THE EVENING TIMES AND STAR, ST. JOHN, N. B., WEDNESDAY, FEBRUARY 13, 1920

The Boy

ONE of the best things any mother can do, is to give her children Cocoa every day.

Children as well as their elders need something hot to drink, and Cocoa is the only thing adapted to their youth which at the same time they enjoy. It is not a stimulant, as are other beverages, but is nourishing and invigorating. It strengthens their power of resistance against cold and illness.

Cocoa is recognized by doctors and dietitians as one of the standard foods, and is particularly recommended for growing children. Taken in the form of a beverage at breakfast or lunch, or after school in the afternoon, it is easily digested and the children love it.

Give your children Cowan's Cocoa every day, and it will help them to develop sturdy constitutions which will be the foundation for good health all through life.

Follow the directions on the tin in preparing Cocoa.

W. C. T. U. HEARS OF THE DOMINION WIDE WORK OF Y. W. C. A.

Miss M. Strath Gives Interesting Account of Many Activities of the Organization — Papers Read by Members.

The W. C. T. U. observed the anniversary of Frances Willard's Day at its meeting yesterday, held at the residence of Mrs. Mary Seymour, who conducted the devotional exercises. The meeting was a particularly pleasant and profitable one. Miss Fox was the pianist for the afternoon and Miss Stella Eadie, the soloist, contributed much to the enjoyment of the occasion. Mrs. Seymour read the W. C. T. U. crusade psalm taken from Psalm cxi. Mrs. R. D. Christie and the president led in prayer. Mrs. J. J. Gilles, in two short and well worded papers, entitled "Suggestive Thoughts" and "Our Girls," gave a brief sketch of the life of Frances Willard. Mrs. Topham read a paper entitled "The

White Ribbon." Mrs. Seymour explained that the white ribbon should mean four things to the women who wear it—purity, consecration, helpfulness and loyalty. The president told of what the white ribbon had meant to her. Miss M. Strath, Dominion council secretary of the Y. W. C. A., was asked to address the meeting on her work at the port of St. John and the work of the Y. W. C. A. in the Dominion. Miss Strath presented her subject in an interesting manner and was listened to with appreciation. She sketched briefly the wide activities of the Y. W. C. A., showing the relation of the port work in St. John to the various Dominion activities. Going into the work at the port here in some detail, she told of 762 passengers having been entered on the books of the association in St. John and having through its agency been put in touch with churches, other branches of the Y. W. C. A. or some organization that would give a welcome to the traveller on arrival at her destination and control her with the social life of the place. Miss Strath spoke of the expansion of the work of the association throughout the Dominion, instancing many cases where its usefulness had brought demands that as yet it was not able to comply with. She related some specific cases in which the Y. W. C. A. port work in St. John had been of great value. One little child was sent in the care of the Y. W. C. A. from Liverpool, right across the continent to Vancouver and arrived safe and happy. A hearty vote of thanks was extended

NEWFOUNDLAND SETTLEMENTS SHORT OF FOOD

(Canadian Press Despatch.)
St. John's, Nfld., Feb. 17.—Owing to a railway tie-up due to the severity of snowstorms in January inland settlements are faced with a serious shortage of foodstuffs and feed for cattle and horses. Lumbering camps are hard hit by the loss of work due to the scarcity of food and other essential supplies. The railway tie-up is partly due to the severity of the weather, but in a great measure to inefficient motive power and snow fighting apparatus, such as rotary plows. The government cannot remedy matters very much and the railway company is powerless to cope with the situation, unless a prolonged period of mild weather sets in.

USE The Want Ad Way

Canada's Great Wheat and Barley Food—

Grape-Nuts

enjoys increasing sales as more people become acquainted with its delightful taste, real economy and high qualities of nutrition.

Remember please: Grape-Nuts is unlike the ordinary cereal food in that it does not need the addition of sugar to make it pleasing to taste.

Grape-Nuts has its own sweetening, a true sugar developed from its grains; not added in making.

Grape-Nuts Saves Sugar

BRITISH TO SELL VAST WAR STORES

Everything Between Battle-ships and Egg Cups Included in Catalogue

AEROPLANES IN JOB LOTS

Submarines, Rolling Stock and Whole Camps Will go to Highest Bidder — One Whole Camp For Sale.

London, Feb. 18.—Two complete battle-ships, half a dozen submarines, Handley-Page and De Havilland aeroplanes, 50,000,000 rounds of ball cartridges, guns, aerial bombs, pistols, a paddle steamer, a train ferry capable of carrying thirty-nine 10-ton wagons, a road bridge complete and locomotives are but a few of the many varied articles offered by the British ministry of munitions in what is without doubt the biggest sale in history.

The catalogue of goods is a romance in itself. Brought out as a bi-monthly magazine, it is issued officially by the ministry, under the title of the Surplus, at six cents a copy, each number taking up something over 180 pages of closely printed matter.

Only a cursory glance is necessary to realize, apart from the usual supply of equipment, ammunition and foodstuffs, what a tremendous commercial undertaking modern war has developed.

During the war the ministry of munitions acted as a sort of general store to supply millions of fighting troops on all fronts, from France to India, the North Sea to the Suez Canal. No item, however small, was too insignificant, no item on two tremendous a scale to be included in these wonderful stores.

One Whole Camp For Sale.
The ministry was solely responsible for the supply of army huts, building material and factories, machinery, machine tools and engineering stores, army boots, water craft, textiles, chemicals and metals, foodstuffs and motor vehicles, and so on ad infinitum.

In the fifteenth issue of Surplus, published on the first day of the new year and announced as "the official organ of the surplus Government Property Disposal Board," there are no fewer than nineteen sections of different classes of material to be disposed of.

The Admiralty are offering floating wharves, yachts, trawlers, drifters, steam launches, coastal motor boats and old naval stores, sailing and power vessels, a portable cast iron engine with removable pan to an egg cup, chairs, couches and butter dishes. Even so humble an article as brown paper is included in this wonderful catalogue.

Humble household commodities are equally plentiful. About 4,500 tins of chicken broth are for sale, together with pork and beans, marmalade and half pound packets of fruitarian cake.

Still Useful as Fighters.
The obsolete warships for sale are battleships Jupiter and Exmouth, both of which played their parts in the anti-submarine patrol in the great war. As the ministry of munitions faithfully suggests, failing purchase for some private useful use or other, they might prove very useful for scrapping or conversion.

With the battleships are offered the British submarines, including the cruiser class—A-12 and C-2, five torpedo boats, the destroyer Dove and the old war vessels Penelope and Firebrand, now lying at Chatham.

Purchasing a battleship or two is not so complicated a matter as most people would imagine. After filling up a form and supplying the necessary check, the ship is the buyer's to do what he likes with.

Again, if the purchaser requires a factory complete with millinery fittings, it can be supplied, for there are no fewer than nineteen for sale in various parts of the country. The ministry have a round dozen of aeroplanes on their hands.

A coast guard station in Dorset, overlooking Weymouth Bay, is on offer. Then there are huts and buildings in forty-seven districts.

There are bridges, hydraulic presses, all kinds of plants and machinery, steam engines, petrol tractors, about 120 different kinds of tradesmen's tools, textile goods, civilian overcoats and suits, leather goods, medical goods, furniture, etc., for sale.

DALHOUSIE WILL LAUNCH DRIVE FOR A MILLION
Nova Scotia University to Start Campaign in June — Manager Appointed and Literature in Readiness.

(Canadian Press Despatch.)
Halifax, Feb. 17.—Dalhousie will launch her campaign for a million dollars in June, said President A. Stanley MacKenzie today.

"Our plans were made last spring and the campaign was set for the fall, but when it was found that the church forward movement then taking shape was also fixed for that time, it was felt that Dalhousie must not do anything which would interfere with the success of that movement and our campaign was fixed

H. N. DeMille

Opera House Block - 199-201 Union Street

tentatively for the new year. Then the organizers of the church forward movement decided on a delay until February for their drive and Dalhousie had again to postpone her campaign. It is now definitely fixed for June.

"G. Fred Pearson has been appointed manager of the campaign and under his direction the preliminary campaign organization work has been completed, literature prepared and central committees organized in many places," continued Dr. MacKenzie.

"It is most gratifying to know," said Dr. MacKenzie, "that Dalhousians everywhere are taking a keen interest in the campaign and are assuring their Alma Mater of their interest and support. So

keen is the interest taken that I have no doubt the objective of a million dollars which after all is only about twice as much as was realized in the 1912 campaign will be reached.

"The business men of Nova Scotia, realizing that the progress and development of the country depend in large part upon the excellence of the facilities provided for higher education, are prepared in a way never shown before to back up this movement of Dalhousie to put herself in a position to meet the needs of the times."

SEVEN INDICTMENTS.
New York, Feb. 17.—Seven indictments were returned today for the thefts of

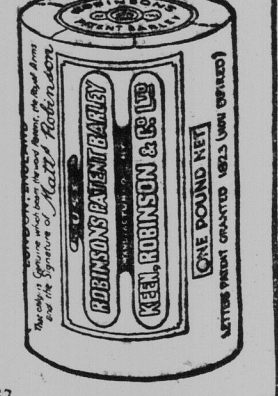

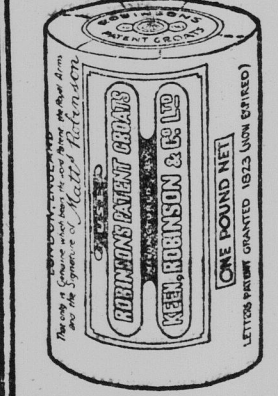

FOR THE MOTHER

The best food to keep a mother in physical condition to properly nurse her baby, is Robinson's "Patent" Groats — the reliable milk producing food.

A mother should also drink barley water made from Robinson's "Patent" Barley which acts on the kidneys and regulates the system, promoting health and vitality. These foods have been in use for over a hundred years, and have always given perfect satisfaction.

Write for MY BOOK which gives special advice to Mothers.
