MADE IN CANADA

Take John and Donald as Advisers.

Dear Sir, Twillingate, like all other localities in Newfoundland, has not improved her system of road making, but continues in the old rut of thirty years ago. Scattering gravel on the roads in October to be washed off in December and the early spring. There is practically no ditching done, and the water running over the surface wears it hollow in a short time. Large stones or very coarse gravel is put on one year, and the following year men have to be paid to pick it off again—a pure waste of public money.

Sir Edward Morris promised us a better condition of things, but in this you have duped us, as you have in respect to Electric Road Boards, and also in respect to the cost of those Branch Railways, etc. Sir Edward, when you stand on the brink, soon to be swept into the unfaithful politicians' political oblivion, with the bitter taste of political deception in your mouth, will you think of the nasty tricks which won you the Government? Yes, you will.

Where is Road Inspector Thomas Bonta? Is he also getting his money easy? Will it require the appointment of an "Inspector of Inspectors" to spur that official on to duty? An Inspector of Inspectors should be a man not afraid to open his mouth. The Hon. John Crosbie may have certain qualifications for such a position. At any rate, John could supply spurs for culverts.

It was once an honor to be a politician. Now it is a joke. A "LEGION OF HONOR" amongst politicians is a much needed order in this country at present, and less YAP. Don't you think so, Mr. P. D. McGrath? YAP is talk without truth back of it. The talk of politicians, who try to impress upon their hearers that they are patriots, self-sacrificing men are bleeding for their country. But who, instead, make themselves

TWO WOMEN TESTIFY

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their own Statements Follow.

Haliburton, P.E.I.—"I had a doctor examine me and he said I had falling of the womb, so I have been taking Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. All the bearing-down pains have vanished. I have gained ten pounds in weight, the discharge is all gone, and I feel better than I have for a long time. I think any woman is foolish to suffer as I did for the sake of a few dollars."

"You can use my letter as a testimonial. It may encourage other poor women who suffer as I did to use your Vegetable Compound."—Mrs. GEO. COLLICUTT, Haliburton, Lot 7, P.E.I.

Read What This Woman Says: New Moorefield, Ohio.—"I take great pleasure in thanking you for what your Vegetable Compound has done for me. I had bearing down pains, was dizzy and weak, had pains in lower back and could not be upon my feet long enough to get a meal. As long as I laid on my back I would feel better, but when I would get up those bearing down pains would come back, and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I commenced to take it. I hope it will help other suffering women as it has me. You can use this letter."—Mrs. CLASIE LLOYD, New Moorefield, Clark Co., Ohio.

wealthy in a few years of political life. Yes, like the Hon. Donald's father, it staggers the human mind. These are called "Grabists." Grab, Grab, like human seam-rollers they never stop to rest. Get money. Get it honest if you can, but get it. At night while on my pillow reflecting upon the daily wants of my many bairns, I sometimes think of Sir Edward and his large political family. One demanding a Judgeship, another Inspector Generalship, another, fat job in the Savings Bank, etc., besides a host of other favours requested for political brothers, fathers, uncles and mothers. A man who must torture the mind of a man like Sir Edward Morris, who is working-day and night for his country, and without pay, and in fact even without popular applause. The wonder is that Sir Edward doesn't resign at once and let his besieging political family go to squash.

Would it not be better for Sir Edward, the true-born-son-of-the-soil, to pack his grip and off to the unexplored regions of His Majesty's domains carrying the light of civilization and the seals of the Higher Education to settle in the homes of those natives who can love and appreciate a full grown "Man of Progress"? He should take with him the Hon. John Crosbie and Donald. John could entertain the Premier with short talks on classical subtlety and political economy, and Donald could keep John posted on points of law respecting Crown Lands and "timber deals." Besides there are no bow-legged people over there, made so by carrying an extra burden of Public Debt lately piled on them by their Prime Minister.

There are two Departmental Commissioners in Twillingate, whose names will be given later, and we are long-longing for the House to open so that we can read in the papers, detailed statements of the expenditure of Public Money by them to see "where the money goes" at these very same individuals used to say previous to the late election.

Minus a few naughty dogs, and an occasional native pedlar, accented respecting his license to sell, Twillingate is a pretty even town. A great place for business. An amazing bulk of merchandise change hands here yearly. The town, however, badly needs an up-to-date hotel. True, we have a Restaurant at "Path End," but that doesn't appeal to American tourists. You can't get meals at all hours, nor is there any hot and cold water on every flat. The fact is there is nothing here in the hotel line, to court the stay of the American tourist; it is a pity, for, in other respects they would enjoy a visit to this town.

Are there no signs of a Spring election in the air? Dame Rumor will have it that another weekly newspaper is soon to be started here—"strong Liberal paper," mind you.

I see that Dr. Grenfell has proposed some cogent questions for Editor Temple, respecting some remarks of the Sun about diet at St. Anthony Hospital, and Temple has skipped around the corner called "Evasion." Now that is wrong, Mr. Temple. You have no answers, and I would be better to admit it, even on my knees. Editors are sometimes wrong. But it is a pity when scribblers are allowed to weaken confidence in an institution like the Hospital at St. Anthony, for to put into a "Butter" the names of persons in this country owe their lives I wouldn't blame Dr. Little if he'd refuse "lassy dough-boys," or "A bustle feed" of pork and cabbage to a patient just recovering from an operation for appendicitis or cancer of the stomach, for Dr. Little would naturally strive to make a firm cure of his patient. It would be a great calamity if Dr. Grenfell's hospitals were to close their doors. Rather, I think the purses of Newfoundland should be more widely opened in support of these institutions.

Again thanking you for space, Mr. Editor.

I am yours faithfully,
HARBOR ROCK,
Twillingate, October 29, 1912.

On Keeping Time Accounts.

BY RUTH CAMERON.

Time is money. Doubtless you have heard that saw so often that you think it is good, but is it?

Apparently that sentiment is supposed to make us realize the value of time. In reality it undervalues that precious commodity. Time is much more than money. For money is merely one of the good things of life; time is life itself.

And yet how very few people have any system in regard to their expenditure of time.

Almost every careful housewife keeps an account of her household over there, made so by carrying an extra burden of Public Debt lately piled on them by their Prime Minister.

There are two Departmental Commissioners in Twillingate, whose names will be given later, and we are long-longing for the House to open so that we can read in the papers, detailed statements of the expenditure of Public Money by them to see "where the money goes" at these very same individuals used to say previous to the late election.

Minus a few naughty dogs, and an occasional native pedlar, accented respecting his license to sell, Twillingate is a pretty even town. A great place for business. An amazing bulk of merchandise change hands here yearly. The town, however, badly needs an up-to-date hotel. True, we have a Restaurant at "Path End," but that doesn't appeal to American tourists. You can't get meals at all hours, nor is there any hot and cold water on every flat. The fact is there is nothing here in the hotel line, to court the stay of the American tourist; it is a pity, for, in other respects they would enjoy a visit to this town.

Are there no signs of a Spring election in the air? Dame Rumor will have it that another weekly newspaper is soon to be started here—"strong Liberal paper," mind you.

I see that Dr. Grenfell has proposed some cogent questions for Editor Temple, respecting some remarks of the Sun about diet at St. Anthony Hospital, and Temple has skipped around the corner called "Evasion." Why Women Are Not Rich.

Man is a millionaire many times over in the possession of blood cells. Woman is not quite so rich, for scientists have proven that the normal man has five million—the woman only four and a half million to a cubic millimetre of blood.

A decrease in number of red blood corpuscles and a person looks pale—in fact, is anemic, the blood does not get the right food and probably the stomach is disordered.

Dr. R. V. Pierce found years ago that a glyceric extract of golden seal and Oregon grape roots, queen's root and bloodroot with black cherry bark, would help the assimilation of the food in the stomach, correct liver ills and in Nature's own way increase the red blood corpuscles. This medicine is called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten the system is nourished and the blood takes on a rich red color. Nervousness is only "the cry of the starved nerves for food," and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and is refreshed in the morning.

"I was attacked with a severe nervous disease, which was caused by a disordered stomach and liver," writes Mrs. JAS. D. LITTLE, of Washburn, Tenn., Route 2, Box 58. "All my friends thought I would die and the best physicians gave me up. I was advised to try Dr. Pierce's Golden Medical Discovery, and derived much benefit from same. My case had run so long, it had become so chronic that nothing would effect a permanent cure, but Dr. Pierce's medicine has done more for me than I highly recommend it. I heartily advise its use as a spring tonic, and further advise ailing people to take Dr. Pierce's medicine before their diseases have run so long that there is no chance to be cured."

Dr. Pierce's Medical Adviser, 50 stamps, to pay for wrapping and mailing only.

Household Notes.

Ribbons slightly soiled can be well powdered with French clay or magnesia and held over the heat from the stove for a few minutes. They will shed any grease or soil. They should be carefully pressed after brushing out the powder and soil very thoroughly.

When a fish bone lodges in the throat, the easiest and safest way to remove it is to leave it alone, and do not irritate the membrane by coughing and swallowing hard substances. But slowly suck and swallow the juice of a lemon. Fish bone can be dissolved by lemon juice.

When you have been so unfortunate as to scorch the bodice or skirt of a white dress, apply peroxide at once. Place a cloth underneath and one over the scorched spot. You may have to make several applications of peroxide before the stain will be entirely removed.

Sweet potatoes are delicious served in the following way: After they have been boiled until done, mesh them and put in a generous supply of cream and butter, then beat them until very light, put them in a baking dish and bake them in the oven until they are a nice brown.

After taking the bread from the ovens it should be removed from the pans and put bottom side down on a wire bread cooler. If you wish the crust to crisp, do not cover it. If you wish a soft crust, cover it with a clean towel while it is cooling. Put it into a tin box and cover closely.

When you have a little beefsteak left over, chop it fine, mix it with

IN THE YEAR 1932

how much will you have accumulated at your present rate of saving? Most men will have little or nothing saved if conditions are at all similar to those of to-day.

Every provident young man appreciates the wisdom of accumulating for his own benefit at least, and looks forward to an old age of comfort and enjoyment relieved from want and worry. And every thoughtful man endowed with manhood feels that a duty rests upon him to make some provision for others dependent upon him.

The safest, simplest and most profitable way to accomplish all this, and to be sure of a snug competency by the year 1932, is by investing in a Canada Life Endowment Policy for \$5,000 or \$10,000, according to your means and requirements. The policy can be bought on easy instalments and facilities are provided to assist in carrying and enjoying the insurance.

Send in your name and age and let us submit to you a good proposition.
