NEWCASTLE, NEW BRUNSWICK, MAY 6, 1919

No. 17

WHO IS THE MOST POPULAR LUMBERJACK IN NEW BRUNSWICK?

How many times have you argued about this question? It is a subject which is widely discussed in every camp

The reasons are quite evident. The New Brunswick Lumberjack is very popular with all classes because he has a manner which is distinctly his own. He is recognized for his ready wit, his jovial spirit and his eagerness to do his work satisfactorily. All these qualities have been responsible for the many arguments in the past.

Now the Question is to be answered in definite and concrete form.

A PRIZE OF \$25.00 IN GOLD.

To answer the "Most Popular Lumberjack in New Brunswick" question conclusively, a competition has been arranged. The most popular Lumberjack will be presented with \$25 in gold.

Do you believe the tip-top Lumberjack is one of your district? Here's your chance to boost him! Help him win that \$25. and bring your district into the lime-light of popularity at the same time. The Lumberjack securing the most votes will win the prize. Everybody is being given an opportunity to record their opinions on the question, and the procedure is quite simple.

Vote for your Favorite

How to vote:—Go to any of the stores mentioned in this notice and ask for a ballot paper, which will be given you without question, as you are not required to buy any goods in order to vote. Everybody is entitled to one vote—and one only.

Fill in the ballot paper very carefully. Be sure to write your favorite lumberjack's name clearly. Also don't forget to sign your name and address on the ballot as no vote will be accepted unless signed in this manner.

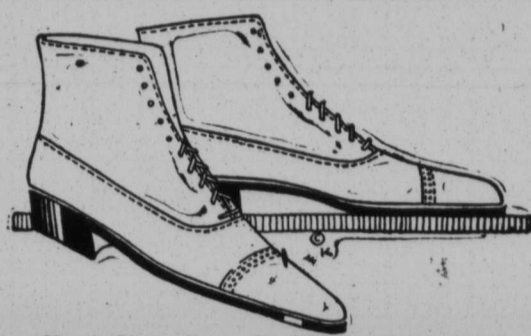

Voting Begins May 3rd and Closes June 21st

The competition will be judged by Warden Burchill, W. B. Snowball, James Robinson, W. M. Sinclair, Allan Ritchie, and Roy Saunders, Manager of the Fraser Lumber Co., Ltd. The results will be announced shortly after the competition closes, and the pictures of the most popular lumberjacks will also be published.

Send your ballot to the store from which you secured it or to

Newcastle Town Council Meeting

Newcastle, April 30—Town Council met in special session last night, all present but Ald. A. H. Mackay, who is ill, and Ald. A. J. Ritchie.

Council first met in committee of the whole, Ald. Fish in the chair, to hear several reports upon the power question.

That of H. K. Smith, resident district engineer of the Dominion Water Power Commission, Halifax, was not so optimistic re Sevoile site as that of Mr. McKechnie. That of C. W. Lush, of the Foundations Co., Ltd., favored all engines up to capacity of 200,000 kilowatt hours per day; after that water power would be cheapest. An offer was also read from the Richibucto and Rexton Electric Light Commission offering to sell their Kouchibouguac plant, except the right to supply power to Richibucto, Rexton, etc., for \$75,000, as the plant is too big for the Kent County business available. The commission would build a smaller dam somewhere else to supply the Kent County towns.

Ald. Fish thought it would be a good thing for Chatham, Derby and Newcastle to get together and develop Gray Rapids on the main South-west Miramichi.

On the rising of the committee of the whole the council met with Mayor Doyle in the chair.

Ald. Fish reported that the committee of the whole recommended the following:

That the council secure further expert advice as to the best steps to be taken by the Town of Newcastle, as to the extension, supplementing and improvement of the present power system. Carried, on motion of Ald. Durick and Jeffrey.

Following committee were appointed to supervise the matter, Ald. Durick, Crocker and Sargeant.

Ald. Fish wanted to know if the committee were to select engineers to make reports.

Ald. Crocker thought the committee would have power to select one man for the hydro-electric investigation and as many more as required for the other departments.

Ald. Fish wanted reports from several persons.

The Mayor said that that was understood.

Ald. Crocker said that the committee could report progress each month to the council.

Chas. H. G. Gough was granted a license to conduct a billiard and pool room in connection with his tobacco and confectionery store.

A. D. Farrah & Co's offer to repair the street in front of their property, if the town would pay half, was referred to Public Works Committee.

Application of James Robinson for permission to bore a well to supply water to his new mill recently built on the site of the Anderson Furniture Factory, here, was presented.

It was moved by Ald. Sargeant, seconded by Ald. Crocker, that Mr. Robinson be given permission to bore a three-inch well on his property, not more than 100 feet deep.

Ald. Durick wanted conditions drawn up so as to safeguard the town in case the proposed well should interfere with the town's water supply.

Ald. Fish said that the town water pipes had been laid to the Anderson Factory. Why couldn't Mr. Robinson use town water.

Ald. Sargeant replied that it would cost him too much to use town water at the present rates. It was out of the question for him to do so. After looking into the matter it was thought better to let him bore a well for himself.

Mayor Doyle agreed that safeguarding conditions should be imposed. If the well should ever interfere with the town's supply, the town should have power to cap it.

Ald. Sargeant added to his motion that the town solicitor draw up an agreement between Mr. Robinson and the town protecting the latter.

Motion then carried.

The following bills passed:
