Dealers in This City Can't Get for there isn't one-fiftieth of the coal that is wanted, in sight. Ten times more than can be secured is wanted for the immediate necessities of manufactories.

There are two reasons for the deficiency. The operators are anxious in the first place to supply the demand in the west by shipping the coal up the lakes before navigation closes. They are besides experiencing the greatest trouble in getting enough rolling stock, both cars and locomotives, to distribute the coal.

Local dealers say that they are delivering the coal as quickly as it arrives in the city, but they say that the situation is far from reassuring.

Her woeful countenance and her absent-mindedness to the point of gloomy silence in the company of others have strengthened belief in the rumor that the Czar is seriously thinking of taking the advice of high church dignitaries to divorce his wife that he may marry a woman whose children will not all be daughters.

The Czarina is the mother of four children, all girls. She thought she had one more chance of regaining the goodwill of the Russian people by presenting the Czar with a son this autumn, but she was forced to the pitterest disappointment through one of the mysterious freaks of nature.

sion to their so-called orthodox belief was not sincere are said to be pressing "autocrat of all the Russias" to put her away.

The Czarina's lot is made still unhappier by numerous courtiers whose enmity she has aroused. Being the daughter of Queen Victoria's favorite

The object of the preancestors, has reported that for some immary examination was to select patients to be operated on by Dr. Adolph Lorenz, the University of Vienna specialist.

Dr. Lorenz is in San Francisco and is expected to reach this city on Dec. 2. Until his arrival cripples will be examined at the dispensary by Dr. Shaffer and his assistants, on Mondays, Wednesdays and Fridays. The dispensary reception room presented an interesting and pathetic spectacle yesterday when the cripples hobbled in on crutches or were carried in by their friends. One girl asked an attendant if Dr. Lorenz would operate upon anyone over the age of 21. She said she had heard that the operation was hopeless if the patient was over had been suffering from hip disease

The friends of the cripples had heard that no knives were to be used and that the cures were made by manipulation. could not understand it and talked in whispers about the "healing touch." When asked about the specialist's visit in this city, Dr. Shaffer said: "I wish the students of this uni-

versity to have an opportunity of seeing the greatest exponent of bloodless orthopaedic surgery while at work. I also wish to arouse a greater interest in this branch of surgery, especially in the poorer districts. "A certain fatalism is prevalent among the poorer classes, which leads them to look on any strange affliction as a mark of God's displeasure.

"In his profession, Dr. Lorenz has subordinated operations to mechanical work. The operations he will perform here will be confined to congenial dislocations of the hip. The charge of assault laid by Samuel Pearson against George Ponsford, William Reid and Louis Nash was given a further hearing today before Judge William Elliot. of the Apostolic Delegate.

Two London Hunters' Adventure on Prominent Canadian Clergymen and the Premier Take Part.

> Toronto, Nov. 19.-The Canadian Union periodically invite eminent churchmen to meet them socially. Some time ago the union invited Monsignor Falconio, Apostolic Delegate to Canada, to attend a complimentary dinner in his honor last night. Owing to his excellency's transference to Washington, the dinner became a farewell demonstration in his honor, and prominent clergymen and members of the laity from all parts of the province were invited.

> Mr. Justice MacMahon, president of the union, occupied the chair, and speeches were made by the chairman, the guest of the evening, the Bishop of London, Premier Ross, the Arch-bishop of Toronto and Mayor How-

His excellency was received with great cordiality. He returned his best thanks for the demonstration of attachment to the Holy Father. It was a proof of their loyalty to the church, it was a satisfaction to know that the church was so strong in Toronto. He regretted to leave Canada. In his three years' residence here he had larned to love Canada above any other country. While he admired the extent of our land, its productiveness and its beauty, he admired above al! the spirit which animated the Canadians. Although of different races and of different creeds, yet they lived in loyalty and friendship together, and the country was going on its way with its people bound by brotherly love and sure to prosper

GOOD WISHES FROM LONDON. In proposing the hierarchy Judge MacMahon referred to the disadvantages under which the labors of the hierarchy are sometimes performed. The church owed them a deep debt of gratitude for the work which they had performed.

The toast was responded to by His

His lordship expressed the belief that in the whole church there was not at the present time a more faithful, nationt and virtuous clerev the people of that diocese, to show their love for Toronto, had sent us two first-class archbishops to look after us, and he did not need to say that they had plenty of work to do when they got here. He also boasted that when the province wanted a good premier to look after the country it had to go to the diocese of London to find him. "If you want any more archbishops or any more cabinet ministers," he said, "we have a magnifi-cent and unlimited supply on hand all the time, and, therefore, I have great hopes for this country on that ac-count." Bishop McEvay concluded by thanking Mgr. Falconio for the very kind treatment he had received from his excellency during his stay in Canada, and by joining in the hope that his excellency might succeed in the important district and country and

"Business in our line is a great deal better than it was. In fact, I should say it was fully 50 per cent. better than it was two years ago. This can be traced to the big combine organized a few years ago, which includes 44 canneries, and which has helped largely to steady things. The great trouble out there has been that there are a lot of men in business without sufficient capital to float them. Permanent Cure for Neuralgia. Experienced sufferers state that no Experienced sufferers state that no remedy relieves neuralgia so quickly as a hot application of Polson's Nerviline, the strongest liniment made. Nerviline is certainly very penetrating, and has a powerful influence over neuralgic pains, which it destroys almost at once. Nerviline is highly recommended for rheumatism, lumbago, sciatica and toothache. Better try a 25c bottle; it's all
