

GERMANY'S DOVE OF WAR FAMOUS TAUBE MONOPLANE.

The Taube monoplane now used by the German army was evolved from a machine designed by an Austrian millionaire named Etrich. He modified the shape of the wings, it is said, from the leaf of an Indian tree called the Kanonia, having observed that its leaves were particularly buoyant, and drifted on the wind for miles without coming to earth. Etrich's machine was patented almost everywhere but in Germany, and there the design was adopted by the government as the standard type for all military monoplanes. The name "Taube" (German for "dove") is taken from the fact that in the air the machine resembles a pigeon with outspread wings.

THE KAISER'S CREED

"I AM THE GOD OF THE FATHERLAND"

(Harold Begbie in London Chronicle)

In view of the many recent utterances by the German Emperor, in which he couples his own name with God, it is interesting to recall that Harold Begbie drew attention in the columns of the Daily Chronicle four years ago to the serious menace to the precept of charity entailed by the Kaiser's megalomania. Mr. Begbie's prophetic article is reprinted below:

It is deplorable that any man whose utterance attracts universal attention should speak about the God of Christ so intently without the most profound reflection. "God," says Rothe, "is a great word." Nothing but danger of confusion from those rash and violent people who make use of this great word in a thoughtless manner, and use an exalted position to strut and posture and declaim with exuberant vanity before the Holy of Holies.

To a Plymouth Brother who ventured to remonstrate with a noble man for misrepresenting God by his wide tolerance and embracing charity the sheltering radiance was made, "But you must say the same thing to the Kaiser. For this man continually presents before the world a conception of the Deity which disgusts the thoughtful and reverent thinkers and fills the soul of the humble and devout Christian with a well-justified indignation. He never once made use of the great word in his public utterances without a most insolent conflation of it with himself and his relations, and these vain and egotistic proclamations of divine kinship are always accompanied by such a rattling of spurs and such a blare of bugles as make a horrid noise in the ears of all Europe who are laughing at him, because the caricatures of Berlin, and the wits of Vienna are making game of him, one never not supposed to be in a position to contribute to the gaiety of nations. More than any body in Europe he is bringing Christianity into a laughable disrepute. On the continent a laughable has never been so rampant as the Kaiser is making it contemptuous.

The King Inmate
The speech at Koenigsberg (delivered in the summer of 1910) is the culmination of a colossal arrogance. It is the impious for the Kaiser to regard himself as "the instrument of the Lord," but it is the summit of blasphemy when he pronounces that he perfectly interprets the will of heaven. There is not a waster in the midnight restaurants of the Princes, not a housemaid in the "Thiergarten, not a housewife in Charlottenburg, not a courtesan in the "d'Amour, not a beggar in Rickdorf, who is not definitely and perfectly a creature of God and therefore an instrument of the Lord; and if these people announced that all their opinions and all their actions expressed with an infallible accuracy the sentiments of Heaven and the purposes of God, how one would shudder, how one would shiver!

The Kaiser is overwhelmed by his crown. He justifies more than anybody else now in the world democracy's antagonism to individual power. He is so obsessed by the thought of his sovereignty, so ridden by the idea of his position, so hypnotized by the suggestion of his unique place in the German Commonwealth, that he has come to regard himself not merely as the viceregent of celestial Omnipotence, but as an actual incarnation of the divine wisdom and as the infallible expression of the eternal word. He speaks; and it is not a voice from Potsdam, but thunder from Sinai.

Study the utterances of the Kaiser and you will find that he is the victim of a curious mania and parochial megalomania. He is "the instrument of the Lord," and he is the "instrument of the Fatherland"; but to what end is he this marvelous instrument of the living God? "Solely to the wellbeing and peace of the Fatherland,"—how consummate an anti-climax! This instrument of the Lord is not the high priest at the altar of humanity, but the mere head of a parish. He has been raised up, crowned with power, and orb'd with might, majesty and dominion, not to declare the Fatherhood of God, but the god of the Fatherland, not to labor for the brotherhood of man, but for the blood and iron supremacy of the Teuton. His god is a mere tribal deity, a god of Sabaoth, a Zeus whose guttural thunders are massed and exploded for the commercial prosperity of the German nation, a Zeus whose wings and flaming steeds are yoked to the gun-carriage of Prussian artillery.

There is a photograph of the Kaiser in the uniform of a regiment of Hussars, which has always seemed to me the utter irony of his religious pretensions. The husky pressed look and katewreathing over the fierce eyes is ornamented by a giganic skull and cross-bones—unlovely emblems of slaughter. The lips, absolutely lacking in all sweetness and beneficence, are compressed with the petty sternness of a button-inspecting martinet. The eyes glower with reprimand. The moustaches are horned upwards in bombast and truculence. You cannot look at this face and believe that the Lord's word has been touched even on its outward works by the spirit of Christ. Richter said of someone that "his severity-second year he face is a thanksgiving for his former life, and a love-letter to all mankind." There you have the universal charity of religion. A love-letter to all mankind will never be like sunshine from the face of the Kaiser; he has made his mind to frown upon the earth, and his message to mankind is a perpetual summons to an everlasting court-martial.

It would be an immense service to humanity if the religious people of all

"THE BRUTE" WILL STARTLE ST. JOHN!

A Play Dealing With an Actual Condition in Thousands of Homes—Shown Tomorrow

St. John people will be privileged tomorrow and Thursday at the Imperial to enjoy a metropolitan performance in which one of the foremost character delineators of the American stage will play the leading role. The play is Frederick Arnold Kummer's sociological drama, "The Brute" and Malcolm Williams, of international fame, will play the part, or the character of Donald Rogers. Among the other members of the cast will be Helen Dillon, House Peters, Mary Moore, Gene Dilling, William Young and Jack Darling. "The Brute" is a portrayal of the world-old conflict of the sexes, a great and vital drama of today and all time. It is a clash of wills between a strong man and a weak woman—of a manly, somewhat type; also one who is attracted by the glamor of wealth, culture and social prominence. The working out of this seemingly incompatible marriage affair gives great food for thought to thousands of people in St. John as well as everywhere else. Those who like good plays, big plays and sensible plays, will consider "The Brute" a masterpiece.

TONIGHT'S MEETING

A large gathering is expected at the patriotic meeting to be held in the Imperial Theatre this evening when Bishop Richardson, Bishop LeBlanc and Hon. H. A. McKeown will speak in the interests of recruiting for the 20th Infantry Battalion, New Brunswick Regiment. An interesting programme of patriotic music has been prepared and should prove very entertaining. Those who wish to get a good treat should be on hand early.

THE DUGAL REPORT.

Lieutenant Governor Wood, who is in the city today on his way to Fredericton to be present when the government medals, said that he had not decided when the report of the Dugal investigation would be presented. He added that there might be a conference at Fredericton and that a decision might be reached before he returns to St. John.

Employer—Mr. Brown, I should like to ask for a rise in my wages. I've just been married.

nations formed a society for the propagation of the Gospel in the palace of the Unter den Linden. The notion of the religion of Christ as a revelation of universal Fatherhood and Catholic Brotherhood has never penetrated those castles at those gates of iron. How much less has it been brought to the Royal ear that the blessing of Heaven is for the meek, the merciful and the peace-maker, or that the command of God is not to load, present and fire, but to feed the hungry, clothe the naked, visit the sick and the imprisoned, and to love your enemies, unless them that curse us, do good to them that hate us, and pray for them which despitefully use us and persecute us? Could a man touched even on the fringe of his soul by the thought of a meek and lowly Christ, don skull and cross-bones, twirl up his moustaches and gallop up and down the world with the shout of "I am God"? It is pitiful, it is not only pitiful, it is disastrous. One grows angry, and alarmed at these Potsdam "benedictions."

How can it be brought home to the mind of the Kaiser that he is destroying the chief and purest ideal of the century, and bringing religion into contempt? Only, one thinks, by making him see that the moth of Socialism is eating deeply into the purple robe of Prussian sovereignty, and that the rust of anarchy is swiftly corrupting the throne of the Hohenzollerns. He is making himself unsafe.

WE ARE BUSY Because of Public Confidence

When times are bad every cent spent in Furniture has to be expended to the utmost advantage. It is then that the purchaser begins to wonder whether the great "bargains" that are advertised in the papers are really the bargains that their sellers would have the public believe. It is then that the store that has always made a point of selling the most in quality furniture for the least money reaps the benefit of its fair dealing policy. At J. Marcus' the public have always been assured of the utmost value for every penny spent, and now that times are not too good we are still busy. The reason is plain to see. Value and Fair Dealing. J.
