WILL TAKE BREAKFAST IN NEW YORK; DINNER IN PARIS

Dr. Alexander Graham Bell
Hopes to See the Time
When Airships Will Cross
the Atlantic in Twenty
Hours—Talks of His Work
in Cape Breton

NEW YORK, April 28.—A despatch to the Times quotes Dr. Alex. Graham, the inventor of the telephone, as saying last night it is only a question of a brief period when the progress of aerial navigation will make it possible to have dinner in America and breakfast the next morning in Europe, covering the distance across the Atlantic in considerably less than 20 hours.

"My expectation," said Dr. Bell, "is that an airship will be perfected capable of making 100 to 200 miles an hour. I think, however, that the next step in aerial flight will make possible the creation of aerial battleships."

"The actual problem of navigation of the air has already been solved by the Wright Bros. Naturally there will be development along commercial lines, one feature of which will be a great increase in speed, and the adaptation of airships to the purpose of war."

"My belief is that Great Britain will be the first country to perfect aerial battleships."

"I hope to be able to add much to what is known of aerial flight by experiments at Cape Breton Island this summer."

"I will endeavor to propel my kite with a specially constructed engine of 15-horse power, weighing 120 pounds. I hope to perfect a machine that will support an engine and man to operate it. Last December I constructed a vehicle that supported itself and a man in a three-mile breeze. I am now learning machine carrying an engine at ten to fifteen miles an hour. If I can accomplish this, there is hope that men who are trying to solve the problem of flight on the bird plan, will be able to avoid fatal accidents long enough to learn how to fly. Even a bird, one of the first considerations is safety, so man must learn to go slow before he goes fast."

"I am confident that it will not be long before flying machines will be everywhere. The development of the next few months will be unprecedented but the most interesting point is that only very few know how near America is right now to solving a question which will revolutionize warfare and commerce—I mean the construction of practical aerial battleships."

Dr. Bell is in London to receive his degree of Doctor of Science at Oxford on May 2nd.

MEXICAN GOVT. TO FORTIFY
RAILROAD TERMINALS

Plans Being Prepared for Strengthening
the Defences of Two Principal
Ports.

SAN ANTONIO, Texas, April 28.—A special from Coahuila, Mexico, says:

"Official announcement has been received that the Mexican government has determined to fortify this port and Salina Cruz, the two terminals of the Cahuila National Railway. For this purpose General Manuel Mendonza has already left Mexico City. With him are high officials of the military engineering force. He will draw up plans and specifications and the actual work of fortifying the port will be begun at a not distant date."

"The exact significance of this move is not known—but it is believed to have simply grown out of the national policy, possibly spurred on by the Central American troubles and in response to a strong popular demand. Before the opening of the Isthmus fortifications of terminals were not much thought of, but since the opening the public demand has become insistent. It is stated that the works will be of the most modern character and that the batteries will include guns of the latest pattern and highest power."

NEW BRIDGE GAVE WAY

RICHMOND, Va., April 28.—A Bedford City despatch says about a thousand feet of the arch of the new concrete bridge over Little Otter River, at Lowry, Va., gave way yesterday and fell into the stream below carrying with it many tons of earth and completely damming the stream. The loss is variously estimated at from a quarter to a half million dollars besides the delay in completing the road.

ODESSA, April 28.—Sixteen bombs were dropped yesterday in a villa which Governor Kaubars had rented for a summer residence.

WASHINGTON, April 28.—Mr. Bryon, the British ambassador, will deliver an address at Jamestown Exposition on May 13, in commemoration of the first permanent settlement of English-speaking people on the American continent at Jamestown.

NEW TIMBER LANDS
OPENED BY RAILROAD

NORTH ADAMS, Mass., April 28.—Extensive timber lands, which have been hitherto untouched, are being developed this year in Southern Vermont, and the log driving operations in the Upper Deerfield valley for several years have been done away with as a result of the building of a narrow gauge railroad from Mountain Hills extending 18 miles into Somerset, with a branch line extending one and half miles into Glastonbury township in Vermont. The road was incorporated under the Vermont laws by the Deerfield Lumber Company and is exclusively for log hauling. Since the opening of the road this winter one hundred thousand feet of spruce logs have been brought down daily. The road taps a large virgin forest. It is expected that the lumber mills in the Deerfield valley will be kept busy throughout the year.

MONCTON PARSONAGE

Rev. Mr. Sisam Lost Some Food—Board
of Trade to Discuss Bills of Lading
—Daily Superintendent Appointed.

MONCTON, N. B., April 28.—The residence of Rev. W. B. Sisam, pastor of St. George's Episcopal Church, was entered by a bold and evidently hungry burglar on Saturday night. The burglar had been left open and the thief entered, departing with a quantity of food and kitchen utensils of a few dollars value, but overlooking a quantity of valuable silverware and money which was easily accessible. The thief had a narrow escape from capture, as Rev. Mr. Sisam heard the opening of the door and went down stairs, but seeing nothing returned. A few minutes later the door slammed as the thief left, and it is thought he was secreted in the pantry while Mr. Sisam made his visit downstairs. There are a number of strange and disreputable characters around the city at present and the theft is attributed to some of these.

The death occurred this morning of Julia Melanson, the 17 year old daughter of Anthony Melanson. She had been a sufferer from tuberculosis for some time.

The position of daily superintendent at Sussex made vacant through the resignation of Harvey Mitchell has been filled by the appointment of C. W. McDougall, of Guelph, Ont., who went on duty on April 28th. His territory includes Sussex and St. John River districts.

An important matter will be considered by the Board of Trade tonight, namely consideration of the draft bill of lading submitted by a number of railway companies in Canada, to the Board of Railway Commissioners. The board of trade are standing out for a clear bill of lading subject only to laws of the Dominion applicable to common carriers.

The coroner of St. Bernard's church is arranging for an elaborate reception to Father Savage, who with Father Dufour, of Kent County, will arrive here tomorrow. An audience by the Pope while in Rome and received Holy Communion.

WANT TO KNOW DEFINITELY
HIS OPINION OF LABOR

Central Federation insists that a Committee
Shall See the President—Ideas
Differ as to His Views.

NEW YORK, April 28.—The Central Federation Union today, instead of the usual meeting, held a special session to discuss the action of the Moyer-Haywood matter, stood about evenly divided. Present Roosevelt's record as a labor man from the time he was a New York assemblyman until he became president, was brought into the light and the delegates found it rather difficult to reach a decision. The discussion which lasted for more than three hours, was the most bitter heard in the Central Federation Settlement building, where the meeting was held. The upshot was that the meeting, representing more than 100 delegates, was unable to reach a decision on the Moyer-Haywood matter. The delegates were divided into two camps, one of which was in favor of the Moyer-Haywood matter, and the other was in favor of the Central Federation Union. The meeting was adjourned until next week.

WANT MORE PEOPLE TO
READ THE CHURCH PAPER

The Baptist ministers met in weekly session this morning. Those present were: Rev. A. B. Cohoe (presiding), W. W. McMaster, M. E. Fletcher, J. Hughes, P. J. Stackhouse, C. Jenkins, G. Swin, P. E. Bishop, W. Camp, A. B. Cohoe and D. Hutchinson. Rev. M. E. Fletcher presided at the service yesterday, and Rev. Gideon Swin officiated at one baptism. Rev. P. J. Stackhouse preached his farewell sermon yesterday in the Bermuda Baptist church, who succeeds him, will preach his first sermon in June.

A LITTLE CHILD WAS TERRIBLY BURNED.

Four Year Old Walter Gormley Playing With
Matches

Set Fire to His Clothing—No Doctors
Could be Had and the Little One
Suffered Intensely Before Receiving Treatment.

Walter Gormley, the four-year-old son of William Gormley of North street, was terribly burned about the head and body last night. The little boy was playing on the street with some companions. Towards midnight he went into the house and commenced playing with matches. Mr. and Mrs. Gormley were both out and the little fellow knew nothing of the danger of his game. Shortly after one o'clock some small children ran out of the house, screaming and neighbors rushed to the scene. On entering the house they found little Walter on the floor, his pretty curls burned off, and the blouse which he wore, on his chest was one mass of blisters and in some places the flesh was burned off. Had the child received treatment right after the accident its chances for recovery would probably have been good, but under the conditions, death will probably claim the unfortunate child.

This is the second accident in two days, whereby children were burned by playing with matches. Yesterday the little son of Rev. H. D. Marr received severe injuries in a like manner.

HE HAD A PARTICULAR APPETITE FOR PICKLES

How a Portland Loafer Got Giddy in a
Chowder Joint and Will Pay
For His Fun.

The police bench was well filled this morning, when nine drunks faced Acting Magistrate Henderson. Of the number four were Sunday drunks and the remainder Saturday night or early Sunday morning specimens. Among the lot were some old rounders and a sprinkling of prominent young men of good families. All were fined \$5 or \$10 for being drunk on the streets. He is credited with spending about \$2,000 in liquor during the past year. There was not eight dollars among the whole lot. All went into jail.

Thomas Goodwin, a news agent, imbibed too freely Saturday afternoon and tried to take charge of the Boston express, with the result that he was taken in by Sgt. Campbell and Police Constable Joseph Henderson. Goodwin was charged with being drunk, using profane and obscene language, resisting passengers, and assaulting and beating Conductor Joseph Henderson. He was remanded to jail.

George Marshall, who was remanded to jail on Saturday, was brought before the court this morning and charged with breaking windows in Jas. Garnett's restaurant on Main street also with using insulting language and assaulting Garnett. Marshall's face was all patched up with plaster, and he looked as if he got decidedly the worst of the mix-up in the chowder shop. Garnett explained that Marshall got vexed because he was not greeted when he entered the shop. He ate a chowder and dish of pickles, and calling for more pickles, demanded that he be given all cauliflower. His blow was laid off, Crawford would not pay the bill of ten cents, became abusive and besides overturning a table of dishes, threw bottles at Marshall. The latter stood it as long as he could and then swung on Marshall's lip, after which he tossed him out on the street. Marshall came back, however, and punched the windows full of holes. He was fined \$20 for the glass breaking and ordered to pay damages amounting to \$50.

Sgt. Kilpatrick informed the court that the prisoner did little else than hang about the foot of Portland and drink rum, and he could say nothing in his favor.

WEST INDIA LINER
OCAMO ARRIVED TODAY

The West India steamship Ocamo arrived in port from Bermuda this morning. She brought 63 passengers, 32 first class, 22 second class, and 4 third class. The first cabin passengers were as follows: G. S. Jackson, R. M. Jackson, T. M. Fraser and H. P. Blair, from Memara; S. J. Melville, Miss E. Du Bourcier, Dr. Branch and wife, and Wm. Channell, St. Lucia; C. J. Hill, Dominica; Miss E. Pencheon, Montserrat; C. S. Major, V. Jamison, Mrs. W. H. Chase, Mr. and Mrs. McCully, Master W. G. Milligan, Miss Emma, J. Hinson, Miss H. Rouse, J. Winston and wife, J. A. Whitman, W. D. Wadson, T. Butterfield, and F. Popham, Bermuda.

Among the first class passengers was Master Walter G. Milligan, of this city, who spent the winter with relatives in Bermuda.

The four third class passengers were Chinese, Chan Shee Yang, Chan Shin Chan Hip, and Woo Chang, by name. They are on their way to Hong Kong, and their clearance funds were deposited in Bermuda.

WALL STREET
NEW YORK, April 28.—U. S. and St. P. started the week about one point higher than Saturday's closing, and Am. Smelting 14; otherwise the changes were without significance. The market opened firm.

A horse attached to a sloop and owned by Thomas Clark made a wild dash down Princess street last night before noon today. The breaching broke and the sloop striking against the horse caused it to run as fast as it could down the hill. A number of persons tried to stop the horse, while the majority got out of its way. It dashed across Prince Wm street and made for the ferry floats. The sloop crashed against the ferry building and the runaway wheel of the sloop was demolished and some bricks chipped off the ferry entrance. The horse was uninjured.

The funeral of the late Miss Levena Burke took place at 2:30 this afternoon from her father's residence, Sheriff St. to St. Peter's church, where Rev. Father White read the burial service. Interment was in the new Catholic cemetery.

The death occurred this morning of Kennedy Huston at his home 42 Marsh street. He was 60 years of age and is survived by wife, one son and one daughter.

NEW YORK, April 28.—A dense fog prevails at all marine stations and no vessels have been reported either arriving or sailing up to 9 a. m.

CARPENTERS WANTED.—Apply R. N. DEAN, 72 St. James St. Phone 712. 29-4-1

TO LET.—Rooms with board. Apply MRS. C. W. Goodwin, 165 Gilbert's Street, W. E. 29-4-4

LOST.—A gold brooch with settings, being a Clarence street and Derby nearly all night. It is stated that there have been 200 pieces in the lot, but nothing definite is known. The logs can be gathered again never, as the ice below Derby has not run out.

12 o'clock. The ice started running at 11:45 and promises to flow uninterruptedly until the river is clear.

THE MIRAMICHI ICE
RAN OUT TODAY

CHATHAM, N. B., April 28.—One of the Miramichi lumber booms on the Upper Miramichi broke last night and logs were running past Derby nearly all night. It is stated that there have been 200 pieces in the lot, but nothing definite is known. The logs can be gathered again never, as the ice below Derby has not run out.

12 o'clock. The ice started running at 11:45 and promises to flow uninterruptedly until the river is clear.

CARPENTERS WANTED.—Apply R. N. DEAN, 72 St. James St. Phone 712. 29-4-1

TO LET.—Rooms with board. Apply MRS. C. W. Goodwin, 165 Gilbert's Street, W. E. 29-4-4

LOST.—A gold brooch with settings, being a Clarence street and Derby nearly all night. It is stated that there have been 200 pieces in the lot, but nothing definite is known. The logs can be gathered again never, as the ice below Derby has not run out.

12 o'clock. The ice started running at 11:45 and promises to flow uninterruptedly until the
