May 1944 (3)

F 9194 Gen Douglas A.T. R.C.A. - F.C.D. S.I.G.H., being
being over, states:

On 15 Aug. at approx 1330 hrs I left the car park
across of St Robin & Gen Macdonald & another
side soldier. We proceeded to Green station, then
turned & came back. But Green & soldiers
there was a coal lorry ahead of us & we were about
to run into it. ~~and I noticed a wife coming~~
towards us. ~~as we were side of side of the~~
coal lorry, one car seemed to be out of control, as
one car left wheel was even his front right
wheel. The coal lorry proceeded into the side
of a fence & struck a tree. One car struck a lamp
post on its right front side.

cross Green - The reason for taking the soldier
to Green station was that he told us he had
just enough fare to go from Green to Brighton.
~~lighter~~ In my opinion it was the approval of the wife
that caused the accident.
The lorry was side of side when I saw the
wife approaching. The Austin was travelling
at about 30-40 P.H. at the moment.

A.P. 83 B. complied with.
