A STATE OF THE STA

Liverpool, July 7.-The Cunard steam er Servia, from Boston on June 29, havon board the Ancient and Honor able Artillery Company of Masachusetts, reached the landing place here at 4 o'clock. The Americans were grected with the heartiest of cheers from he vast concourse of people and they made a lusty response. The enthusiasm displayed by the British has rarely been equalled. The Americans were met by the reception committee of the Honorable Artillery Company of London, the Earl of Derby, the Lord Mayor, many military officers, civic officials and a of prominent people.

As the hour for the arrival of the company approached large crowds surrounded the Hotel Cecil and Euston station, where, however, they were kept outside the barriers. On the platform of the railway station was a large stuff of military and civic officials and police. Along the route originally fixed for the parade were lines of patient crowds. some of whom had been there since early morning, anxiously awaiting the arrival of the Boston Ancients, who, however, were not expected until 9:30, an hour later than the time last annonneed

The train steamed into Euston station at 8:45, making another change in the tine set for its arrival. It was drawn by two engines, which were decorated with stars and stripes and union jacks. Immediately the train stopped the Salem cadet band alighted and drew up on the platform, where it played "God Save the Queen," while the crowds, bareheaded, cheered until they were hoarse. The band at the station repeated the British national anand then played Yankee Doodle," the crowds remaining uncover-

The chairman after the dinner had been partaken of, toasted the Queen, and said that Her Majesty was showing the greatest interest in the visit of their The toast to the Queen was drunk amidst enthusiastic cheers. Col. Walker, of the Boston Co., led a sepgrate round of cheers by the visiting Americans and the whole assembly sang "God Save the Queen" amidst the wildest enthusiasm, the Boston men following the national anthem with their curious shouts.

The chaiman then toasted the President of the United States. In proposing this toast he said it was a corollary of the preceding toast to the Queen. Thepresident was regarded with the affection as the great head of a great nation, and they hoped that his successors would always be leaders in the peaceful contests between the two English speaking nations. The company then drank the toast to the President standing, amidst cheers by all.

The chairman next toasted the Prince of Wales and the other members of the Royal family. He referred in his speceh to the Prince of Wales' connection with both military companies, with the London company as a member and with the Beston company as an honorary member. A Vancouver Mass Meeting Takes Strong Ground in Favor of Restriction.

Resolutions Carried-The Employment of Chinese in Island Coal Mines.

Vancouver, July 7.—The meeting at the market hall convened for the purpose of considering the question of the restriction of Mongolian immigration, was largely attended last night, the hall being well filled. A number of ladies were among the audience. The chair was ocupied by Mr. R. McPherson, M.

Mr. Ralph Smith, of Nanaimo, who was called upon to move the first resolution, made a strong speech, in the course of which he referred to the employment of Chinese in the coal mines of the Island. He pointed out that notwithstanding the existence of a legislative enactment forbidding the employment of Chinese underground, some of the mine-owners acted in open defiance of it. Although six years had passed armory. The first question of the visitors was as to who won the boat rice at Henley. The whole rout to Lansbury Square was lined with omnibussos. "Whereas in the opinion of this meeting the importation of Chinese into the Dominion has resulted, and must inevitably result, in injury to the best interests of the country by the unfair competition of such Chinese in the labor market; the introduction and perpretation into our midst of filth, immorality polygamy, gambling, the opium habit and other evils. And whereas the contipued wholesale immigration of such Chinese is a serious menace to the peace and prosperity of the Dominion, and of this province in particular. Therefore, be it resolved, that we call upon the Dominion government to increase the tax or duty levied on Chinese under section 8 of the Chinese Immigration Act

(48, 49, Vict. Ch. 71) from \$50 to \$500." Mr. James Wilkes, of Union, in moving the second resolution, told the audience of the intense competition of the Chinese and Japanese at Union, where one of the coal mines is worked exclusively by Chinese, the officials only bemg white. In the other mines, every white man has a Chinese or Japanese working with him. A result is that these aliens exceed in number the white men of the Union district. This, ne thought, is a serious reflection upon the legislation responsible for it. He stated that the Vancouver Coal Company employs white labor, but if they have to continue to meet the unfair competition of others employing Chinese, they will also have to employ Chinese. His reso-

lution was: "Whereas, in the opinion of this meet ing the importation of Japanese into the Dominion is injurious to the best interests of the country, by unfair competition of such Japanese in the labor market; and, whereas, the labor of such Japanese is unnecessary for the development of the resources of the country; therefore, be it resolved, that we call upon the Federal government to take such steps as may be necessary to restrict such Japanese immigration, upon the same lines as proposed in connection with the Chinese.'

Mr. Field-Johnson seconded the reso ution, which was carried unanimously. Mr. Hawson proposed the third resoution, which was carried, as follows: "Resolved, that in the opinion of this neeting it is desirable that some action be taken to bring the question of Monrolian immigration to the notice of the Federal government by the preparation navy and to the suxiliary forces follow- ed in all portions of the province: to be afterwards presented to the government The chairman then proposed the toast at Ottawa; said petition to cover the of the evening by saying: "Comrades ground set forth in the resolutions pass-

Guthrie, O.T., July 7.—Fourteen prisoners overpowered the guards of the United States jail at 9:30 on Sunday night and broke jail. Bill Doolin and Dynamite Dick, the last survivors of the Dalton gang, who were wanted for the murders committed in the Ingalls aght, at which four deputy marshais were killed, were the principal actors. Fourteen out of fifty-four prisoners escaped. They were the most desperate characters. They are: Bill Doolin, Dynamite Dick, Charles Montgomery, Jim Black, Wait McClain, Bill Crittenden, Ed Lawrence, George Lane, Kid Phillips, Henry Irvin, Bill Jones, U. O. Nix, Lee Killiam, and William Beck.
They got the guard's two revolvers and Winchester by a rush out of a cage when the cage was open and knocking one of the guards down, placed the other in the steel cages, making them enter at the point of their revolvers Henrick the the guards down, placed the other in the steel cages, making them enter at the point of their revolvers. Having the guards safe, the ringleaders called for every one of the prisoners to escape if they wanted to. Only fourten followed. William Beck was so weak that he sat by the side of the road out of the city, wondering how he could escape. Later the outlaws made a man named Schofield and his girl get out of a buggy and give it to them. A posse of deputy marshals, headed by Bill Lightman, who captured Doolin, went in pursuit of the escaped prisoners.

The constable immediately went to the jail upon the cry of alarm, but when he opened the door the smoke and flames drove him back. The fire engine was taken out and the flames were finally extinguished. When the body was taken out one hand was burned off and the face, trunk and one leg were burned to a crisp. One supposition regarding the fire is that Peterson, who was much enraged at being locked up, started the fire himself, hoping thereby to attract attention and be released. Another is, that being drunk in lighting his pipe, his clothes caught fire and he could not extinguish them. The coroner's jury rendered a verdict of "death by fire which was set by the unknown man himself." The old man was about 55 years of age and has no known relatives in the country. Oakland, Cal., July 7.—Edward Kelly, a shoemaker, and Joha Masterson, a sallor, sawed their way out of a cell in the Oakland county jail on Friday night, and by scaling a sixteen-foot wall surrounding the jail yard, escaped. They were awaiting trial on charges of burglary. Frank Wood, a third man who occupied a barred cell from which the escapes were made, did not take advantage of the opportunity. Washington City, July 7.—The natural gas production in the United States for 1895 is reviewed in a report of the geological survey, compiled by Expert Joseph D. Weeks. The total value was \$130,006. 650, against \$13,954,440 in 1894, the value being that of coal and wood displaced by gas. The value of the consumption during 1885-86 was greater than in 1888, when it was \$22,629,875. From then to 1891 the decrease was rapid and in the past four years there has been a gradual decline. The most notable feature of the year was the decreasing pressure in all of the natural gas fields of the country.

Ottawa, June 29.—Now that the smoke of the battle has cleared away and the excitement of the contest is over, it has to be admitted on all hands that the Liberal victory obtained at the polis last Tuesday was thoroughly complete. The victory is not confined to any province, although the Tory organs, being folied in their attempt to buy up the province of Quebec, through the hierarchy, are commencing now to call out French domination. In the first place, commencing at the Pacific Coast, British Coumblia has done marvelously well. Four members, out of six, being returned on the Pacific slope to support Mr. Laurier, is somesthing which has caused great rejoicing in the east. The influences which managed to return Lieut.-Col. Prior and Mr. Earle in Victoria, B.C., are well known here, to return Lieut.-Col. Prior and Mr. Barle in Victoria, B.C., are well known here, and probably in no place is the result to be regretted more than in that city. Had the people of your fair town the opportunity, as it is to be hoped they will soon, of again expressing themselves on the issues at stake, it is thought at this long distance from the scene and situation that their verdict would speedily be reversed. It is unfortunate that the citizens of Victoria are not among those who zens of Victoria are not among those who are rejoicing in their being able to say that they have succeeded in doing something to dethrone the most corrupt government that ever reigned in any country. It is also matter for regret that, while the province of Quebec rose up in its great strength and gave an overwhelming vote for political freedom, the city of Victoria did not join with the other constituencies of British Columbia to give force to the condemnation of those who sought to stir up race and religious cries in the expectation of once more riding into power on the same. But outside of this, the people west of the Rock Mountains are deserving are rejoicing in their being able to say west of the Rock Mountains are deserving of congratulations. They will have cause to be glad of how nobly they have acted.

They will have cause the efficacy of the Ointment, but also proves how generally it is used. The Northwest Territories, where the government and their officers seemed to be able to do pretty much as they pleased, came within two votes of sending a solid delegation to Ottawa to support Mr. Laurler. As it is, there are three Liberals and one Conservative. Mr. Davin has been re turned by a majority of two over Mr. M. Innes. This is, perhaps, under the circumstances, one of the most wonderful charges in connection with the campaign.
With the iniquities of the emigration system, and the fact that the country is overrun with Dominion officials, the result highly satisfactory. In the case of Mr. Davin there will be a recount, and probably a protest. If he is unseated then he will be defeated easily. Coming to Manitoba, the people had

much to contend with, the same as they had in the Territories. Hugh John Macdonald, the minister of the interior, was at Winnipeg and had all the men he posibly could have, taken from Ottawa to aid in assisting the government. The depfairs, Mr. McGirr, who was private secretary to Mr. Dewdney, and a batch of ther officials were all out in the west. Mr. Hayter Reed was all over Ontario before he left for the west. But despit all these influences, the Liberals take three out of the seven seats. There is, however, this to be said about Manitoha. and that is that it is very disappointing that those parties who have been fighting for "Hands off Manitoba" to discover that the prairie province voted for its own humiliation. Promises of bribes in the shape of railways, etc., were sufficient to stiffe the free expression of the will of the peo-The province will have now time to kick itself for acting so stupidly. Mr. Macdonald will not be able to do anythe gang of renegade Reformers, who were working for the government and the interests they had at stake, will now have to deal with a Liberal instead of a Con-

There were other instances of this But for all this Ontario has sent a majority of six to support Mr. Laurier. It was Quebec that rose in its might with the bishops. The mandements issued in behalf of Tupper failed in their effect, and Quebec rallied in the support of political freedom in such a way as no province ever did before. English speaking people are all proud of a people who were threatened with damnation in some instances, yet marched to the ballot boxes and laid their protest against those who wished to control their franchise. Charles Tupper held up Mr. Laurier as a disgrace to his race and a traitor to his religion. There were many high dignitaries in the church who said the same thing, but nevertheless Mr. Laurier got such a majority from the province as no man ever did before. There are a few nservative members returned by a small majority, and they too will have to go inder and Liberals take their Deputy Speaker Bergeran, for Beauhar-

Sister, the holy maid does well
Who counts her beads in convent cell
Where pale devotion lingers;
But she who serves the sufferer's needs.
Whose prayers are spent in loving deeds,
May trust the Lord will count her beads
As well as human fincers. As well as human fingers.

When Truth herself was Slavery's slave. When Truth herself was Slavery's slave,
The hand the prisoned suppliant gave
The rainbow wings of fiction,
And Truth, who soared, descends to-day
Bearing an angel's wreath away,
Its lillies at they feet to lay,
With Heaven's own benediction.
—Oliver Wendell Holmes, 1880.
