Reports from Cobalt camp state that the Temiskaming have their new twenty drill compressor installed and ready to run. At the 200 and 250-foot levels the ore bodies run from ten to forty, three inches in width and they give an assay of five thousand ounces. Last year the Temiskaming produced over one million five hundred thousand ounces of silver at a total cost of six and a half cents per ounce. During the last three months of the past year over half a million ounces were mined and shipped at a cost of five and a half cents per ounce. This was done with a small plant working at the 250-foot level.
