This office has had correspondence with you about the release of this Canadian Soldier, and the previous correspondence stated that he would be released on the latter part of February.

There is no release as far as his people here can find out and they believe that had he been let out he would have come home or written to them. I tired you on the 22nd. Inst. asking for information, and not having received any do not know any more that his folks about their son's whereabouts, these people are alarmed and if their is any thing to report will appreciate hearing from you.

yours truly,

JOHN G. BANKS,

J. G. B.
