GOOD THINGS COMING TO THEATRES OF ST. JOHN

FLIRTATIOUS BACHELOR'S REVENCE

A sweet little lady married a slow

going but manly man in preference to a millionaire Lothario who thought he could trifle with hearts at pleasure. In his flirtations with the little lady now esson and led him on to his punishnt. But he got wise to her plot and a battle of wits ensued. His grand home "For Husbands Only," in would re-enact incidents which the husband would surely recognize and

A SPIRITED NEW

Whirlwind of Comedy, Singing and Dancing and Other Features

Carl Larson and family wish to thank the doctors and nurses of East St. John Hospital for kindness and treatment of the late Carla Larsen, and also Dr. Kenney of West St. John and friends for kindness and sympathy extended to them during their sad bereavement.

I wish to express my heartiest thanks for all the respect and sympathy shown in my sad bereavement in losing both my husband, Pte. J. F. Collins, a returned soldier, after three years fighting in St. John. To all those at the military hospital, especially Night Orderly Bigger, and for the great respect shown to the dear remains through Father Bellinger.

Carl Larson and family wish to thank lodges invited to attend.

The members of Maple Leaf Lodge, P. A. B. B., No. 40 are requested to meet 2 p. m., Sunday to attend the functal of their late brother,

WILLIAM CATHERWOOD

The main trap in the drainage system, its object is to prevent foul air or sewer gas from the main sewer in the street from entering the drainage system in the house. Is there one on the plumbing in your home. Let us look it over and see that it is properly installed. Best be sure than sorry. Most sickness is due to faulty plumbing and sewer gas coming from work that is not properly trapped. about all this mass of explosives which must be in stock and which cannot be kept on account of deterioration? Thousands of tons of pierie acid for instance—what is to become of this?

Some might be employed for dyeing purposes; doctors could make use of a small portion for disinfecting the skin before operating. Pierie acid is useful on the land as a weed and vermin exterminator, but the chemical factories will probably utilize the bulk. As for those explosives which contain ammonium nitrate, it is possible that they may be used as fertilizers for the soil. The dynamite, of course, will come in for quarry work. trapped.

Let us look your plumbing over and apply a smoke test to doubtful work. A sure way to show up sewer gas leaks.

We do repairs to plumbing and heating. Neat and satisfactory work guaranteed.

Closed All Day Monday

In order to rearrange stock and bring forward new stock, our store will be closed all day Monday, February 24, and will reopen Tuesday at 9.30 a.m., fresh with the greatest bargains ever offered for character goods.
