkable cleansing, antiseptic, germicidal, soothing, healing influence, Rezell Eczema Ointment has a very pronounced value in the treatment of skin diseases, especially where the form of ailment is the chronic, aggravating sort. I highly recommend it for the dry scaly form or the weeping type, where there is a constant flow of ill-smelling excretion.

Rezell Eczema Ointment is very prompt in relieving pimples, blotches, skin disease, rashes, ringworm, acne, nettle rash, fever, hives, ulcers, insect bites, and for healing sores and wounds. It is a pleasant smelling, grayish-white ointment, and is very cleanly for use. Two sizes, 50c and \$1.00. Sold only at my store—The Retail Store, Chas. R. Wason, 100 King and 24 Dock streets.

Deafness of Mr. Blobs

Mr. Blobs dined the other evening with some friends. When the guests were seated the host bent his head and began speaking in a subdued tone.

Try the Taste On Mooney's Sugar Wafers

Forget for a moment that Mooney's Sugar Wafers are made in the finest sunlit sanitary factory in the country.

Forget, also, for a moment that a little finer flour—a little richer butter—a little better fruit—a little more care in bak-

ing are all important details of the Mooney Method of biscuit making.

NOW base your opinion of Mooney's Sugar Wafers solely on their taste. We are confident as to the outcome of this test.

The Sugar Wafers keep flaky and fresh—crisp and whole. Their enticing flavor is retained to the last crumb.

Try a package today. 10 and 25 cents in dainty, dust and damp-proof tins.

Your grocer has them.

The Mooney Biscuit and Candy Co., Ltd., Stratford, Canada

Malta-Vita THE PERFECT FOOD

Malta-Vita—the ideal food for hot weather—light and crisp—requires no cooking. Serve with milk, cream or fresh fruit, and you will find it delicious.

Sold by all grocers, large package, 10 cents.

Smokers Who Know Will Always Select "Master Mason" Cut Plug Tobacco

The reliable brand of original "American Navy" plug tobacco for the finest selected American leaf tobacco.

RUSSIA IN GRIP OF CHOLERA

Fearful Ravages of the Plague in the Czar's Country—Peasant Deems it Futile to Combat it

From time immemorial Russia has been pest ridden, and to a Russian origin have been traced most of the plagues that have ravaged Europe.

The disease is produced by an intestinal parasite which has been called the Koch vibrio. Almost invariably it enters the system through the mouth and takes up its position in the alimentary canal.

Once firmly entrenched there a cure is extremely doubtful, though by no means impossible. Koch himself prepared a curative serum that has been used with good effect.

One of the peculiar features about cholera is that it is not contagious. It is not spread by direct contact with the patient.

Through the southern provinces it spread like fire, killing its tens of thousands. It has been estimated that 90,000 lives were lost in Russia in 1863 and 1868.

Sanitary Science Vain

It is a matter of historical record that nearly every pestilence that breaks out in Asia finds its way into Russia, where the ignorance of the people and their unsanitary ways of living make them as satisfactory hosts of all malignant germs as any Oriental.

When all those infected or predisposed to infection have been destroyed or when their blood has generated some sort of antitoxin, the scourge will disappear, to arise again when the population has grown thick enough and rank enough to "make the moving easy."
