## JUST WHAT EVERY FARMER WANTS! A LOW DOWN WAGON

With Regular Height Wheels. We are the first in Canada to introduce

**HOLLEY'S PATENT STEEL DROP AXLE FARM WAGON**

This has become immensely popular in the United States, where it was first invented and patented. We mention only a few of its many good features:

The front wheels are so attached to the axles as to prevent any whipping or slatting of the pole when wheels pass over obstructions. By the same arrangement the wagon may be turned in a very short space.

It can be used with or without a box, and, by lengthening the gear, it is well adapted for hauling lumber, poles, long timber, etc.

THE MOST IMPORTANT FEATURE is that the Body of WAGON is HUNG LOW, being only 15 inches from the ground. It will be apparent to all that this makes it the most perfect and convenient wagon for Farmers and Teamsters ever before introduced, especially when loading heavy material. Please examine these wagons in our exhibit at the principal fairs.

Rips and tears corn stalks into a soft, spongy feed, making it easily masticated, and thus avoiding the sharp edges so hurtful to the mouths of stock. Just the machine for filling silos. Send for testimonials. Also manufacturer and patentee of the Famous Watford Riding Plows.

## Freeman's FERTILIZER FALL WHEAT.

**JONAS GROBB, Beamsville:** "Used your 'Sure Growth' Fertilizer on fall wheat the past two years, at the rate of about 30 lbs. per acre, sown with drill. Left strips through the field without fertilizer, and it looked like a road through the piece, the grain and straw being much better where it was used than where it was not. Would recommend from 40 to 500 pounds per acre for best results."
