Francis Kerr, Who Represented New Brunswick Grand Lodge L. O. L. Which Met in Calgary, Tells of His Visit—The Officers Elected

Talking with Francis Kerr who represented New Brunswick at the Grand Lodge, L. O. L. which met in Calgary recently. Mr. Kerr stated that he was much impressed with the West and greatly struck with the splendid system which obtains in the cities. Referring to the convention, he gave the list of elected officers as follows:

- H. C. Hookin, M. P. F., Toronto—G. M. (re-elected)
W. McPherson—D. G. M.
William Lee—Grand Secretary.
Joseph Thompson, M. P. F., Toronto—Grand Treasurer
Rev. Ward Wake—Grand Chaplain.
E. G. Armstrong, Saskatchewan—Grand Lecturer.
Francis Kerr—Deputy Grand Lecturer for the Province of New Brunswick.

A wonderful banquet was given for the delegates at the Grand L. O. L. A. of British North America met at the same time in the same building. Mrs. G. O. Akersley of St. John, who is Grand Mistress of British North America, and Miss Josie Woodland of St. John, Deputy Grand Mistress of the N. B. Provincial Lodge, were attending the L. O. L. A. Convention. The guests were taken for a drive about the city and out to the beautiful George's Island Park where photographs were taken of the visitors and their hosts.

Another fine banquet was held at Paizter Hotel. At one of these entertainments held in the Sandstone Building, and given by the L. O. L. A. of Calgary, many inquiries regarding the New Brunswick Provincial Memorial Home for Children were made and both Mrs. Akersley and Francis Kerr were asked to speak on the subject. Those present were so interested in the accounts given of what is being accomplished that they made a collection that evening, and gave \$42.25 from the gathering present.

Questioned concerning the L. O. L. A., Mr. Kerr stated it was gratifying to know that two of the officers are held by St. John ladies, Mrs. G. O. Akersley being re-elected Grand Mistress of British North America, and Miss Josie Woodland, Grand Director of Ceremonies. Mrs. D. Alton of Edmonton was elected Deputy Grand Mistress.

While in Calgary, Mrs. Akersley organized a Provincial Grand Lodge, L. O. L. A. for Alberta, Mrs. D. Alton of Edmonton, having the honor of being elected the first Grand Mistress of the Provincial Grand Lodge of Alberta.

Mrs. Akersley returned to St. John yesterday.

MUCH BUSINESS TRANSACTED AT NATIONAL COUNCIL YESTERDAY

(Continued from Page 3.) department but the settlement remained with the West. In this connection she wished to say that so far there has been perfect cooperation. She made a plea for most patience with the women immigrants saying that their future depends absolutely on the way Canadian women received them. Having no women as officials at the ports in England had been a drawback in the past but as a result of insistent demands this was to be remedied. The shipping people had also arranged to have matrons on the boats and henceforth there would be conducting officers on board states from the different parts of this country.

Mon. W. F. Roberts. In introducing Dr. Roberts, the next speaker, Mrs. Smith said he was "unique" in that he had served from the time of taking office till the present month without salary.

Dr. Roberts, in opening, expressed his appreciation of the privilege conferred upon him of addressing such a representative and influential audience. He said that he had been following the proceedings of the Council with great interest and had been deeply impressed by the multiplicity and nature of the subjects for discussion. In remarking that the Council has been called the Women's Parliament he said that the Dominion Parliament would do well to incorporate and put into the statute books a few of the topics of the agenda of the Council. The solution of the unrest and chaotic conditions existing at present might be then obtained.

Child welfare, the speaker said, is one of the most important services of public health because it has incorporated within its realm practically every other service of public health such as pre-natal care, care of the newly-born infant, the child in the pre-school age, the mentally ill child, etc. In referring to Mental Hygiene he paid a tribute to Dr. Helen McMurchie, of Toronto, who had done such good work in this regard. He also made mention of Mrs. David McAllister, of this city, who had been one of the first in the province to interest herself in mental hygiene.

Dr. Roberts then read a paper he had given in Toronto last year on "Reconstruction of the Adolescent Period of the Canadian Girl." He felt that if its tenets were applied to our educational system it would be a good step forward in solving the problem of child welfare. The paper also offers some valuable suggestions along lines of public health.

At the conclusion of Dr. Roberts' address, Mrs. Smith said that he had kindly had printed 200 copies of the paper, and they would be available to members of the Council.

Dr. Helen McMurchie.

In introducing Dr. McMurchie, the chairman said that she had been associated for years with problems dealing with the mentally deficient, and enjoyed an international as well as a national reputation. Dr. McMurchie, in opening, said that she always looked forward to her visits to New Brunswick. She knew something about its history and its debt Canada owed to this little province. She was in the Maritime Province at present in response to an invitation from Trinity College, and was going home to visit "the Island."

Among the important departments of the lately organized Ministry of Health was the Department of Child Welfare. That department belongs to the woman.

The work is just beginning. She hoped that the women would take advantage of the invitation offered and send advice. It was her hope that she would receive many letters from St. John giving information and advice. No postage was required, and the letters should be addressed as follows: "Dr. Helen McMurchie, Department of Health, Ottawa."

There is no national question more urgent, said Dr. McMurchie, than this question of child welfare. We were rapidly becoming a homeless nation. The apartment houses are increasing rapidly, while the number of homes are decreasing year by year. It is more than time we bent our earnest efforts to find a cure.

In connection with mental hygiene great advances have been made and the whole status has been raised. The art of the British Parliament in writing the functions of the care of mental defectives and mentally diseased has also been a great advance. Mental diseases can now be prevented, the doctor said, and the mentally diseased can be cured if they only come in time.

Dr. McMurchie concluded with a plea for all to interest themselves in the problems of child welfare, saying that the care of the coming generation should be our biggest business and the measure of our success, because it means the most to the nation we love.

At the conclusion of Dr. McMurchie's address, Mrs. W. E. Sandford, president of the National Council, warmly expressed her appreciation of the entertainment provided by the St. John Council and paid a graceful tribute to Mrs. E. Atherton Smith and Mrs. David McAllister.

RACE WAR BREAKS OUT IN CHICAGO

Three Are Dead and Several Wounded as a Result of Riot in "Black Belt."

Chicago, June 21.—Two white men and a negro policeman were killed and several negroes were wounded last night in a riot in the heart of the South Side "black belt," following the reported burning of an American flag by a band of negroes who were said to have paraded in the interests of a "back to Africa" movement. Joseph Hoyt's head was split across the brow, leading the police at first to believe he had been killed from an axe. Later investigation, however, brought the conclusion that his skull had been crushed by a dum dum bullet. Joseph P. Owens, a negro policeman, was taken to a hospital, where he died soon afterward.

The trouble occurred at Thirty-fifth and Indiana avenue, near the scene of last year's race riot in which more than thirty whites and blacks were killed and hundreds injured. Several hundred policemen were rushed to the district and succeeded in restoring order before the disturbance spread. More than a thousand negroes gathered, but no general riot occurred. Several negroes who witnessed the flag-burning ran to a pool room at Thirty-third street and Indiana avenue and asked aid of persons in the place in preventing the act.

Those who were in the pool room, and a number of other negroes, proceeded toward the gathering of blacks. They were joined by Policemen Owens, who attempted to arrest one of the group.

Owens started to search the man for the weapon when other negroes in the crowd were reported to have drawn pistols. According to the statements of spectators, the parading negroes disarmed and gathered in a circle around an American flag, which they set on fire. After it had burned a little they revolvers and began firing at it.

CHILE PUTS ONE OVER ON HER NEIGHBOR

Purchase of Battleships from Britain Move to End Tacna-Arica Dispute With Peru.

SETTLEMENT EXPECTED TO COME WITHIN YEAR

Believed Bolivia Will Eventually Get the Port of Arica.

Buenos Aires, June 21.—(Associated Press).—Purchase by Chile of the British dreadnoughts Canada and two British destroyers is regarded by diplomatic circles here as an indication that events are moving swiftly toward a definite conclusion of the Tacna-Arica controversy between Chile and Peru. This dispute has long threatened the peace of South America. It is estimated that such an increase in Chile's naval power must have an important bearing on the settlement of the international dispute for the possession of the port of Arica, now held by Chile but claimed by both Peru and Bolivia.

While Chile's naval forces already exceed those of Peru, it is pointed out that the acquisition at this time of three fighting ships would constitute a powerful argument to enforce a settlement of the differences between the two nations over the title to the two Pacific provinces. Peru's seaports, naturally, would be at the mercy of Chile in any resort to arms.

Purchase of the vessels at this time is believed in some quarters to be especially significant in view of a widespread opinion that the Tacna-Arica dispute will reach a definite crisis within a year. Well informed observers say Peru will likely seek a settlement of the question before the League of Nations, of which she is a member. She is unable to reach an agreement with Chile on the long-delayed plebiscite which was to determine the sovereignty of the provinces, and the opinion is held here that she can expect no arbitral aid from the United States owing to the fact that the American Government in a recent note to Chile accepted a policy of "non-intervention" in the Tacna and Arica case.

Chile, on the other hand, will resist interference by the League of Nations. It is believed, having unequivocally made her position clear in a reply to a note of the United States, saying that she will not accept intervention "from any power or powers." Chile's position is that under the terms of the treaty of Ancon, her rights are so clear that there is nothing to arbitrate.

Consequently, it is predicted that Chile will hasten the dispute to a conclusion before it reaches the stage of consideration by the League of Nations, with the idea of presenting the issue with an accomplished fact. This "accomplished fact," it is asserted, would be the cession to Bolivia of the port of Arica in return, presumably, for certain compensations. Whatever may be the official attitude of the Chilean government and notwithstanding its repudiation of the Peruvian charges that it has invaded Bolivia against Peru, it is a well known fact in South America that Chile's publicist statements are entirely in sympathy with Bolivian aspirations for an outlet to the Pacific. It is not regarded as strange, therefore, that predictions are heard that when the Tacna-Arica controversy comes to a crisis, it will be seen that Chile is supporting Bolivia's claim.
