MEMBERS DISCUSSED PROPOSED ADDITION

The Question Will Be Settled at Special Meeting-Tenders Invited for Supplies.

The directors of the Royal Jubilee ho ital met on Thursday. It being the first eeting of the new board, officers were cted for the year. R. S. Day was lected as president; James Foreman, er, and F. Elworthy, secretary. The formal reappointment of the staff also

The resident medical superintendent re ported that during the month there has been 85 patients admitted and 130 pa-tients treated. The total days' stay was colony on the Island of Tahiti, which is 1,563. The daily average of patients

Accounts for June, amounting to \$1, 584.95, were ordered to be paid, together with the salaries of \$868.21. The average cost per diem par patient was shown to be \$1.57.

Upon the question of improvements to the hospital in the way of adding to the odation, objection was taken by Wm. Humphrey to the way in which the business had been conducted. It was two months ago since the matter came up before the board. It was decided then by the house committee to ask for an estimate upon putting an additional stor to one of the wings. It was decided to ask Mr. Muir to make an estimate, inac much as he had prepared the first plans Now they found plans submitted from Mr. Hooper.

Alex. Wilson said these plans of Mr Hooper's did not carry out what had been intended. The object arrived at was to get as many corner rooms as pos sible. This plan submitted did away with this by extending the wing.

J. Holland pointed out that H. D. Helmeken appeared in a dual capacity as a director of the hospital, and as the trustees of Lord Strathcona, who had made the gift, which it was intended to

ucilize in this way.

A. E. Lewis said the house committee. he thought, had no right to appoint an architect. The board should do that. Mr. Wilson explained that the house committee had committed the board to nothing. It had simply intended to ask for an estimate of the cost.

On motion of Mr. Holland it was decided to call a special meeting of the board on July 23rd to discuss with Mr. Helmcken the question of hospital extension in connection with the Strathcona fund. It was suggested that the house committee should see Architect Muir about it in the meantime. Mr. Holland said that Mr. Helmcken had told him he had seen Mr. Muir. It was decided that the house committee should report at the

Chairman Day was of the opinion that perhaps the matter could be settled by arranging to have the drugs for the Isoation hospital prepared at the Jubilee. The nurses in training might take three months at the end of their probation in the Isolation hospital. He thought in some such way this vexed question might be settled. The matter was left over

until a future meeting.

It was decided to call for the usual tenders for supplies. These will be re ceived up to July 28th, The meeting then adjourned.
