

Arrangement and Oversight

The Main Building, occupied by gentlemen, is under the oversight of the Resident Teacher in charge, Mr. Bates, who is assisted by other resident gentlemen teachers. The Steward and Matron also reside in the building.

The young ladies, occupying a separate but connected building, are under the care and oversight of the Lady Principal, Miss Read, assisted by four other resident lady teachers. The Principal resides with his family, in a wing of the Ladies' Building.

Lady and gentlemen students sit at the same dining tables, over which the Teacher in charge, the Lady Principal, and the other resident teachers of both sexes preside.

Ladies coming from a distance often prefer to take rooms already furnished; to meet the wants of such, a limited number of rooms have been completely furnished, and for these a small rental per week will be charged. The remaining rooms, in the three buildings, are each furnished with bedstead, mattresses, tables, chairs, washstand and broom. Whatever else is required, such as bed clothes, pillows, towels, lamps, &c., must be provided by the students themselves.

Rooms applied for will not be kept vacant for the applicant after the first day of the term, unless the cause of delay be previously or immediately communicated to the Teacher in Charge.

Standings and Reports.

The Faculty meet regularly to inquire into the conduct and progress of the pupils. A daily record of class room recitations is kept by each teacher, and upon this record, combined with the results of the stated written and public examinations by the teachers and by the examiners appointed by the Board of Trustees, standings are made up. The aggregate number of marks obtained by each student during each term is publicly read and posted in the College Chapel, and a report of the progress and deportment of the pupil for each term is sent to the parents or guardians.

Library.

The College Library consists of about 3,500 volumes, nearly all selected with special references to the wants of such an institution. To this, all students have daily access to consult books of reference, and all necessary facilities are afforded by the Librarian at stated times for the withdrawal of other books for private reading. Mrs. Fyfe's splendid gift to the College of 1,250 volumes, from the private library of the late Dr. Fyfe, is highly appreciated both by students and teachers.

Meteorological.

Observations are made in the following elements: Pressure and Relative Humidity of the Atmosphere; Mean, Maximum and Minimum Temperature; Clouds; Depth of Rain and Snow; and
