Fielding's Surpluses.

The financial statement of the Federal Government for the month of October just passed, while it shows increases in revenue and decreases in expenditure, shows that the debt of the country is increasing at an alarming rate. The total net debt of the Dominion on October 31 amounted in round figures to \$322,000,000, an increase during the month of over one million dollars.

It is wonderful, indeed, to find the Halifax Chronicle and other equally extreme Grit papers praising Mr Foster and quoting his speeches in Parliament. For several years these same papers could not find in their vocabularies words sufficiently strong to denounce the conduct of Mr Foster as a public man.

The speech put into the mouth of the Governor General at the opening of the Parliamentary session at Ottawa on Thursday last, is a pretty lengthy pronouncement; but beyond that it presents no extraordinary features. It refers to a number of subjects concerning which we have already about as much information as the Government are likely to give us.

Chief of Police Falcon of Boston Ayres and his secretary, were assassinated in that city, while driving. The assassin who perpetrated the deadly murder, suddenly sprang from a singly led spot and threw a bomb directly under the carriage.

Conservatives Win.

Two by-elections for the House of Commons were held in Ontario last week. One was in West Middlesex to fill the vacancy caused by the appointment of the sitting member, Mr W. S. Calvert, to the G. T. R. Commission, and the other was in North Essex, rendered vacant by the appointment of Hon. R. F. Sutherland, ex Speaker of the House of Commons, to the Exchequer division of the Ontario High Court.

Dominion Parliament.

The second session of the eleventh Parliament of the Dominion of Canada was opened by His Excellency the Governor-General with the usual ceremonies on Thursday afternoon last, the 11th inst. The speech from the throne was as follows:

The present year, which is now drawing to a close, has been a period of steady and progressive growth. In nearly every branch of business there has been a revival of activity which gives assurance of continued progress and prosperity.

Two members of my Government attended the Imperial Conference called by His Majesty's Government, on the question of a general plan of action for the organization of a Canadian Naval Service, on the lines of the resolution of the House of Commons, of the 29th of March last.

The Board of Engineers entrusted with the preparation of plans for the construction of the Quebec bridge has sufficiently advanced its work to admit of tenders being invited for the substructure.

dilated on at any length in a speech such as this.

The realization of such a project is away in the dim and distant future. The Quebec Bridge, too, that has already been the cause of the loss of over seventy lives and has saddled over \$6,000,000 on the taxpayers of Canada, furnishes material for a paragraph in the speech. It might fairly be set down as a speech with length; but without depth; a speech of generalities; but without definiteness.

On Friday, the House sat for an hour, the opposition raising the question of delay in the appointment of judges to the British Columbia Court of Appeal.

Mr Aylesworth in replying conspicuously failed to deny the charge that several Liberal candidates now offering themselves for election in the Provincial contest had been promised seats on the court if they are defeated. Mr Borden brought the matter up on a motion to adjourn after routine proceedings. The British Columbia legislature, Mr Borden showed, passed legislation establishing a court of appeal so long ago as 1907. The necessary federal act consequent on this was passed in 1908. Last May the British Columbia Government sent to the Dominion Government formal notice that the Provincial act would be brought into force by September 1, 1909, thus giving ample notice to the Dominion Government to effect the appointment of the four judges who are needed to complete the court.
