THIS PRETTY CANADIENNE

Saved From Terrible Kidney Disease By "Fruit-a-tives."

Masson, P.Q., Nov, 16th., 1904 "I have much pleasure in reporting to you the great benefit I have received from taking "Fruit-a-tives"-and I feel that I cannot say too much in favor of a medicine which has done me so much good. I was a martyr to that distressing complaint, chronic constipation accompanied with severe headaches, backache, sick stomach and all the symptoms of dyspepsia. I had also a dreadful complexion, sallow in the extreme and black under the eyes. I had every symptom of kidney irritation and I had been told by physicians that my kidneys were affected. I consulted a number of physicians and took various remedies but received very little benefit. Last May I was advised to try "Fruit-a-tives" and when I began to take them I had little faith of getting anything to give me permanent relief, but after I had taken half a box of "Fruit-a-tives"

I began to feel better and before I had finished one box the constipation was relieved, the headaches left me, the pain in my back was better and I could sleep as soundly as when I was child. Also, my complexion began to clear up again, all the sallowness disappeared and the black circles under my eyes went away. The pain in the back gradually left me and all signs of kidney disease disappeared by the first of August after I had taken three boxes. Since then I have continued to improve and now I have none of my old symptoms and my appetite is good, digestion splendid and my complexion as clear as when I was a young girl. Also the constipation from which I had suffered so long has been entirely cured and it is not necessary for me to take the "Fruit-a-tives" now as I am quite well in every way. I took no medicine but "Fruit-a-tives" but I followed faithfully the directions as to diet etc., given in the pamphlet which accompanies each box of "Fruit-a-tives."

Every part of the body is constantly decaying and being renewed. The dead cells, or tissue waste, should be removed by the skin, kidneys and bowels. When these organs do not act regularly, this poisonous matter stays in the system—is taken up by the blood carried to heart, liver, stomach, brain and nerves all over the body -and poisons everything it touches.

"Fruit-a-tives" keep each organ clean and healthy. "Fruit-atives" act on the skin, stimulating the millions of minute glands and opening the pores so the waste can escape. They act on the liver sending more bile into the bowels and making the bowels move regularly and naturally every day. They act on the kidneys, strengthening and invigorating these organs and curing all kidney
