Homes

EXPERT IN HALIFAX

Edward G. Culpin Tells What
is Being Done in Europe to
Better the Lot of Workers

(Halifax Chronicle)
That co-partnership tenancy leads up to city planning, both involving the same principle of co-operation, was the opinion of the English town-planning expert Edward G. Culpin when interviewed by The Morning Chronicle yesterday morning.

Mr. Culpin further holds the natural development to this co-partnership scheme of Halifax would be the drawing up of a city plan. If co-operation, among a few householders was beneficial, how much more so when the whole city was involved.

Speaking on co-partnership tenancy as practiced in England, Mr. Culpin described how it was established in each centre. A certain number of people wanted to live in proper houses if they could be built at a cheap rate. They wanted to have this done by the co-partnership method. Each one was willing to put down a lump sum and pay out so much money per month until they reached an agreed limit.

A number of prominent people in the district were then interested in the scheme. They put up loan stock, limited to the demand of four per cent per annum. The plans were then submitted to the government. Under recent legislation the government had the power of letting to such companies two-thirds of the value of their property. The money for the remaining third had then to be secured by the company, after which all was smooth sailing.

Not Tied Up
By the system of co-partnership tenancy a man was not tied up. If he obtained the better position and wanted to leave his house, he merely withdrew his shares in the company. He had no trouble or difficulty in getting his money back, etc., etc., as would be the case with an individual householder. When he went the company had no trouble in finding another tenant. Furthermore a man who actually owned a share in the property took greater interest in its preservation than would an ordinary tenant paying ordinary rent.

There were in England at the present day about thirty of these companies, while six years ago there was not a single one. The greatest opportunity for proper housing, said Mr. Culpin, came in connection with city-planning. Unless there was a proper comprehensive plan with proper restrictions there was small hope of maintaining decent dwellings in the future.

But in the event of the civic authorities wishing, in accordance with an approved city plan, to effect changes in a certain district, would there not be trouble with the existing property owners, he was asked.

In England, Mr. Culpin said, he had not had much experience in town-planning but he had seen much of it in Germany. In Frankfurt the land was all scheduled and put into the melting pot, provision being made for broad roads, parks, buildings, etc. The government had the power if they wished to do all this regardless of the wishes of the property owners. But so far they had never had to put this power in force for it was in accordance with the wishes of the property owners that they made the changes. They were to the landlords' benefit for they increased the value, appearance and location of their land.

An Insurance
"City planning," said Mr. Culpin, "is an insurance." Every dollar invested yields a hundred fold in the future.

During the last thirty years there had

Famous "Pint of Cough Syrup" Recipe

No Better Remedy at Any Price.
Fully Guaranteed.

Make a plain syrup by mixing two cups of granulated sugar and one cup of warm water and stir for two minutes. Put 2½ ounces of pure Pinex (fifty cents' worth) in a 16-ounce bottle, and fill it up with the Sugar Syrup. This gives you a family supply of the best cough syrup at a saving of \$2. It never spoils. Take a teaspoonful every one, two or three hours.

The effectiveness of this simple remedy is surprising. It seems to take hold instantly, and will usually stop the most obstinate cough in 24 hours. It tones up the faded appetite and is just what is needed to help in a cough, and has a pleasing taste. Also excellent for bronchitis, chest trouble, throat tickle, sore lungs and asthma, and an unequalled remedy for whooping cough and croup.

This recipe for making cough remedy (Pinex and Sugar Syrup for strainer honey) is a prime favorite in thousands of homes in the United States and Canada. The plan has been imitated, though never successfully. If you try it, use only genuine Pinex, which is the most valuable concentrated compound of Norway white pine extract, and is rich in galactol and all the natural healing pine elements. Other preparations will not work in this recipe.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or we'll get it for you. If not, send to The Pine Co., Toronto, Ont.

USE THE WANT AD. WAY

been agent in England by the authorities the equivalent of \$70,000,000 in remedying the mistakes of their predecessors. A short time ago there was completed in London a new street costing \$3,000,000. Yet said expense would have been totally unnecessary had the plans of Sir Christopher Wren, as put forth by him in 1680, been followed. Not only was city planning a money-saving proposition but it saved many other things. It reduced the death rates enormously and added to the efficiency of the population.

RECENT DEATHS

The death occurred yesterday at Little River of William McNamara. The late Mr. McNamara was a native of Ireland and had many friends. There survive him one son William at home, and three daughters, Hannah and Nellie at home, and Mrs. James Boyle, of Little River.

The death of Mrs. Jane E. Coughlan, widow of T. L. Coughlan, occurred at her home in Houston, Me., on last Monday. One brother survives, T. L. Coughlan of this city is a brother-in-law.

The death of Leonard Gregory O'Brien, youngest son of James and Nellie O'Brien, took place yesterday at the home of his parents in West St. John. His parents, three brothers and one sister survive.

The death of James D. Williams occurred at his home at Long Reach on last Sunday. He was seventy-four years of age and one sister, Mrs. C. H. Elston of this city is the sister, and J. R. Williams and Stanley A. Williams of this city are sons. The funeral took place on Tuesday afternoon.

John Hatch died suddenly in Calais, Me., a few days ago. He was a son of the late Charles Hatch of Fredericton, and was 36 years of age. He is survived by his wife and family.

Ella Franklin, of White Head, Grand Manan, who was at the Chippewas hospital in St. Stephen, for treatment, died there on Monday. She was twenty-six years of age. Her body was taken to Grand Manan for interment.

Henry Ridgwell, whose death occurred last week, was a son of the late Charles Ridgwell of Fredericton, and was 36 years of age. He is survived by his wife and family.

With an attendance filling the council chamber to overflowing, every member being in his place at 8:30 the time set for the meeting, the representatives nominated by the different lodges, clubs, churches, industries, unions, etc., met for the purpose of organization.

After a brief presentation of the plan and aims by Mr. Bradford, and some remarks by George Douglas, the election of officers took place and resulted as follows: President—Geo. Douglas.

1st Vice-President—C. A. Luby.
2nd Vice-President—E. A. Lay.
3rd Vice-President—J. A. Briggs.
4th Vice-President—E. E. Hewson.
Secretary—John Bradford.

A nomination committee to act with the executive committee was appointed as follows: C. S. Sutherland, Peter Gordon, Mayor of St. John, and J. A. Briggs.

Under the committee on civic improvement—Harvey Pipe.
Chairman of committee on educational interests—Dr. J. G. McDougall.
Chairman of committee on civic improvement—Harvey Pipe.

Chairman of committee on charitable and social conditions—E. J. Lay.
Chairman of committee on community work—C. S. Sutherland.

Under the work of the committee on publicity and industrial development will come the matters of an industrial or public utility commission, a permanent exhibit, advertising, new industries, entertainments and celebrations, a public market and tramway needs.

Under the committee on municipal affairs, the matter of a city charter for Amherst and studies of city government at home and abroad.

Under the committee on educational interests will come—Proper housing and equipment for school children, vocational training, industrial education, wider use of school buildings, the Winter Fair, as a medium for theatrical productions and moving picture shows, public health, education, extended use of the library and a public reading room, and studies of work in other cities.

Under the committee on civic improvement—A city plan, parks, playgrounds, city beautification, organization of Greater Amherst Women's Civic Club.

Under the committee on community work—co-operation with the Y. M. C. A. and Girls' Work committees, public recreation, including athletics and playground work, co-operation with church organizations and the training of leadership for public service.

HERE'S THE PROGRAMME FOR GREATER AMHERST

Some Hints and Suggestions in This For
The Reorganized Board of Trade of
St. John -- Prominent Citizens Head
Seven Strong Committees Whose Work
Will Touch Every Phase of City Life

(Amherst News)
Each chairman will make up his own committee, choosing men who are particularly interested in the lines of work represented by his committee.

The meeting was marked by the dispatch with which its business was conducted, and with the amount of work done during the time of its meeting, together with the keen interest shown in all departments of the work outlined.

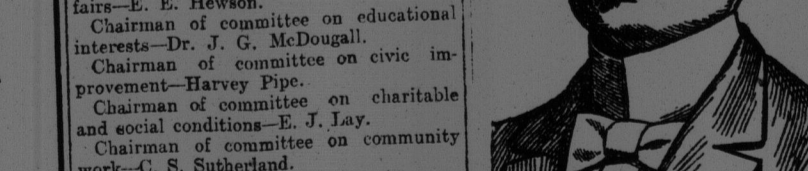

Unable to Work
for 14 Months
Complete Nervous Breakdown Left
Mr. Black an Invalid—Cured
by Dr. Chase's Nerve Food.

Mr. Henry Black.
What a helpless mass of flesh and bone the human body is, once the nerves become exhausted. Extreme weakness comes over you, and you lose control of the limbs. The next step is paralysis.

You will be fortunate if, like Mr. Black, you get the building-up process in action before it is forever too late. By forming new, rich blood Dr. Chase's Nerve Food carries new vigor and energy to every organ and every member of the human body.

Mr. Henry Black, 81 St. Catherine street east, Montreal, Que., writes:—"The wonderful results I obtained from the use of Dr. Chase's Nerve Food constrain me to write this letter in order that others who suffer from nervous exhaustion and weakness may use this medicine with equally satisfactory results. As the result of overwork I became completely exhausted, and was unable to work for fourteen months. As I am the father of a family, these were days for me, but after I had used six boxes of Dr. Chase's Nerve Food I had improved so greatly that I continued the treatment until I was completely restored to health and strength. I now work twelve to fifteen hours a day, and keep in excellent health."

Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Fredericton, N. B., Feb. 5.—At a meeting of the Board of Education today it was decided to procure several copies of George R. Parkin's book on Rhodes Scholarships and distribute them among the high schools in the province. It was also decided to give the full government teacher's grant to Miss Tille McClelland of the Alexandria school here. After the beginning of the next school year Professor Bailey's text book on botany will be the authorized book.

Dr. A. R. Atherton has resigned as chairman of the Fredericton board of school trustees.

The government received a petition from Carleton Place, Ontario, asking that license for the sale of liquor in that county cease to be granted.

Bertram Kelley aged 26, a sub-contractor on the Valley Railway, was killed by a premature explosion while working on the road. He belonged to Kingsclear.

Rev. W. Greenwood, who has been in charge of the Presbyterian church at Prince William, York county, has accepted a call to Nova Scotia.

At a meeting of the board of arbitrators on the matter of the right of way for the St. John Valley Railway on the property of Haystack Wheeler at Kingsclear, he was awarded \$300, the sum which the railway had already offered. He will have to pay the costs.

Approval of applications for incorporation under joint stock companies was given in the following: Albert Lumber Company, Newwood Realty Company, W. G. Jones Realty Company, Realities Limited, and Quoddy Quay Company.

As Judge McKewen will be on circuit in the Westmorland county on February 23, the divorce court to be held in this city on that date will be adjourned by Registrar H. G. Forsyth for one week and will be held March 4. Three cases are to come before it at that sitting.

The lieutenant governor will take up his abode at the Queen Hotel for the session.

Health and Beauty Helps BY MRS. MAE MARTYN

Mrs. B.: "Stringy," unmanageable hair is caused by grease and dirt which, if neglected, will produce dandruff, the worst of all hair dangers. Keep the head perfectly clean with an occasional shampoo with canthox. You will be delighted with the result. Get a package of canthox from any druggist and dissolve a teaspoonful in a cup of hot water. This massaged into the scalp creates a rich, bland lather which dissolves fat and thoroughly cleanses the hair. After rinsing and drying, the scalp is left sweet and pliant and the hair is fluffy, beautiful and easy to arrange.

B. A.: It is an easy matter to reduce your weight if the paraffin treatment is used. This is harmless and quickly dissolves fat-tissues, without leaving the skin flabby or wrinkled. Prepare it at home by getting four ounces paraffin from the drug-gist and dissolve in 1½ pints hot water, strain and take a tablespoonful before each meal. Use regularly until the proper weight is reached. When the paraffin treatment is employed the symmetrical lines of the body soon return and no ill effect follows its use.

Ada: You can strengthen your weak eyes and rid them of that overworked look by putting in each eye daily two or three drops of a fine, strengthening tonic made by dissolving an ounce of erytes in a pint of water. This eye-tonic is very soothing and by using it regularly you will make your eyes strong, clear and brilliant.

Marion: You can cure the impurities in the blood which manifest themselves in pimples and "muddy" complexion by using a blood purifier which you should make at home: Get an ounce of karsden and dis-

solve it in one-half pint alcohol (not whiskey); then add one-half cupful sugar and enough hot water to make a quart of tonic. Take a tablespoonful before each meal and it will soon rid your system of poisonous accumulations and make you strong, bringing the glow of perfect health to your cheeks.

Miss J.: Amazing, itchy scalp can be overcome if you use a tonic made by dissolving an ounce of quinine in a half-pint alcohol, then adding a half-pint water. Massage the scalp with this tonic twice a week stops the itching and rouses the hair follicles to healthy action and using it regularly cures dandruff and soon induces an abundant growth of brilliant, fluffy hair.

Ira: To regain the velvety softness and healthy, youthful glow to the skin, you should discard powders and rouge. Prepare the following simple lotion: Get four ounces of apricot from your druggist and dissolve in a half-pint hot water, then add two teaspoonfuls glycerine. Apply thrice daily with the palms of the hands to the face, neck and arms. Using the sprays lotion cleans and tones the skin, overcomes coarseness, sallowness and wrinkles as well as protects the complexion from tan, freckles and inclement weather.

P. X.: It is not necessary to use the electric needle, because with a single application of delicate tone you can rid your cheek of every trace of hair. Just make a paste with a little delicate and water; apply to hairy surface and in two or three minutes remove, wash the skin and it will be smooth and hairless. This is a quick, harmless way to banish hair from the face, neck or arms.

and will occupy the apartments used by three of his predecessors in office: Governors McClellan, Snowball and Tweedie.

A delegation representing the senate of the University of New Brunswick appeared before the government tonight to ask for an increased provincial grant to the university. Dr. Thomas Walker, of St. John, is here as one of the delegation.

Had a Dry, Tickling Sensation In Her Throat.

COUGHED ALMOST ALL NIGHT.

A bad cough, accompanied by that interesting, tickling sensation in the throat, is most aggravating.

Dr. Wood's Norway Pine Syrup is rich in the healing virtue of the Norway Pine tree, and for this reason it will quickly stop that tickling in the throat which causes the dry hard cough that keeps you awake at night.

Miss Margaret MacDonald, Port Hood, N.S., writes:—"Just a few lines to let you know what Dr. Wood's Norway Pine Syrup did for me. I took a severe cold, coughed almost all night, with that dry, tickling sensation in my throat. The first bottle did me so much good, I thought I would try a second one, which I am pleased to say resulted in a complete cure. I am strongly recommended it to any one suffering from a cough or any throat irritation."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, 3 pint tins the trade mark; price, 25 and 50 cents.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

121 Doctors

Wrote us within 60 days in praise of
POSTUM

These doctors represent but a fraction of the thousands of physicians who use Postum in place of tea and coffee in their homes and in their practice.

Cases of shaky nerves, irritable hearts, indigestion, biliousness, headache and sleeplessness, due to tea or coffee drinking, are observed in the everyday experience of medical men everywhere.

Following the change from tea or coffee to Postum, the ailing one quickly discovers that the Doctor's advice to "quit tea and coffee and use Postum" was sound.

Better health follows; then one friend tells another.

"There's a Reason"

Made by Pure Food Factories of Canadian Postum Cereal Co., Ltd., Windsor, Ont.
