GREAT LUMBER MERCHANT DEAD AT AGE OF 84

HON. MR. PUGSLEY WILL PRACTICE LAW IN ST. JOHN

David Jardine, J. P., Was a Native of Kent County—Passed Away in Liverpool, England, Saturday Morning—A Great Career.

David Jardine, J. P., of the big lumber firm of Farnsworth & Jardine, and a native of Kent county, died at Liverpool Saturday morning at the age of 84. Mr. Jardine went to England when a mere youth and by his industry and ability succeeded in winning a high place in the business and social life of Liverpool. He first entered the employ of the shipping firm of Dempsy, Frost & Co., and after learning English business methods, formed a partnership with the chief clerk of the firm, Mr. Farnsworth, and the house of Farnsworth & Jardine became a well known firm in Liverpool. He won their way steadily and for many years have been well known as the leading house in the lumber trade of the old world and have had very close connections with the lumber shipping houses of this country and at the present day control the immense properties of the Alex. Gibson Railway Co. Mr. Jardine was a member of the firm of Keenan & Co., East India merchants, but had retired from active work. Dr. Murray McLaren, J. S. McLaren and the Messrs. McLaren are nephews and nieces, and George and Struan Robertson are nephews.

Mr. Jardine filled a very big and very important place, not only in the business life of Liverpool, but in its social life as well. He was long chairman of the Clyde trust which manages all the great dock and harbor works of that great world port and was connected with many of the big commercial and industrial enterprises of the city. Something of the place he filled in this community is disclosed in the following brief article which appeared on April 13, 1901, in the Traveller on the occasion of his appointment to the position of chairman of the Curd line of steamships:

Mr. David Jardine, J. P., the new chairman of the Curd line, is one of the best known and most highly respected figures in Liverpool shipping and commercial circles, and the important part he plays in commerce in Liverpool stamps him as a man peculiarly fitted with administrative ability in business matters. Mr. Jardine was long a member of the Messrs. Decker and Harbor Board, and held for some years the position of chairman of its finance committee. What this means will be better understood when it is explained that, roughly speaking, the Messrs. Decker estate has been constructed at a capital cost of well over £20,000,000, and that something like £700,000 is paid away annually in interest charges alone. Clearly, therefore, the responsibility attached to the position as chairman of the finance committee of this, the greatest of the world's dock trusts, makes the office no sinecure.

Mr. Jardine has been for many years a director of the Curd line, and his appointment to the chairmanship, on the death of Lord Inverclyde, has given universal satisfaction. Almost from the first he has been chief of the directors in Liverpool, and his devotion to this great undertaking has been unremitting, his watch over its interests unswerving.

The representation of the senate is to be increased. Wm. tomsy bills were passed in 1910 the provinces of Alberta, Saskatchewan, it was provided that five shall be represented in by four members provided the representation may, after the next decennial census, be to time increased to six by a majority.

At the same time if the pastors of our Canadian churches would be so good as to give these unemphatic preachers and give their congregations hour sermons every Sunday, there will certainly be trouble."
