QUALITY

RAILWAYS UNDER ONE MANAGEMENT

Interesting Facts About Railway Matters in United States

New York, Jan. 4.—Modern methods of combining and consolidating mammoth railway systems, and extending the principle of community of interests were enquired into today at great length by the interstate commerce commission, which began an enquiry here into the so-called "Harriman lines." From here the commission will go next week to Chicago. Several other cities may be visited before all the testimony that is desired is in the hands of the representatives of the government, whose object is to determine whether any of the railroads of the country are consolidated or combined in restraint of trade.

At today's hearing it was brought out by testimony and evidence that the Union Pacific Railroad company, Southern Pacific company, the Oregon Short Line, and the Oregon Railroad and Navigation company, are practically under the same administration, Mr. Harriman appearing as president of each company, with only slight variation in the lists of other officers.

It was further shown that the Southern Pacific company owns the Pacific Mail Steamship company; that the Southern Pacific and Union Pacific jointly own the Occidental and Oriental Steamship company, and that Harriman interests are in control of the Portland and Asiatic Steamship company. All of these run steamers between either San Francisco or Portland and the Orient. It was said that the Occidental and Oriental company is in liquidation, but it still operates two steamers.

After placing in evidence all that was available as to the ownership of the so-called "Harriman lines," counsel for the interstate commerce commission had Alexander Miller, secretary of the Harriman companies, read from the minutes of many executive committee meetings of the Union Pacific. These showed that Mr. Harriman reported various actions by him and the company simply voted to ratify and confirm his actions. It was also shown that Mr. Harriman had authority by resolution to borrow money for the uses of the Union Pacific company without restriction as to amount or terms.

ROADS TO BE BUILT BY DOMINION

Dominion Asks for Tenders by Next Month for Construction

Ottawa, Jan. 4.—The transcontinental railway commission is advertising for tenders to be received at Ottawa, February 14th, for the following sections of transcontinental:

1. From Moncton westward, 50 miles.
2. From Grand Falls westerly, 62 miles.
3. From Quebec bridge easterly, 150 miles.
4. From a point 150 miles west of Quebec bridge, to Weymouth, 42 miles.
5. From a point about 8 miles west of Abitibi river, crossing easterly for a distance of 150 miles. Each tender must have an accepted cheque as follows: Section 1, \$75,000; section 2, \$50,000; section 3, \$225,000; section 4, \$75,000; and section 5, \$225,000.

ROVERS DEFEAT THE BANKERS

Fast Game of Hockey Played at the Rink Last Night

The fastest game of the season was played last night between the bankers and the station Rovers of the C.P.R. league (not a picked team as previously reported).

The attendance was poor on account of the severe cold, but those that braved the elements certainly got their money's worth, being kept warm by watching an excellent exhibition of hockey.

In the first half the score stood 10-0 in favor of the Rovers, but notwithstanding the one-sided score, the half was hotly contested. After five minutes of good hard play Graham landed one in the net by a long hit. Then Kerr hit another five minutes duplicated the trick from left wing with a good swift shot, and Belrose made the last goal for the Rovers just before time was called. Though Hemsforth did not tally his usual number of goals he was on the puck continually and played his customary fast game. It was the first game the Rovers' defence had had much to do and they showed they were all there with the goods.

In the second half the bankers started out with blood in their eye in the hope of evening the score, and by good fast work Sparrow succeeded in landing one in the net within three minutes of full time. It is hard to praise any particular players on the bankers' team, all doing a good hard stunt, but Scott had many hard stops to make while Hamler and McKenzie began to think they were back east playing for the Stanley Cup, and got busy to good effect.

The line up was as follows: Bankers' Scott, goal; Johnston, point; Hamber cover point; Jackson, rover; Harris, right wing; McKenzie, centre; Sparrow, left wing. Rovers' Crockett, goal; Nicol point; O'Hearn, cover point; Kerr, rover; Belrose, right wing; Hemsforth, centre; Whelan, left wing.

Result of Curling Competitions

The following games were played in the Curling competition last evening at the Alberta rink:

Mosley 12 v. McKelvie 7.

Ramsay 11 v. Watson 9.

Tartan 8 v. McLeod 13.

McTavish 10 v. Fidler 9.

GAMES TODAY—3-15:

Col. Walker v. Adams.

Barry v. Lee.

Savage v. Bone.

Bryan v. Adams.

RED DEER HERE TUESDAY NIGHT

First of a Series of Good Hockey Matches

A hockey match will be played at the auditorium rink on Tuesday evening between Red Deer and Calgary. The game has been called for 8:30 and both teams are under contract to commence the game on time.

This will be the first match of the season in Calgary and as the managers have gone to considerable trouble in arranging this game, it is hoped that a large crowd will turn out to encourage the locals as they are arranging other games with Olds, Lacombe and Edmonton.

Red Deer has a strong bunch and are in the best of shape. The locals will have the pick of the city and their seven will be chosen from McLeod, Hamber, Scott, McKenzie, Plummerfelt, Rouleau, Hemsley, McHugh and Brown.

These players have had considerable practice and will go on the ice on Tuesday evening in good condition, which means that Red Deer will have to put in all they know to win against this bunch.

Tickets can be obtained at the Athletic Cigar store, King Edward pool room and the Hub cigar store.

Brandon, Jan. 4.—The Winnipeg Strathcons, the team which welcomed the Ottawas last Tuesday evening to the tune of 9-6, narrowly escaped being whitewashed by the local team tonight in the continental league series. The final score was 10-2. At half time it was 6-0 in favor of Brandon.

Los Angeles, Cal., Jan. 4.—Flynn got the decision over Sullivan at the end of twenty rounds.

A NEGRO LYNCHED IN ALABAMA

Assaulted a Young Woman and Paid the Penalty

Eufaula, Ala., Jan. 4.—Will Scott, a negro of notorious character, was lynched for attempting criminal assault at Midway today. Citizens hanged him to a tree and riddled his body with bullets. The negro had recently returned from prison. Wednesday night he entered the room of Miss Morris King, daughter of a banker at Midway, and grasped her hands before she awoke. Her screams attracted the other inmates of the house, and the negro ran. Citizens immediately set out after him and captured him yesterday. When he was brought to Midway he confessed and the lynching followed.

MONTREAL HAS EPIDEMIC OF TYPHOID

Thousand People Said to be Down with the Disease

Montreal, Jan. 4.—The civic medical authorities estimate that there are nearly thousand cases of typhoid fever in this city and the suburbs at the present time. The suburbs are in the worst position, owing to the contamination of water with which they are supplied, with sewage. The city water is taken from the St. Lawrence higher up and is better.

Portage Wants to be a City

Portage la Prairie, Jan. 4.—Portage la Prairie will seek incorporation as a city at the present session of the legislature.

MEDICINE HAT READY FOR BUSINESS

Have Got a Manager and Will Have Good Nine

Medicine Hat Times: The baseball magnate has been looking for a manager since the last meeting and have engaged a playing manager in the person of George Nierstheimer, formerly of the Kentucky Cardinals, two or three of the celebrated Weidemanns, and the others from the Covingtons. A catcher who has made a "rep" in the Colonels is expected to be engaged.

The new manager has a very high reputation in baseball circles in the United States and says he is going to bring a winning team to Medicine Hat. He is sparing no pains to get the best there and is so confident that he will make good that he has voluntarily suggested that he receive only half his salary if he does not carry off the pennant.

It is a long time since Medicine Hat has had anything but the best, with a couple of months practice he will build up a team equal to any of them.

The committee is now at work selling the stock in the Medicine Hat Athletic Club and is meeting with good success. They have already before them are one thousand shares of twenty dollars each. A first class plot of ground is likely to be purchased during this winter.

In their search for a manager the committee met some funny propositions. One man, who evidently thought that the National League was a good thing, offered to give them \$100,000 and that his reputation was as good as Mathewson's demanded one hundred and seventy-five dollars a month, but the educational committee would not take him.

In some cases where schools have not received flags, the Canadian flag is still flying and the school is still in the hands of the government. The educational committee is still in the hands of the government. The educational committee is still in the hands of the government.

MANITOBA FLYS THE UNION JACK

The British Ensign Flies Over All the Manitoba Schools

Winnipeg, Jan. 4.—Yesterday for the first time in the history of Manitoba, flags were flown over institutions of the education by command of the legislature. The law passed by the government making display of the national emblem on public schools necessarily has aroused much interest in business circles. Education is a matter of flag flying and since the government stated that flags should be flown, the educational committee has some crying for Canadian ensign, and some for the use of the Union Jack.

In still other cases, the educational department has already delivered Union Jacks to the school boards, but it is understood that distribution to schools is not yet completed.

In some cases where schools have not received flags, the Canadian flag is still flying and the school is still in the hands of the government. The educational committee is still in the hands of the government.

Where Bow and Elbow Meet

(Continued from page 2.)

few cows are now piling up snugly on the banks of the Bow river.

Others prefer to patronize the government co-operative creameries throughout the country, or the dairy stations, which are being established with a cash advance of ten cents per pound. Later, when the butter is sold, the patron receives a check from the department of agriculture for the balance due him. The patrons are part owners of the buildings and machinery. Butter is sold to British Columbia, the Yukon and the Orient. The farmers' wives approve heartily of this plan.

What about fuel supply? Ah, now you've struck one of the best features of the Calgary district. In all directions, within a 70 mile radius of the city, there are excellent coal deposits, where coal is mined at the surface without any machinery whatsoever. The quality of the coal is of excellent quality, and the prices are from \$1.50 at the mine to three or four times that amount, delivered in the city.

All these natural advantages, useless without railroads, did you say? True it is, and it is the lively Calgarians that know it and they've been hustling to some purpose in the last couple of years, I tell you.

Situated on the main line of the C.P.R., with branches running north to Edmonton and south to Macleod, Calgary has been for years the manufacturing and distributing centre between Winnipeg and the coast. The C.P.R. possesses immense interests near the city and has always arranged things so as to direct trade toward the thriving foothill city. But with immigration and commercial interests increasing at such an enormous rate, the citizens now feel the need of greater railway facilities, and their endeavors are to be speedily rewarded. The G.T.P. and C.N. systems will soon connect with the city and a welcome addition from the south will be the Great Northern railway. Half a dozen minor lines are also being planned.

Can you wonder now that Calgarians are the most optimistic and ambitious people on the face of the earth? They are keenly alive to their wonderful natural advantages and are determined to make every one of them work for the upbuilding of their favored city.

At a recent great fetus to agriculture, mammoth elevators and gigantic new flour mills have been erected. Trade relations have been extended to Japan, China. Oatmeal, cereal and biscuit factories have been established and

importance among other Canadian cities.

The announcement of a free postal delivery service, the recent reduction of railway passenger rates, the agitation for extending the city's boundaries—all these are tributes to the civic enterprise of zealous citizens. The school population has increased 25 per cent. during the last year, and public enthusiasm has resolved itself into a 100,000 club, which aims at making this beautiful foothill city a model western metropolis. And they'll do it, too.

"To him that hath shall be given." This everlasting truth applies to communities as well as to individuals, and now that Calgary has shown herself capable of acquiring a superior position in commercial, educational and industrial lines, in addition to her unsurpassed natural advantages, nothing can prevent her becoming a vast metropolitan centre. The spirit of youth, hope and activity pervades her whole population, from the tiny children who frolic in the sun-laden air, to the grizzled old timer who says "I told you so" as each new ambition of the city is realized.

So long as the majestic Rockies, gleaming in the clear distance, continue to challenge the people of Calgary to climb, climb, climb, just so long will this beautiful city of the foothills continue to grow, expand and flourish, the very letters of her name full of significant purpose.

COME ALL LIVE GROW ACTIVE, RICH, YOUNG.

Each day brings some new evidence of Calgary's growing influence and

whole conservative course. And rates for tuition are surprisingly reasonable. You ought to see them. Churches? You ought to see them. No ordinary small-town structures, but magnificent auditoriums of solid stone, big and lasting, like the faith of the people. All the leading denominations are established there, and all have one or two branch churches as well. Just now a \$70,000 Y.M.C.A. is being built right in the heart of the city.

"Progressive," are we? You'll have to invent a stronger word than that.

You remember the bible story of Gideon and his army, how he tested them by bidding them drink at a stream? Those who knelt to drink sipping their hands of their swords and their eyes of the enemy, were rejected; while those who made cups of their hands and drank, were chosen. Now, I've often thought that all the descendants of that little band must have settled in Calgary, for a more vigilant, energetic community of citizens cannot be found the world over. They are the kind who would wrest victory from the very jaws of defeat.

The success of a city depends just as much upon the ambitions and public spirit of its citizens as upon geographical position and natural resources. If location and climate had made favorable to Calgary, equally favorable are the loyalty and optimistic faith of its ambitious population.

Each day brings some new evidence of Calgary's growing influence and

STRATHCONA'S PEERAGE FOR HIS GRANDSON

He is Reported to Be Worth About Forty Million Dollars

Montreal, Jan. 4.—The future Lord Strathcona and Mount Royal, Major Donald Howard, who is 16 years of age, is attending school near London. A great many people have asked if his lordship's title would do with him, and the question has not until now received a satisfactory reply. When Lord Strathcona sent the famous regiment of horse to South Africa it was arranged by the imperial authorities that Donald Howard, eldest son of Dr. Howard of London, whose wife is Lord Strathcona's only daughter, should receive the peerage at his grandfather's death. Young Howard will not do so, but he is reported to be worth about forty million dollars. His brother-in-law and confidential agent, James Harbottle, died a week or two ago and Strathcona comes here quite probably to discuss his Canadian interests in other hands.

Two Bad Dames Arrested in Winnipeg

Winnipeg, Jan. 4.—Two burglars who have been operating here for a month past were arrested tonight. They are Julius Carlson and Alexander Nelson. The two are recent arrivals from Denmark. Carlson has confessed to a long series of burglaries.
