# NOTES

## Bat bombs over Japan

(ZNS/CUP) — Army documents show during the early days of World War II, the United States planned to drop millions of live bats over Japan, each carrying a small incendiary bomb, timed to explode after the bats found shelter.

The idea came from a Pennsylvania surgeon, and the Army took it seriously enough to spend two million dollars capturing bats, developing a one-ounce bomb and testing the program in New Mexico.

But they gave up in 1943, after they came up with something more effective — the atom bomb.

## Turkey dinners studied

VANCOUVER (CUP) — Cranberry researchers at the University of British Columbia once again are safe from the ravages of inflation, 18 per cent faculty wage increases, and other day-to-day concerns researchers are supposed to worry about.

A juicy new \$3,000 scholarship for research into pomology is currently before the senate awards committee waiting for approval. The lucky researcher will be given the money for research into the "better understanding of the cranberry plant," if the award is approved.

Pomology researchers have the taste of victory within their tastebuds after allegedly developing a test to discover whether cranberry sauce tastes the same on turkeys at different times during the year.

Senate members would not comment on the political consequences of combining a pomology and poultry scholarship, saying only the possibilities are endless.

## Thoreau wanted Buick?

(ZNS/CUP) — American philosopher Henry Thoreau has become immortal. But it wasn't his writing, it's a computer mailing list that did it.

More than 100 years after his death, Thoreau is getting stacks of junk mail, all addressed to a Concord, Massachusetts learning center named for him.

And some of it might just have lured Thoreau away from Walden Pond: this year he's been offered a Buick Skylark, American Express card, and an entry in the Reader's Digest sweepstakes, which promises the chance "to treat the entire Thoreau family to some pretty fancy luxuries."

**Civil, Mechanical and Electrical  
engineering grads:  
Let's talk about your future.**

**Who we are.** We are Canada's third-largest electrical utility, generating, transmitting and distributing electricity across British Columbia. We also operate Canada's third-largest natural gas distribution system, and run a modern industrial railway.

We're one of the biggest companies in Canada and a provincial Crown Corporation of 9,500 people committed to providing efficient energy to British Columbians—today, and far into tomorrow.

**We need** engineering graduates interested in the challenging environment of energy resource development and management.

**We offer** a stimulating work environment with some of the best professionals in the business. And exposure to high-technology solutions for moving energy over vast distances and rugged terrain.

**You receive** excellent training and the opportunity to determine your own career path. You'll also get competitive salaries and a benefit package that includes 17 days off each year in addition to three weeks annual vacation, plus the recreational and lifestyle opportunities of Vancouver and other fabulous regions of British Columbia.

**Interested?** Our recruiters will be on your campus in October to talk with you and receive applications. Watch for dates on your bulletin boards or check with your student representative. Personal interviews will be scheduled for sometime in November.

Let's talk about your future

# CAREERS

## Public Service Canada

We are recruiting university graduates for a substantial number of anticipated vacancies, in various career areas, in 1982.

For more information, ask for your copy of the *Careers Public Service Canada* book and special program booklets at your campus placement office or at the nearest office of the Public Service Commission of Canada.

Closing date of competition 82-4000 (General):  
Wednesday, 14 October 1981

Candidates applying for positions in the Financial Administration area will be required to write the Financial Administration Test of Technical Knowledge, on Thursday, 15 October 1981 at 7 p.m.

### Foreign Service Officer Recruitment Competition

An information/application kit for this competition is available at your campus placement office.

Closing date for competition 82-4000-FS (Foreign Service):  
Saturday, 17 October 1981

Date of Foreign Service Examination:  
9 a.m., Saturday, 17 October 1981

Ask your placement office for the location of the exam centre nearest you, for the above-mentioned examinations.
