NEW LAMP BURNS
94% AIR

Beats Electric or Gas

A new oil lamp that gives an am-
azingly brilliant, soft, white light
even better than gas or electricity,
has been tested by the U.S. Govern-
ment and 35 leading universities
and found to be superior to 10 or-
dinary oil lamps. It burns without
odor, smoke or noise—no pumping
up, is simple, clean, safe. Burns
94% air and 6% common kerosene
(coal oil).

The inventor, J. M. Johnson, 246
Craig St. W., Montreal, is offering to
send a lamp on 10 days' FREE trial,
or even to give one FREE to the
first user in each locality who will
help him introduce it. Write him
to-day for full particulars. Also ask
him to explain how you can get the
agency, and without experience or
money make \$250 to \$500 per month

UNION ADVOCATE

FARMERS SHOULD
BUY NEAR HOME

"Why should our farmers pander
to the United States imple-
ment manufacturers, purchase
their overstock and at the same
time ruin their own Canadian manu-
facturers, when the solution of
the whole question, to my mind,
lies in the farmers themselves es-
tablishing their own factories in
the different centres, back them
with their own money and pledge
themselves to buy all their re-
quirements from such factories?"

Thus spoke H. H. Warman, well
known retired business man of
Moncton, N.B. who together with
his wife is making his first
trip to the west and is going as
far as Vancouver, Victoria and
Seattle. He is staying at the
Brunswick Hotel, says the Manitoba
Free Press.

"The lowering of the tariff
by the King Government has not
benefited the farmer one bit" said
the visitor. "Such assertions are
mere political bluff. It has, how-
ever, practically ruined our own
manufacturers. What is required
is a united Canada, and such legis-
lation does not help in this direc-
tion. Let the farmers take mat-
ters into their own hands and let
them become their own manufac-
turers. Ontario has too many
implement factories. Let such
factories be spread more over the
country and let the farmers back
them with their own money and
see that their money stays in
this country. This will bring
about a united Canada.

Mr. Warman considers the coun-
try over legislated and with far too
heavy a salary list. "Why
should not the three Maritime Pro-
vinces be amalgamated for pur-
poses of government?" said he.
"This would save a lot of money,
which could be used in the develop-
ment of the great natural resources
of these provinces. The high salar-
ies paid by the governments out
here are absurdly high and the
same is true of all the big corpora-
tions of the country. Wash out a
large portion of such salaries and
use it for the development of the
country, for, remember it is the
poor man who is developing this
fair Dominion of ours, not the
rich man, for it is the former who
raise the large families. I consider
the salaries paid to the heads of
our corporations are a crying
shame. They are stunting growth
and getting us nowhere. Sometimes
I think we shall have to begin all
over again and build up the coun-
try once more on sound lines.

The United States had to start
again after Civil war, and why not
Canada? She built herself up on a
strong tariff wall and I am firmly
of the opinion that a strong tariff
wall is what Canada wants today,
else her citizens will continue to
go over to the United States in
large numbers, as they are still
doing, from the Maritime Provinces".
Mr. Warman is a firm believer in
the future of the Maritimes and
mentioned the fact that there were
millions of tons of oil shale ready
for development, running 20 gallons
of oil to one ton of shale as
against 13 gallons per ton in Scot-
land.

"It only wants more capital to
get a development start made in
this direction," said the visitor
"and I believe it will not be long
before capital is available for the
work."

SUPERVISOR OF ROYAL
BANK IN MARITIMES.
C.E. MacKenzie, formerly Super-
visor of the Royal Bank of Canada
in Cuba has arrived in Halifax to
take over the duties of Supervisor
in the Maritime Provinces, the
position formerly held by the late
F. St. C. Harris.

BIG ATTEMPT TO
SMUGGLE CHINESE

What is believed to be an inter-
national plot to land large numbers
of Chinese in Canada, contrary
to immigration, was revealed at
Victoria, B.C. when the Canadian
Government took steps to imprison
and later, deport a dozen Chinese
charged with attempting to enter
this country on forged and fraudu-
lent certificates of entry.

Wholesale trafficking in these
forged documents among the ignor-
ant coolies of China has been dis-
covered through the investigations
which led to proceedings in the
local courts.

The persons who are selling the
certificates in China, it is be-
lieved are in league with Chinese,
Chinese here.

Under the Canadian Immigration
law, it was explained by J.B. Clear-
hue, who is acting for the Cana-
dian Government in the present
prosecution, when a Chinese leaves
this country for China, he is given
a small ticket which, when presen-
ted on his return to Canada, allows
him to re-enter.

The traffic in false tickets was
revealed when a number of incom-
ing Chinese presented cards which
obviously had been faked.

The "craze for scientific fads"
was attacked by Dr. Frank Alvah

Assuring Your
Business

A policy of advertising is a policy of life
assurance, and the protection thus secured is
well worth its annual cost.

Old customers die or move away—they
must be replaced.

Old customers are subject to the influence
of temptation—they may be induced to divide
their custom—to do some of their shopping
at a competitor's.

New comers to this community will
shop with you—become regular customers—
if they are invited to do so.

Your competitor's advertising is an in-
fluence which must be offset if you are to
maintain your trade.

Not to advertise regularly to the read-
ers of the UNION ADVOCATE is to leave
your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of
advertising. You owe it to yourself to get the
best for your money, the best goods and the
best service. And if you find that your in-
clination is to shop where you are invited to
shop rather than to continue to be a customer
of the shop which never solicits your good-will
you need have no compunctions of conscience.

Shop Where You are Invited
to Shop

same: But he did not suffer from
the new American trinity of scienti-
fication, standardization, and eccle-
siasiation. Individuality and common
sense are disappearing through
standardization. Mass production
seems to come about with no brains
apparent in the process." He took
issue with a previous speaker, who
had said a kitchenette and folding
bed were destroying home life.

"You should thank God for them
declared Dr. Parsons "otherwise we
should have to sleep on park benches
and pavements because of our
crowded cities. It is said that
bobbed hair defeminizes, but there
is no immediate danger of defemin-
izing what is already defeminized"

"You members of the Recreation
Association represent the only hu-
mane organized society extant.
You do not condemn anything. You
are trying to use recreation to
clean and repair the engine of the
human body. Nature is with you
but you must use the same process
on the American mind of all na-
tions we know least, when to rest
and play or to do either systemati-
cally and to our profit."

"Complete rest; relaxation or en-
tire change of physical action are
essential to health happiness and
success. They are essential to a
nation which would compete with
others in this frantic struggle not
only for existence but for world's
supremacy. This cannot be said
too often or too forcefully in the
United States."

OXYGEN CARRIERS

An Explorer Returns
After Three Years

Peter Freuchen the Danish ex-
plorer has just arrived at Aberdeen
aboard the schooner Sokong after
being missing for three years in
the Arctic regions. When found in
Ponds by Baffin Land he was living
on seal, walrus and reindeer flesh
and on fish which he shot and
caught. Four Eskimo helpers were
lost; two men and two women,
while the Canadian police vessel
which calls at Pond's Islet, had
paid their visit before Freuchen
reached there, and would not be
back for at least another year.

BE YOURSELF

It is best for the individual and
best for the race, that everyone
should live his own life and cultivate
his own inward garden; that he
should courageously do his own
thinking and stand to the verdict
of his own sentiments and tastes,
and that he should work out his
own career and style of character
