Hr. Grace Notes.

There was a fairly good sign of codfish in the local market yesterday. Herring, too, are fairly plentiful, but there has been no salmon taken yet.

Messrs. Joyce and Cleary, of the Associated Press Bureau motored from St. John's yesterday, and after taking a spin about town, and expressing themselves as highly pleased, they left at 8 p.m. for the capital. Both are genial fellows and made a number of friends even though their stay was short. Both expressed the wish that time would permit them to take another run this way, probably about the time the big Handley Page machine will start on her flight across the "pond."

"Hawker and Grieve are safe," went from one to another yesterday, and one would almost imagine that both were Harbor Gracians, so interested were all our people in the rescue of the airman. We would not be surprised to hear of Mr. Hawker being on his way to Nfld. again in a few days with another machine to try again for the honor of being "first."

Nurse M. Mahoney, who has charge of the Military Hospital, St. John's, spent the week-end here to the great pleasure of all her friends. We have heard soldiers say that it was a pleasure to be sick at the Military Hospital, and we are not the least surprised at the remark when the genial and kindly matron, above named, is in charge. Nurse Mahoney left for home yesterday, and will no doubt have quite a large number of lads to care for after the arrival of the S. S. Corsican.

Mr. and Mrs. E. S. Coffin motored from St. John's on Saturday and returned yesterday.

Dr. Cron who has been gradually gaining strength since his late serious illness, is about town the past few days. He is leaving for Montreal to-morrow, accompanied by his wife and child, and will spend the next few months in getting strong, and "fit" to again undertake the work of his profession. All the doctor's friends are pleased to see him on the road to recovery.

LAND OF OLD MEN.

More Than Half of the Youth of France Lost in War.
 PARIS, France, May 25.—Capt. Andre Tardieu, head of the general commission for Franco-American war matters, made an investigation into the number of French soldiers killed between the age of 20 and 31. He found that 58 per cent had lost their lives. That is, that more than half of France's young men disappeared.
