STANDARD ON SALE.

Perseverance the Quality Which Wins Out in Bermuda Trip Contest

It is the One Who Never Gives Up, but Who Keeps at it, Who Succeeds--Any Contestant Can Catch the Leaders With a Few Subscription Votes.

Continued from page 1. Don't overlook any one or any votes. Follow the example of a successful politician, who is "on the job" every second.

Yesterday was a busy one in the contest department and many special coupons for paid in advance subscriptions have been issued. Many of these won't see the light for a few days yet, but what a harvest there will be.

How You May Vote. The ladies entered from various districts stand ready to be voted for and this may be accomplished by the special coupons which are given on paid in advance subscriptions.

Every person, no matter where situated, may vote for his or her favorite lady, who may be entered from any district simply by remitting to The Standard and New Star the amount of three, six or twelve months' subscription, and the number of votes allowed will be according to the length of time subscribed for.

These votes will appear next day to the credit of the contestant voted for, and it is in this way that the friends of contestants can help along the plucky ladies who are fighting to win out the New York City and Bermuda tour.

New Brunswick has always been patriotic from the days long ago and is now a province of refinement and education, and just as the settlers of old

many of whom were of ancient family and prestige—believed in the educational influence of travel so do their modern descendants believe in the broadening effects of travel for their girls. This, then, is the opportunity of the true citizens of New Brunswick to help their favorites. Look down the list of contestants and decide for whom you will vote. Send in a subscription to The Standard or New Star and vote for your favorite.

The vote up to last count indicates good results right along the line and we congratulate all on the advances made. A few hints on Winning. Getting votes to help put them in first place is getting easier every day.

The first few days ladies are bashful, but after this bashfulness wears off and the ladies begin to realize the difference between the actual and the imaginary facts, and getting votes is easy.

EVERY MAN MUST READ A NEWSPAPER. People may do without many things but a newspaper is a necessity. REMEMBER THIS. You are not asking any one to take something they do not want or have no use for.

You ask them to take The Standard or New Star and give you the votes and you will win the New York City and Bermuda tour.

THEY HAVE TO take some paper, then why not try The Standard or New Star for six months or a year?

CANDIDATES VOTE STANDING District No. 1.

Table with 2 columns: Name and Votes. Includes Miss A. Beatrice Andrews (1779), Miss Sarah Craig (4017), Miss Louise Brown (522), Miss Maud Cowan (17196), etc.

HAGUE AWARD A COMPROMISE

United States Won Five of Seven Points Concerned—Great Britain Gains Point Affecting Canadian Waters

The Hague, Sept. 7.—The century-old fisheries dispute, the source of constant diplomatic friction between the governments of Great Britain, Canada, Newfoundland and the United States, was finally closed today with the award by the international court of arbitration largely in favor of the United States.

The American government is sustained on points two, three, four, six and seven of the total of seven points of which the issue was framed. Great Britain wins points one and five. Point five has been held by Great Britain as the most important of those submitted.

The fifth point was stated in the form of this question: "From where must be measured the three marine miles off any of the coasts, bays, creeks or harbors referred to in article one of the American-British treaty of 1818?"

United States fishermen claimed the right to take the measure from any part of the British North American shore, and therefore the liberty to fish in the middle of any Canadian bay or estuary having a radius of more than three miles.

The British contention was that the limits should be measured from an imaginary line connecting the head lands.

The peace court sustained the British contention, upon which Great Britain also was sustained, embodied the question of whether any local laws adopted by a British colony must be submitted for approval to any foreign power having a treaty on a similar subject with the imperial government.

This point was construed of great importance also to the British, and their triumph will be a matter of much satisfaction to them.

On the other hand the Americans win important concessions. By the decision they will be enabled to employ foreigners in their fishing and are not liable to lighthouse dues. They are not compelled to enter their vessels at the customs houses.

The words "bays, harbors and creeks," referring to Labrador, in the treaty of 1818, apply also to Newfoundland and American vessels when fishing do not lose their right of trading. The question of the right to make laws regulating the fisheries is laid in favor of Great Britain. The court also upheld the British contention in relation to large bays being territorial waters.

In connection with point one the United States has raised certain questions of equity which will be submitted to a special commission for determination.

SHERBROOKE POWER ON NOV. 1

Montreal, Sept. 7.—Mr. Frank Thompson, director of the Sherbrooke Railway and Power Company, who returned from Sherbrooke yesterday, said that the company was making good progress with their works at Sherbrooke. The new dam, some 40 feet high, being almost completed. The foundations of the power house are finished and in position for the present work, and it is hoped that the line will be in operation before the snow flies. Demands are coming in for power and the company expect that the requirements will be greater than they can probably supply.

CLOSING STOCK LETTER.

By direct private wires to J. C. MacKintosh & Co. New York Sept. 7.—Notwithstanding the gloomy predictions of professional traders with regard to the effect of yesterday's action in certain states, the stock market, after a show of weakness early, manifested the utmost indifference to such results. There were fits of activity throughout the session occasioned by concerted professional operations but final prices showed but fractional changes from last night's closing level and the action of the market as a whole indicated rather decidedly that anticipated developments had been anticipated and discounted. A break in American Hide and Leather stocks, following the open faced manipulation of the past week, occasioned no surprise when the annual report was published showing a heavy decrease in profits for the year and a good sized deficit after the payment of bond interest. This decline had little effect upon the market as a whole. All things considered the market seems susceptible to good rather than

bad news while political developments will perhaps continue to repress investment interest or any important speculation for the time, it seems fair to assume that there will be no further liquidation of importance till prices are forced to a much lower figure in which event an investment demand is almost sure to be created.

LIDLAW & CO. CLOSING COTTON LETTER.

By direct private wires to J. C. MacKintosh & Co. New York Sept. 7.—Net change of prices were unimportant in today's cotton market an early break of fifteen points being followed by a gradual restoration of last night's level. The recovery was considered as a logical reaction after a break of about \$3 per bale. Speculative short covering, based upon the expectation of an upward reaction accounted for the greater part of the strength. This buying was accelerated somewhat by bullish predictions regarding tomorrow's government report of the amount of cotton ginned to Sept. 1. The weekly weather report also was construed to be bullish indicating a continuance of high temperatures throughout Texas and Oklahoma. The bull clique however, apparently has its hands full to dispose of their enormous holdings of spot article and at the same time to finance tenders of September contracts both here and at Liverpool. It is understood that 40,000 bales were tendered in the latter market today. A prominent member of the local bull faction hailed for Liverpool today. It is generally believed that this factor is heavily long of Sept. on the foreign market.

JUDSON & CO. A Saving Scheme.

"Co-education is a good thing. The boy gets his study and his courting finished simultaneously and is then ready for work."

"Just so. While the girl can save dad lots of money by marrying her graduation gown."

J. W. Smith, Hampton, N. B.

COONGO ROOFING

Coongo Roofing is a strictly high grade ready roofing. Experiences and tests show that neither weather nor climate has any effect whatever upon it, and consequently Coongo Roofing is almost indefinitely.

It is easy to lay. No special tools or skill required. Coongo can be used on any kind of roof. If your old roof needs attention, put Coongo right on over the old roof and make it serviceable for many more years. To further substantiate our claims for Coongo we will be glad to send Sample Free upon request.
