G. W. CLEMONS, St. George, Ont,

Cooper Sheep Dip.—A few weeks after shearing do not neglect to dip both the sheep and lambs in one of the reputable dips. The practice of dipping is most general where sheep raising is longest established, a fact which proves its benefits. The Cooper Sheep Dip has a world-wide record of sixty years standing, and it is used on no less than 175,000,000 sheep every year. Its patrons concede that it effects its purpose without the least harm to the animal. It puts the flock in splendid condition, and has a decidedly beneficial influence on the growth of the fleece, increasing both the weight and marketable condition. Cooper Sheep Dip. - A few weeks

#### GOSSIP.

R. Gibson, Delaware, Ont., writes: "Shrop-shires are on the move. Have sold lambs to head flocks. Prices are sacred, but satisfactory,

Mr. Richard Gibson, Delaware, Ont., informs us that the carload of Shorthorns reported in our last issue as shipped by him to W. E. Cochrane, were for Reid Bros., of Cochrane.

At a combination auction sale of Hereford cattle, contributed by three breeders, held at Dexter Park, Chicago, June 20th, 43 animals brought an average of \$118.67 each, the highest price being \$300 for a 4-year-old cow. The highest price for a bull was \$200.

capt. T. E. Robson, Ilderton, Ont., has recently purchased from Mr. W. D. Flatt, Hamilton, the imported Shorthorn cow, Bella 3rd, by Martin (6407), a son of the Duthie bull, Star of Morning, and of Marietta, by the Royal champion, Mario, by Field Marshal. Bella 3rd is a large roan cow of fine finish, and has proved an extra good breeder. Her roan 3-months bull calf, a very promising youngster, by imp. Precious Stone (the bull sold for \$900 at Mr. Flatt's last sale), goes with her. Bella 3rd is the dam of the heifer calf, Belladonna, sold for \$10 to Mr. Cargill at Mr. Flatt's sale, and is sister to Bella, winner of first prize at the London (Eng.) dairy show last year, both in the milking test and by inspection.

"W. I. Howson of Wingham. (Int., has a Jer-

and by inspection.

"W. J. Howson, of Wingham, Ont., has a Jersey cow whose record is worth noting. She bears the name of 'Millie Reach,' and is registered No. 106735 in the American Jersey Cattle Club. During a week of seven days, from June 2nd to 8th, she gave 259 pounds of milk. This made eighteen pounds and ten ounces of butter, when weighed ready for the market. This was thirty-seven pounds of milk per day; fourteen pounds of the milk making one pound of butter. She had been milking sixty-one days; is four years old, and weighs 830 pounds. Mr. Howson says that she would have tested better, only that the circus camped near by, and during the excitement she dropped four pounds of milk a day. This shows the necessity of quiet for milch cows, if the best results are to be obtained. During the time mentioned, the Jersey was on pasture, and was fed 35 pounds of chopped oats and 35 pounds of bran in the seven days." — Wingham Advance.

Canadian sheep-breeders cannot well afford

Canadian sheep-breeders cannot well afford to miss the opportunity of making a show at the International Live Stock Exposition to be held at Chicago, Dec. 1 to 8. Although the cattlemen have evidently the weight of influence in the management of the show, and have ence in the management of the show, and have captured for this year the lion's share of the prize money, leaving rather a slim apportionment to the sheep department, yet the supplementary list of prizes offered by the various breeders' associations are liberal, and these, in addition to the offerings of the Show Association, make it possible for exhibitors to win a good share of money, while the opportunity of advertising where the breeders and ranchmen of the great Western States and Territories are wont to congregate will be such an occasion as has not for a long time opened, and will doubtless lead to much business for Canadian sheepmen who avail themselves of it. To make the ness lead to much business for Canadian sheep-men who avail themselves of it. To make the best of the occasion our breeders should hold their best stock and take in the Chicago show with their strongest contingents. It is impor-tant that Canada hold her place of pre-eminence as a sheep-breeding country on this western continent.

continent.

The combination auction sale of Shorthorn cattle, held at Indianapolis, Ind., June 6th, in which entries were made by 21 breeders, while fairly successful, compares not very favorably with the sales made by individual breeders in the United States in the last few months, and a prominent breeder who was interested in the sale gives it as his opinion that such sales are not likely to grow in favor, for the reason that "what is every body's business is nobody's business," and that the responsibility is not so definitely fixed and placed in this class of sales as where one man only is responsible, and he can carry out his own views of the best way of conducting a sale. In the case of the Indiancarry out his own views of the best way of conducting a sale. In the case of the Indianapolis sale, cash prizes were offered the highest priced animal, the two highest priced and the three highest priced animals from one contributor, all of which were won by J. G. Robbins & Sons, Horace, Ind. The highest price was \$750, for the roan 8 year-old cow Sunflower, by Gay Monarch: the second highest \$196, for Mamie Marshall, a red yearling, by Marshal Abbotsburn; and the average for 11 females, \$221.60. Thirteen bulls sold for an average of \$175.75, the highest price, \$500, being made for the red 4-year-old Cherub of Ashburn, by Britain Cup. The 54 head sold averaged \$212.40.

DISPERSAL SALE OF MR. W. TOOP'S REGISTERED SOUTHDOWN FLOCK.

Our readers will notice in our advertisement columns a notification that the above world renowned flock of Southdown sheep is to be dispersed without reserve, by auction, on Aug. 17th next. We need not call the attention of our Southdown breeders to the importance of our Southdown breeders to the importance of this sale, for it forms an opportunity to secure stock of the highest merit and quality that only occurs at very long intervals. The flock to be dispersed represents that which Mr. W. Toop and his noted shepherd, Jack, have with consummate knowledge and skill produced; its showyard record has been an unbroken line of success, and the results of the present year to date clearly show that its present numbers are fully equal to those which in previous years have been so exceptionally successful. At only one show up to date has the flock been exhibited during the present year, namely, at the Royal Counties Show at Winchester, when, in the strongest competition we shall see this year. Royal Counties Show at Winchester, when, in the strongest competition we shall seet his year, a yearling ram won first in a class of twenty-tive, beating the Pagham Harbor Co. and Mr. H. Penfold and C. R. W. Adeane. A two-shear ram took second-honors, a pen of yearling ewes came in for R. N., a pen of three ram lambs secured an easy first, one of three ewe lambs secured an easy first, one of the finest and best matshed pens seen out for a long while. This record shows what class of sheep are at present in the flock, and also proves that the present flock is of the highest possible merit and quality. Attend the sale or send your orders if you desire to secure some of the finest sheep of the day. sheep of the day.

## Ayrshires, Guernseys, Yorkshires and Shropshires are our leaders.
