TORONTO'S FIND

Toronto reports they have a young find in Ross Robinson, brother of Gladys Robinson, Toronto girl skater, who closed up here in 1923. Recently, Robinson was credited with turning in a time of 5.43 for the two mile. This is several seconds under Olaf Rude's world's record. Roy Pendre is given a time of 18 and 4-5/8 seconds for the 320 yards.

In connection with the entry of D. J. Carr, secretary of the association, pointed out today that the entries would close on Wednesday and that local skaters wanting to take part should get their names in without delay. "We want to have as many as possible entered," he said, "and the fact that such stars as Thunberg, Gorman and Moore are entered should not frighten them off, as by taking part in meets of this size they can pick up valuable experience."

THE CUT NEEDED The great and wealthy neighbor was a huge magnet ever attracting to it Canada's young citizens. It is now to hold her people and compete with the United States, taxation must be reduced.

TOO MUCH PREJUDICE Canadians were all too ready to do their thinking with their prejudices. Neither Ontario nor Quebec, nor the west, nor the Maritime Provinces had any monopoly in that respect.
