Society circles have been very quiet since last came in the parties being confined to a few little teas and the quietest of card parties. Mrs. West gave a small luncheon party on Monday of a week. There were a couple of teas and on Thursday a bachelor party of a similar function that was exceedingly pleasant.

A Lenten sewing club has been organized for the benefit of the poor. It will meet once a week until Easter, and industrious fingers till then will be busy. There is very much more poverty this year than last, and many people need help this year who never before required it. The chief object of these sewing parties is to fit poor children to attend school, each member supplying the needs of one child.

Miss Burns is at present the guest of Mrs. Fielding in Ottawa where she will remain for some weeks.

People are already beginning to think of after-Easter parties, but the greatest is to be a subscription ball to be given at the Halifax hotel in aid of charity, on Thursday in Easter week.

It is to be a fancy dress party, with the large margin of uniform, or Windsor uniform, which is simply evening dress with colored facings, for men, and powder costumes for ladies, which lets in many people who do not wish to get up a regular dress. The carnival, however, and the tableaux have provided nearly every one with pretty costumes which they are only too pleased to air, instead of keeping them for next year. The affair is to be under the patronage of the Lieut. Governor and Mrs. Daly, General and Mrs. Montague Moore and the Mayor and Mrs. Stephen. The tickets are to be sold at the very small price of one dollar each, so the success of the dance should be assured.

Mrs. McKean and Mrs. James Morrow left last week for Montreal and Ottawa for a brief visit.

Mr. Walker R. E. has gone to England on leave. A new engagement not yet announced is being talked of in social circles. At present nothing definite is known as to the plans of the young couple.

# DEATHS

When a man neglects his health for a day he marks two days off the calendar of his life.

When he neglects his health for two consecutive days he marks four days off his life's calendar. And so on.

What's about the ratio, and it doesn't take many days to cross off the calendar of his life.

And yet men recklessly neglect their health for weeks at a time. It is the easiest thing in the world for the average man or woman to get good health and then keep it. It only needs a little stitch here and there. The big, dangerous maladies that threaten life are only the culmination of the little illnesses that are neglected.

If when a man feels "knocked-out," "run-down," "overworked" or "overworn" he will resort to Dr. Pierce's Golden Medical Discovery he will soon feel bright, strong and vigorous again and able to combat all the big maladies in the doctor's books. Moreover the "Golden Medical Discovery" is a sure and speedy cure for some of the most dangerous diseases. It cures 95 per cent. of all cases of consumption. It cures nervous prostration and exhaustion. These are not mere assertions. Thousands of grateful men and women have testified to the facts, and hundreds of their names, addresses, and photographs are printed in Dr. Pierce's Common Sense Medical Adviser.

"I used Dr. Pierce's Golden Medical Discovery for a torpid liver and indigestion," writes J. A. Williams, Esq., of Mill Brook, Washington Co., Tenn.

Dr. Pierce's Common Sense Medical Adviser has had a larger sale than any other book of this class ever offered the public. This book of 1,008 pages with 300 illustrations, is full from cover to cover, of practical advice on health matters. This great book, in heavy manilla covers, is now offered FREE to whoever will send a one-cent stamp to pay for customs and mailing only. If an elegant French cloth binding is desired, send 50 stamps. During recent years an important change has taken place in the treatment of certain diseases of the air passages. While formerly it was the custom to rely almost entirely on internal medications in this treatment, the importance of direct applications of medicines to the diseased parts is becoming more and more generally recognized. Of this method of treatment, Cresoleum is the most largely used, the most successful in its results, and the most convenient way of medicating the air passages.
