### RUBINO CONFESSES.

New York, Nov. 18.—Rubino, the anarchist who attempted to take the life of King Leopold last Saturday, has confessed that he was helped by another well known anarchist named Meadage, and attempted to implicate him in

the crime; but broke down under cross examination, says a Times despatch from Brussels by way of London. In his cell Rubino continues to express regret at his failure to kill the king, and declares that he will commit suicide.

### BOYCOTT FAILED.

Trades Assembly Could Not Put Scheme—tary Railway Out of Business.

SCHENECTADY, N. Y., Nov. 18.—The failure of the boycott imposed by the Schenectady trades assembly on the Schenectady Railway Company's lines is conceded today by labor leaders, and there is reason to believe that at a special meeting of the trades assembly called for this evening the inhibition will be removed. There is an overwhelming public sentiment against the action of the trades assembly in this particular, and this being the case the success of the boycott could not be secured. Henry V. Dickson, the president of the trades assembly, and who is generally credited with the responsibility of the boycott, declared in an interview that the boycott would undoubtedly end disastrously, as the time is not ripe for such a step. He is further more quoted as saying that the boycott was observed by but forty per cent of the trades unions, thus the failure is different from that indicated by Secretary Carr of the railway company, who declares that the falling off throughout the city was but five per cent. It is stated that the mass union at their meeting last evening denounced the boycott as not based on sound union principles, and that other unions will follow their example. This morning the cars were well patronized and unionists were inclined to laugh at the boycott. The Albany and Troy cars of the company, which daily carry hundreds of men who are employed in this city, both in the general electric and locomotive works, were filled with workmen. The reports of the company this morning are jubilant over the turn of affairs.

### HALLS OF JUSTICE.

Chief Justice Strong Did Not Attend Supreme Court This Morning.

OTTAWA, Nov. 18.—A large crowd were present at the opening of this morning's session of the Supreme Court, expecting to hear an announcement regarding the judicial changes. Without one word of preface Sir Elzear Taschereau, who presided, proceeded to deliver judgments in outstanding Yukon appeals, briefly adding: "The Chief Justice has sent in his concurrence." After the last judgment had been delivered, a pause ensued, during which the registrar of the Court conferred with Sir Elzear Taschereau, and then the next appeal on the Ontario list was taken up. Throughout the proceedings the Chief Justice did not appear in court. It is understood that he was within the precincts, but did not come into the court room. His last appearance as Chief Justice was made on the day he heard the Yukon appeals and left the bench at their close.

### THE TELEGRAPHERS.

OTTAWA, Nov. 17.—The International telegraphers' grievance committee will probably reach a settlement with the government tomorrow. Today Messrs. Pottenger and Price, who have been negotiating with the department for a week past, presented their recommendations to Mr. Blair. The report is understood to embody some important concessions to the operators, although not going as far as they would wish. This memorandum was sent to the delegates tonight, and they have been considering it all evening. It is probable that a conclusion will be reached tomorrow. One of the delegates told your correspondent tonight that a margin of difference between the union and the I. C. R. authorities was not very great. Private telegrams were sent out tonight to points on the I. C. R. indicating what the government was prepared to do.

### IN THE ELECTRIC CHAIR.

AUBURN, N. Y., Nov. 18.—John Truck was put to death in the electric chair in the state prison here this morning. Truck's crime was committed in the town of Virgil, Cortland County, on the night of March 14, 1880. Neighbors discovered the house of Frank W. Miller, who lived alone, in flames. Before the burning dwelling had entirely consumed they made out the body of a man in the ruins. Water was thrown upon the body to prevent cremation and it was afterwards identified as that of Miller. The autopsy showed that death had occurred before the fire had touched the body, the skull having been crushed by a blunt instrument. It was known that Truck had spent the night before with Miller and had been in the neighborhood for several days. The next day Miller's wagon was discovered in Truck's barn in Homer, and when arrested Truck was wearing Miller's clothes and had his watches, his horse and wagon. He claimed to have been in Homer, but told several conflicting stories. He was convicted, and sentenced to electrocution.
