les miracles de guérison qui, jusque-là, s'opéraient d'ordinaire devant l'image de la Vierge, se produisent aujourd'hui plus fréquemment dans les solennités en l'honneur de l'auguste Sacrement."

"Il y a plus.

"On a même espéré un moment", lisons-nous dans la "Revue Mariale" de juillet dernier, "que le Congrès de Lourdes verrait la consécration du genre humain au Saint Coeur de Marie, pour laquelle, depuis de longues années déjà, de nombreuses requêtes ont été présentées au Saint-Siège. Le Pape, dans sa haute sagesse, a jugé plus convenable de réserver ce grand acte pour quelque solennité purement mariale...

"Des renseignements puisés à bonne source", termine le Père Lintello, S. J., "nous permettent d'espérer que l'année 1914 ne s'achèvera pas sans que soit faite, par le Pape, cette consécration du genre humain au Saint Coeur de Marie".

Hélas ! "l'homme propose et Dieu dispose !..."
