

Nova Scotia Water Power

As a result of investigations carried on by the Nova Scotia authorities in co-operation with the Dominion Water Power Branch, Interior Department, Ottawa, revealing water power assets of considerable magnitude, The Nova Scotia Power Commission was organized under comprehensive legislation, to undertake the development of certain of these powers.

The first undertaking of the Commission is that of St. Margaret's Bay, of which a view is shown herewith, where 8,000 H.P. is now being installed, which will later be increased to 12,000 H.P. as a start to provide Halifax with an adequate supply of Hydro-Electric energy.
