FEDERAL REVENUE GROWS

It Is Likely to Meet Capital and Special as Well as Current Expenditures

A despatch from Ottawa says: Revenue figures for the first seven months of the current fiscal year show that the receipts have been \$96,191,614, or some five millions more than in the corresponding period last year. The excise and post-office revenues show an increase of a million, while the Customs figures are about the same as last year. The takings in the Railways and Canals Department lead those of last year by \$1,300,000, while the miscellaneous revenues, derived from sales of land, etc., show heavy advances.

Hon. W. T. White's forecast in his Budget speech seems in a fair way of being realized. After pointing out that the revenue for 1912-13 stood at the extraordinary figure of \$108,250,000, and observing that "it is too much to expect that this abnormal rate of increase will be maintained during the present year," he went on to say: "I feel confident that the revenues of the year will not only prove adequate to meet the current expenditure, but to meet possibly the whole, and certainly the greater, portion of capital and special expenditure for the year." This, he explained, cannot often occur, but may be achieved in exceptional years. It now appears likely that this forecast will be fulfilled completely and that the year's revenues will suffice for the consolidated and capital expenditure.

GRAIN PRODUCTION.

The Estimated Wheat Yield for Canada for 1913.

A despatch from Ottawa says: At the end of September reports to the Census and Statistics Bureau gave the total estimated wheat production of Canada for 1913 as 207,575,000 bushels, an increase of 8,339,000 bushels over the yield of 1912. The yield per acre was 21.15 bushels, as against 20.42 last year. The total yield of oats was 291,418,000 bushels, an increase of 30,000 bushels; barley, 44,348,000 bushels, an increase of 344,000 bushels; rye, 2,559,000 bushels; peas, 3,974,000; flax, 14,913,000; corn, 14,086,000 bushels. For the three North-west Provinces the total yield of wheat is estimated at 189,110,000 bushels; oats, 239,590,000 bushels; barley, 27,904,000 bushels; rye, 686,000 bushels; and flax, 14,808,000 bushels.

STOLE FROM THE BANK.

Accountant Sentenced to Two Years in Penitentiary.

A despatch from St. John, N.B., says: William MacIntyre, former accountant of the Bank of Nova Scotia here, pleaded guilty before Judge Forbes in the County Court on Thursday to stealing \$10,000 of the bank's funds. He was sentenced to two years in Dorchester Penitentiary at hard labor, but the Judge said he would willingly recommend to the Department of Justice that MacIntyre be released on parole. It is understood a petition will be sent to the Minister of Justice along these lines and that the bank authorities are ready to join in the petition. MacIntyre was arrested in Toronto.

THE AMER'S WAY.

How He Punishes Conspirators Against His Throne.

A despatch from Allahabad, British India, says: Nine ringleaders of an abortive plot recently discovered against the reigning Amier of Afghanistan, Habibullah Khan, have been executed at Kabul, the Afghan capital. The conspirators were blown from the mouths of cannon.

SPEAKS FOR ITSELF.

Experience of a Southern Man.

"Please allow me to thank the originator of Postum, which in my case, speaks for itself." The man writes.

"I formerly drank so much coffee that my nervous system was almost a wreck." (Tea is just as injurious because it contains caffeine, the drug found in coffee.) "My physician told me to quit drinking it but I had to have something, so I tried Postum.

"To my great surprise I saw quite a change in my nerves in about 10 days. That was a year ago, and now my nerves are steady and I don't have those bilious sick headaches which I regularly had while drinking coffee.

"Postum seems to have body-building properties and leaves the head clear. And I do not have the bad taste in my mouth when I get up mornings. When Postum is boiled good and strong, it is far better in taste than coffee. My advice to coffee drinkers is to try Postum and be convinced."

Name given by Canadian Postum Co., Windsor, Ont. Write for copy of the little book, "The Road to Wellville."

Postum comes in two forms: Regular Postum—must be well boiled.

Instant Postum is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. Grocers sell both kinds.

"There's a reason" for Postum.

NEVER FAILED TO CURE.

Remarkable Psychic Healing Powers of English Earl.

A despatch from London says: The Earl of Sandwich has announced himself as the possessor of remarkable psychic healing powers, by which he says he has cured many mental and physical sufferers, although he is without medical or surgical knowledge. The announcement was made by Lord Sandwich at a meeting at the University College of London on Wednesday to inaugurate a clinic for psychotherapeutic treatment of diseases. Lord Sandwich asserted that he has never failed in his treatment of sufferers. He cited many cases in all classes of society, including sixty wounded officers and soldiers sent home during the Boer War, all of whom recovered without the aid of physicians or nurses. He said he could not explain the power, but knew the results, and believed that many persons possess the same gift without being aware of it.

Will Shortly Take Up Her Residence in England With Her Sister.

A despatch from London says: Another retired Empress will shortly be making her home in England. The Empress Marie of Russia has practically decided to pass the whole of her time in this country. Special suites for her accommodation are being provided at Marlborough House and Sandringham. Her Imperial Highness proposes to dispose of her magnificent castle at Gatchina, 30 miles from St. Petersburg, where she passed much of her time during her widowhood. She will present her country estate near Livadia, in the Crimea, to her only surviving brother, Prince Waldemar of Denmark. It is at the earnest desire of Queen Alexandra that her sister has decided to pass so much of her time in England.

MINERAL OUTPUT FOR 1912

The Total Value Was \$135,048,296, or An Increase of Thirty Per Cent.

A despatch from Ottawa says: That Canada last year saw her best period of mineral production on record is indicated by a general summary of the mineral production of Canada for 1912, just issued by the Mines Branch of the Department of Mines. The total value of last year's output was \$135,048,296, \$31,827,302 more than during the previous year, or an increase of over thirty per cent. As Canada's growth and progress in industrial development are more or less reflected in the statistical record of her mineral production, this is a gratifying record. Since 1886 this production has risen from \$2.23 to about \$19 per capita.

NA-DRU-CO

Tasteless Preparation of Cod Liver Oil

Prevents Sickness Restores Health

Are you one of those thousands who, though apparently well, catch cold easily, and often? It's a dangerous condition to tolerate, and one which you can easily prevent by taking two or three bottles of Na-Drucod Tasteless Preparation of Cod Liver Oil at once—this Fall.

This pleasant-tasting food- tonic gives tone and vigor to the whole system, and so strengthens lungs and bronchial tubes that they readily throw off the colds which would otherwise take hold of you.

By virtue of its remarkable combination of curative and nutritive properties, Na-Drucod Tasteless Cod Liver Oil is one of the very best remedies known for chronic coughs and colds, bronchitis, asthma and catarrh. It is also an excellent reconstructive tonic after fevers, and in diseases such as scrofula and ticks, which are due to constitutional weakness.

Prove its worth by getting a 50c. or \$1.00 bottle from your Druggist. 311
