sidered; but I find that there: are plenty of Russians among that party-which has been the chief support of the present Emperor in his reforming policy who would be only too glad to see the Polish Constitution of 1815 restored, and who are not opposed even to the re-establishment of the kingdom of Poland—though not the Poland of 1772.

Province after province have been successively detached from the so-called Russian "Kingdom of Poland," incorporated, with the Empire, and

thoroughly Russianized.
The practice of the Catholic religion protected by conventions solemnly sworn to and ratified, with the concurrence, and placed under the sanction of all the powers of Europe—was loaded with penalties and hampered by all manner of restitions. Every reward and honor has been held out to apostacy; ignorance and stupidity - just as among ourselveswere paraded as enlightenment when their fortunate possessor was a "convert from the Church of Rome." Whole districts were suddenly transformed from Catholic to Russian schismatic by an autocratic decree from Petersburg. If any one demurred, he was immediately provided with a travelling order for Siberia. Voluntary perversion on a large scale was stimulated by wholesome examples, sufficient one would think, to terrify even an empire for a generation. Now it was a Convent of Monks, who were first knowled and then sent off to dig for diamonds amid the eternal snows of the Altai. By-and-bye, it is a House of Nuns who are stripped naked, hung up, and flogged by soldiers—are treated with indignities the bare thought of which would make the most callous man blush, and then marched through the country manacled and fettered. Or, if the air of a hamlet, district, or province was supposed to be tainted by the foul missm of patriotism, no decimation or other discriminating remedy was decreed— the whole region was doomed. A levy en masse sent the able-bodied men to the defiles of the Caucasus, there to enforce upon Circassians that Russianising process, which they had themselves so badly appreciated at home; while the upper classes and the educated youth were borne some three thousand miles away to the frozen banks of the Lena, there to meditate, amidst solitude and death, on the irresistible might of the Czar .- Corr of Tablet.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these Phils are found to cure many varieties of disease. eties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

As a Family Physic.

From Dr. E. W. Cartwright, of New Orleans.

'Your Pills are the prince of purges. Their excellent qualities surpass any cathactic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of them.

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious computants than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPERSIA - INDIGESTION. DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary needleine. So peculiarly are they adapted to the disease of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHEA — RELAX.

From Dr. J. G. Gren, of Chicago.

"Your Plus have had a long trial in my practice, and I hold them in esteem as one of the best aportonts I have over found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilines dysentery and diarrhaa. Their sugnicionating makes them very acceptable and convenient for the use of women and children.

INTERNAL OBSTRUCTION-WORMS-Suppression. From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your PHLE, faken at the proper time, are excellent promotives of the natural secre-tion when wholly or partially suppressed, and also very of-ferred to cleanes the stougch and expel worms. They are so much the best physic we have that I recommend no ther to my patients." "I find one or two large closes of your Pirra taken at the

CONSTIPATION - COSTIVENESS.

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Yangha, Montreal, Cauada.

"Too much cannot be said of your PILIS for the cure of cativeness. If others of our traternity have found them as officacions as I have, they should John me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, sithough had enough in itself, is the pregentior of others that are worse. I believe costiveness to originate in the liver, but your PILIS affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERY-SIPBLAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

- Rieumatism - Gour - Neulaligia.

"You were right, Bester in saying that your Phils parify the blood. They do that, i have used them of late years in my practice, and agree with your rhiements of their officacy. They stimulate the exerctories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE-SICK HEADACHE-FOUL STOM--PILES-DROPSY-PLETHORA-PARALYSIS -F178 - &c.

FITS—&C.

From Dr. Edward Boyd, Baltimore.

"Dran Dn. Ayra: I cannot answer you what complaints I have coved with your Plans better than to say all that we can beat with a paraphic medicine. I place great dependence on an effectual catacrite in any daily contest with discuss, and believing as I do that your Plans afford as the best we have, I of course value them highly."

Most of the Pills in market contain Mercury, which, although a valuable remedy to skilful hands, is dangerous in a public pill, from the erealful consequences that froquently follow its incentious use. These contain no moreury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every camee of it under his own eye, with invariable accuracy and one. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for Couons, Coins, Hadrenses, Astima, Chour, Whodping Coron, Banceutts, Inchemist Consumption, and for the relief of consumptive patients in advanced stages of the discuss. As thus makes these facts wider and better the disease. As time makes these facts wider and better the discase. As time makes these facts wider and better known, this medicine has gradually betome the best reliance of the abilisted from the log cable of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, Cherry Perrona is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what tren of every station certify it has done for them; if we can trust our own senses when we see the danence on what nen of overy station certify it has done for them; if we can trust our own senses when we see the dan-gerous affectious of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this modicine does cure the class of diseases it is designed for, beyond any sud all other remedies known to mankind. Nothing but its in-trinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inforior remedies have been thrust upon the community, have falled, and been been thrust upon the community, have falled, and been disearded, this has guined friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and romarkable to be forgotten.
