MADES will be found remarkably

ishing Goods, in SHIRTS, COLLARS, am Cunningham EATING AS AN ART. COL

The good effects, moral and social, of a good dinner-not the least among the great and lasting triumphs of a civilized life-have been too often established to need any further evidence. What frantic enmities have been rung out, what everlasting friendships rung in, by that tocsin of the soul, the dinner bell! A suitably-served repast can remove prejudice and abate pride; it can reconcile misunderstandings and discover amiability. Will not a steaming turkey turn away strife, and meditations of evil vanish before a Christmas plum-pudding? Nay, resentment ere this has beat a retreat before a humble Welsh rarebit; and a horrid feud, which not even the family solicitor could disperse, has melted like a morning mist in sunrise at the approach of a goose at Michaelmas.

There is a phrase attributed to Voltaire-to whom, having written much, much is attributed—that the fate of nations often depends upon the digestion of a minister. A slight variation in a carte de jour, like a variation in the length of Cleopatra's nose, might have altered the circumstances of a world. The decisive battles of Borrodino and Leipsic were lost to Napoleon by a fit of dyspensia. How certainly, then, does it become a man's bounden duty to meditate on few matters so seriously as on his meals!

NUTMEGS.

Nutmegs grow on trees which look like pear trees, and are generally over twenty feet high. The flowers are very much like the lily of the valley. They are pale yellow and very fragrant. The nutmeg is the seed of the fruit, and mace is the thin covering over this seed. The fruit is about as large as a peach. When ripe it breaks open and shows the little nut inside. The trees grow on the islands of Asia, and in tropical America. They bear fruit for seventy or eighty years, having ripe fruit upon them at all seasons. A fine tree in Jamaica has over four thousand nutmegs on it yearly. The Dutch used to have all the nutmeg trade, as they owned the Banda Islands, and conquered all the other traders, and destroyed the trees. To keep the price up, they once burned three piles of nutmegs, each of which was as large as a church. Nature did not sympathize with such meanness. The nutmeg pigeon, found in all the Indian islands, did for the world what the Dutch had determined should not be done, carried these nuts, which are their food, into all the surrounding countries, and trees grew again, and the world has the benefit .- The Watchman.

- THE MEDICINE OF SUNSHINE. - The world wants more sunshine in its disposition, in its business, in its charities, in its theology. For 10,000 of the aches and pains, and irritations of men and women we recommend sunshine. It soothes better than morphine. It stimulates better than champagne. It is the best plaster for a wound. The good Samaritan poured cut into the fallen traveler's gash more of this than of oil. Florence Nightingale used it on the Crimean battlefields. Take it into all the alleys, on board all the ships, by all the sick-beds. Not a vial full, not a cup full, but a soul full. It is good for spleen, for liver complaint, for neuralgia, for rheumatism, for falling fortunes, for melancholy.

When persons are feverish and thirsty beyond what is natural, one of the best "coolers," internal or external, is to take a lemon, cut on the top, aprinkle over it some leaf sugar, working it downward into the lemon, and then suck it slowly, squeezing the lemon and adding sugar as the acidity increases. Invalids with feverishness may take two or three lemons a day in this manner with the most marked benefit manifested by a sense of coolness, comfort and invigoration. A lemon or substitute for the ordinary supper, will give many a man a comfortable night's sleep and an awakening of rest and invigoration, with an appetite for breakfast, to which they would otherwise have been strangers.

CAUSING PLANTS TO FLOWER OR FRUIT.—There is a principal governing certain stages of a plant's life which ought to be more generally known. It partakes in fact in the nature of an axiom : " Anything done to a plant to check its growth or threaten its life will throw it into flower or fruit." Of course, this has reference to plants of a sufficient hardness of tissue to be able to produce fruit, but which obstinately refuse to do so. Expert gardeners and fruit growers employ this principle to much profit: in fact, so strong is its influence that some plants may be thus forced prematurely. For instance, a fruit tree is of ample age, but does not bear. If we go around the tree with a sharp spade and insert it perpendicularly down among the roots, about a foot to eighteen inches from the trunk, we shall cut off all the small roots in the way, and the next season it will show fruit. If, in addition, we dig a trench around the tree, say eighteen inches deep, and fill it with soil or some well-rotted old manure, which must be made very fine, we shall check the tree and fruit, and also nourish it for succeeding crops, thus keeping up its newly made vigor. Flowering bushes of most kinds may be similarly treated.

A circus never runs too long for spectators, but let a sermon run over forty minutes and a congregation can't sit still. Detroit Free Press.

READ THE FOLLOWING.

OTTAWA, ONT., March 2, 1880, The writer has been selling Perry Davis 'Pan-Killer now for the last 22 years, and can confidently recommend it to the public as a sure remedy for Cholera, Diarrheza, Sore Throat, Chronic Coughs, Bronchitis, Burns, Scalds, &c. Have known it to cure a case of Syphilitic Sore Throat of two years' standing, when all the usual remedies failed. The patient took half a teaspoonful in water three times a day, and gargled the throat three times a day as follows: one teaspoonful in a wine glass of water, and used as a gargle. Yours, H. F. MACCARTHY.

Hint No. 2.

Ask your Druggist, Grocer or Shopkeeper, for a bottle of PAIN-KILLER. If he passes it down without ceremony, ask him while extracting the quarter dollar from your wallet.

Maittand, Ont., February 26, 1880.

I have much pleasure in adding to the number of the numerous testimonials you have already received, as to the value of your renowned Pain-Killer. I have sold it and used it in my family for twenty years or more, and have no hesitation in saying that it it is the best patent medicine I have ever used for the purposes for which it is recommended; and, moreover, every person to whom I have ever sold it, has been perfectly satisfied with it, and I know many persons who will not go to bed at night unless they are sure there is a bottle of "Perry Davis" in the house. All who have used it once, will use it again; it makes friends and retains them. MAITLAND, ONT., February 26, 1880.

Yours truly, JOHN DUMBRILLE, Druggist. SPENCERVILLE, ONT., February 26, 1880.

if this is the genuine made by PERRY DAVIS & SON, at same We have much pleasure in certifying that we have kept Perry Davis' Pain-Killer constantly in stock for upwards of twenty years, during which time it has taken the lead in sales over all other patent preparations, and has become an old, reliable family medicine.

No effort is required now on our part to sell it, as it is as staple an article as flour in our trade.

Yours truly, time watch the expression on his face. You can easily tell if his conscience is all right; also examine the bottle closely W. P. IMRIE & CO.

MADOC, ONT., February 16, 1880. It gives me much pleasure to state that during a drug career of more than a quarter century, I can testify that your justly celebrated Pain-Killer has not only held its own as a family medicine, but still occupies the front rank wherever duty calls it. My customers speak very highly of it, and I could send no end of testimonials showing up its merits and intrinsic worth, were it necessary, which it is not. It should, however, be called "Excelsior Pain-Killer." I pride myself in never being out of it.

Yours very respectfully, JOHN G. DEANS.

STOCO, ONT., February 17, 1830. We have great pleasure to state that the Pain-Killer holds its position in this place as the old, reliable family medicine. Although there are a great many other remedies in the market—some bearing nearly the same name—as Pain Relief, Pain Remover, Pain Destroyer, and such like names, we find the people know the difference, and are sure to ask for Perry Davis' Pain-Killer. We have been selling Pain-Killer for the last fourteen years. When you ask for a bottle of PAIN-KILLER, and the gentlemanly store-keeper, without scarcely looking, remarks, "we "are just out, but have another "article as good or better, "which sells for the same price "viz, 25 cents." Turn on your heel and say, Good-bye, Sir / P. & P. MURPHY. Yours truly

PORTLAND, ONT., March 9, 1880. I have been using the Pain-Killer for many years with results that justly entitles me to recommend it. As a family medicine, we consider it almost indispensable; being good not only as a pain-killer, but for colds and sore throat, and many other ailments for which it appears specially adapted. I have used it myself, chiefly as a limment, and find it valuable for rheumatism and pains and stiffness belonging to old age. I pronounce the Pain-Killer a good and cheap medicine, and worthy of all acceptation, and send you this certificate that you may assure the public that it is no humbug.

Yours truly, THOS. GRAHAM, That man cares more for the two or three cents extra profit

ESCOTT, ONT , March 4, 1880. We hereby certify that we have used Perry Davis' Pain-Killer in our families for several years. We consider it a very useful and necessary article to be kept in all households as a resort in case of accidents and exposure to attacks occasioned by cold. IEREMIAH CURTIN

J. J. DOWSLEY IOSEPH P. REDMOND ARCH. GREER. MAITLAND, ONT., February 25, 1880.

I have used your _ain-Killer for the last twenty years. I carried it with me all through the American War. I believe I would have been dead long ago, if it had not been for your Pain-Killer. I think it is the best remedy in the world for which it is recommended. you enter, and which some unprincipled shop-keepers try to palm off as a substitute for the mended. Yours very truly, N. W. LAFONTAINE, 4

PORTLAND, ONT., February 26, 1880. I have sold the Perry Davis' Pain-Killer for over thirty years, and the same has always given my distorners entire satisfaction, and I have much pleasure in recommending it as a good and reliable family medicine. S. S. SCOVIL.

PRESCOTT, ONT., February 27, 1880. I have sold your Pain-Killer for the last nineteen years in this place, and feel safe in recommending it to the public for the diseases given in your circular. I can assure you my customers speak well of it as a general family medicine. It takes the lead of all other similar preparations. Yours, &c. GEO. BIRKS.

If you cannot obtain the genuine PAIN - KILLER in your leastiff, and not very likely to the past and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a frage class femily medicine, and as long as I have a house and store, Perry Davis' Pain-Killer will be found in both.

COBOURG, ONT., March 3, 1880. Yours, &c., J. E. KENNEDY.

MADOC, ONT., February 16, 1880. Your Pain-Killer as a family cure all has been in constant use in my household for a long term of years, and I would never desire a better one. It never fails me. I call it the "Old Reliable." Yours very truly, HORACE SEYMOUR.

TAMWORTH, UNT., March & 1880. For twenty-three years last past I have sold Perry Davis' Pain-Killer, and have always found it to give good satisfaction. I have trequently used it in my family, and received great benefit from the use of it in that way. Although many imitations of it have been put on the market, and are pushed hard, yet the old, reliable Perry Davis' Pain-Killer holds its own, and is a very popular demestic medicine.

Yours respectfully, JAS. AYLSWORTH

The PAIN-KILLER

1s recommended by Physicians, Ministers, Missionaries, Managers of Factories, Work-shops, Plantations, Nurses in Hospitals, in short, everybody everywhere who has ever given it a trial.

TAKEN INTERNALLY, it cures Dysentery, Cholera, Diarrhora, Cramp and Pain in the Stomach, Bowel Complaint, Painter's Colic, Liver Complaint, Dyspepsis or Indigestion, Sudden Colds, Fore Throat, Coughs, &c.
