

A Motorcycle Runabout for Two

## Indian Motorcycle With Side Car

All the touring pleasure, comfort and efficiency of an automobile at the cost of trolley fares. That's Indian Side Car-ing. A spin in a summer's evening. A week-end trip. A coast to coast tour. The Indian Side Car is a comfort vehicle serving your every desire.

This is the second year of the Indian Side Car. It is already as famous as the machine to which it is attached. Beauty of design—luxurious ease—strength with lightness—these things characterize an Indian Side Car pre-eminently.

Side car equipment doubles your motorcycling fun and utility at

only a small additional cost. When the possibilities of Side Car-ing are fully realized there won't be a motorcycle without its Side Car attachment.

There is no other motor-vehicle in the world providing so much comfort, healthful delight and recreational opportunities for so little cost.

The superior features of the Indian Side Car are fully set forth in a booklet just issued especially covering this one subject. There's a lot of brand new stuff in the book that's mighty well worth looking at. Write for a copy today.

**HENDEE MANUFACTURING CO., 10 Mercer Street, Toronto**  
Main Office and Factory, Springfield, Mass., U. S. A.  
(Largest Motorcycle Manufacturers in the World)

**THE SAMSON TRADE MARK**  
on roofing is your assurance of efficient protection against the elements—against fire—and against extravagance of first-cost or of up-keep.

## SAMSON ROOFING

is made to give satisfactory service—not to meet a price. The materials that are used are such as will insure its quality and the skill of Samson workers combines them in the best manner.

The Samson Trade Mark on roofing means a roofing good enough to live up to the guarantee behind it.

There is a book about Samson Roofing—"The Roofing of Farm Buildings"—that will help you solve roofing questions—write for it.

## Saves Money Saves Labor Saves Time

**THESE** are three strong reasons why it pays to use Bishopric Wall Board and Sheathing.

"Bishopric" makes for a warm house in winter and for coolness in summer. As a substitute for lumber sheathing, Bishopric Sheathing Board will give the very best results. Nail to the outside studding of your building, with lath side exposed, then nail on weather board. This affords double protection and gives insulation between sheathing and siding.

"Bishopric" is strong, rigid and impervious to all weather conditions.

If your dealer does not handle our product we will gladly send you samples and a booklet showing houses built of our materials—together with full details as to cost delivered at your home.
