And Liberals Received Support of This Element; Reciprocity Had Some Influence.

THINKS Saskatchewan Liberals esirous of Making Province Adjunct of the States

DECLARING that he was not sufficiently familiar with local conditions in Saskatchewan to offer an opinion concerning the causes of the sweeping Liberal victory, R. B. Bennett, K.C., M.P., when interviewed by The Albertan yesterday, expressed the view that the result was significant as indicating a settled conviction on the part of the electors of Saskatchewan against the acquisition by the prairie provinces of their natural resources.

THE INCIDENCE of the reciprocity sentiment in the election was disposed of by Mr. Bennett in the suggestion that "the insidious appeals of the Liberals were effective in securing the support of

THAT seventy percent of the population that came from the United States during the past six years" and who concluded that "the Liberal party in Saskatchewan was really desirous of assisting President Taft in making that province an adjunct of the United States."

ENGINEER CHILD WILL FURNISH FIGURES IN REFUTATION OF CHARGES

Intimates that Ferguson, Who Made Adverse Report on Paving, Not an Expert

Says Society of Civil Engineers May be Asked to Investigate

INTIMATING that he is preparing figures to refute the statistics concerning the loss that accrued to the city through careless inspection of paving contracts, City Engineer J. T. Child yesterday denied a rumor circulated about the city that he had resigned.

"There is nothing to the report," said Mr. Child last night. "I am not going out of here unless I am forced out."

The engineer intimated that Mr. W. C. Ferguson, who prepared the report showing how contractors had milted the city of thousands of dollars, was not an expert.

"The Canada Society of Civil Engineers may have something to say about this yet," declared the accused city official, who was recommended for dismissal by the council investigating committee.

Hot Fight Promised. The members' meeting of the council when the members of the investigating committee row out of the city return. The sidewalk who are backing up Mayor Mitchell, Commissioner Clarke and the other accused city officials, in the question of their dismissal or requested resignation is concerned, are laying plans to effect the efforts of the committee to oust the officials. On the other hand, Chairman Hornby of the council probe committee, has announced that the committee will surely prosecute its task to a finish.

HOT SESSION IS PROMISED WHEN DOMINION RAILWAY COMMISSION MEETS IN CALGARY

Statement of W. G. Hunt Before Board of Trade With Regard to Administration of Grain Act Arouses Storm of Protest from Farmers

FARMERS SAY RAILROADS RESPONSIBLE FOR SHORTAGE

Farmers' Representative Says Equal Car Distribution Clause is Needed as Lever to Compel Fair Treatment From Elevator Companies

Statements by certain members of the committee named by the Calgary board of trade in regard to car shortage before the Dominion Railway commission, July 25, that much of the shortage is due to the administration of the clause in the grain act providing for equalized distribution of cars between individual farmers and elevator men, has aroused a storm of hostile comment from the farmers.

Attacks Car Distribution Clause. At the board of trade meeting, when the committee was appointed, Mr. Hunt referred briefly to the clause in the grain act. He charged that it might take a farmer a number of days as many as ten in some instances, to load a car against three or four hours by an elevator, which might represent 35 farmers, yet the individual farmer was entitled to an equal share in the distribution of cars.

Blames the Railways. "The whole trouble of car shortage first hand and all the time is with the railways. They lack equipment and power and we can prove it to anyone. Granting that the railways do their best to a certain extent—and I am not prepared to grant that they do all the time, still the fact remains that they cannot handle the grain. We have instances in hand in our records to prove this."
