Classified Advertising PAYS
The waste paper basket in some offices is emptied once a day, sometimes twice a day. Besides scraps of paper and envelopes it usually contains many circulars addressed to the man who seldom opens them.
Thousands of dollars are wasted by circular publicity. There is no surer method of reaching the people you want than through the CLASSIFIED COLUMNS OF THE COURIER. There is no waste publicity in CLASSIFIED ADVERTISING. You can reach a greater number of possible buyers at a cost far below that of sending circulars, and the only time needed is to write your copy.
Eliminate office basket waste and turn your money into CLASSIFIED ADVERTISING.

Canning Without Sugar.
Housewives who intended to reduce the amount of canning done this season by reason of the high cost of sugar may abandon that project and put up as much as they wish, in the statement issued by the canning specialists at the Department of Agriculture.
This can be made possible by the use of boiling water when sugar syrup is beyond one's means. Any fruit, they say, may be successfully sterilized and retained in the pack by simply adding boiling water instead of the hot syrup. Most fruits canned alone in water do not retain their flavor, texture, and color as do those canned in sugar, and must be sweetened when used for sauces or desserts.
In order to can without sugar the product must be canned on the same day that it is picked. It should be prepared for canning in the ordinary way. Then the containers should be placed in a sterilizing vat such as a wash boiler with a false bottom, and completely covered with boiling water. The sterilization process may extend from 10 to 30 minutes, according to the process used. After sterilization the packs should be removed, the glass jars sealed and wrapped in paper to prevent bleaching and stored in a dry, cool place—Harford Times.

Queens Sold Almanacs.
The sale of almanacs was once a lucrative monopoly. Queen Elizabeth granted the sole right to publish "almanacs and prognostications" to the Stationers' Company, and James I. extended the privilege to the University of Oxford, and Cambridge, but for centuries only these three bodies were permitted to issue printed calendars. The monopoly ended when the claim of the King to the privilege of granting of withholding permission to issue calendars—a survival, perhaps, from days when kings asserted their right to regulate all things, including even the times and seasons—was definitely disproved and proclaimed non-existent. Now any body can say who's who anywhere.—London Chronicle.
